Choral Music. Selections. English, German and Latin Oxford University Press

• First new addition to the popular and well-established "Welcome to" series in years • First volume to introduce and explain church music and congregational singing for beginners The book discusses the importance of hymn singing and service music in Episcopal worship, as well as the history, structure, and content of The Hymnal 1982. While most parishioners participate in music making at some level (such as singing hymns or common responses), fewer people might understand the specific genres that comprise the music of an Episcopal worship service or the liturgical meaning behind each selection. This book provides a more in-depth understanding of this rich and complex tradition, discussing the history and evolution of music within the Episcopal Church, including its Anglican roots. Additional topics--such as psalm singing, anthems, major works, organs, and other Anglican traditions (such as Lessons and Carols)--are also addressed. Music is an essential element in Anglican worship; in fact, The Hymnal 1982 is used in virtually every Episcopal service of worship that involves singing. While most parishioners participate in music making at some level (such as singing hymns or common responses), fewer people might understand the specific genres that comprise the music of an Episcopal worship service or the liturgical meaning behind each selection. This book provides a more in-depth understanding of this rich and complex tradition, discussing the history and evolution of music within the Episcopal Church, including its Anglican roots. The book is designed to help clarify—and simplify—the importance of hymn singing and service music in Episcopal worship, as well as explain the history, structure, and content of The Hymnal 1982.

The first details the attraction to choral singing and the ways it was linked to different parts of society, and to the role of choral voices in the two principal large-scale genres of the period: the symphony and opera. A second section highlights ten choral-orchestral masterworks that are a central part of the repertoire. The final section presents overview and focus chapters covering composers, repertoire (both small and larger works), and performance life in an historical context from over a dozen regions of the world: Britain and Ireland, the Czech Republic, France, Germany, Hungary, Italy, Latin America, the Philippines, Poland, Russia, Scandinavia and Finland, Spain, and the United States. An Investigation of Selected Colonial Latin American Vocal/choral Works, Including Practical Performance Editions Routledge

The ethnically and geographically heterogeneous countries that comprise Latin America have each produced music in unique styles and genres - but how and why have these disparate musical streams come to fall under the single category of "Latin American music"? Reconstructing how this category came to be, author Pablo Palomino tells the dynamic history of the modernization of musical practices in Latin America. He focuses on the intellectual, commercial, musicological, and diplomatic actors that spurred these changes in the region between the 1920s and the 1960s, offering a transnational story based on primary sources from countries in and outside of Latin America. The *Invention of Latin American Music* portrays music as the field where, for the first time, the cultural idea of Latin America disseminated through and beyond the region, connecting the culture and music of the region to the wider, global culture, promoting the now-established notion of Latin America as a single musical market. Palomino explores multiple interconnected narratives throughout, pairing popular and specialist traveling musicians, commercial investments and repertoires, unionization and musicology, and music pedagogy and Pan American diplomacy. Uncovering remarkable transnational networks far from a Western cultural center, *The Invention of Latin American Music* firmly asserts that the democratic legitimacy and massive reach of Latin American identity and modernization explain the spread and success of Latin American music.

María Guinand, awarded the 2009 Helmuth Rilling Prize by the Internationale Bachakademie Stuttgart, is a Venezuelan choral music educator who has gained international renown through her work as a conductor, teacher, and advocate of the choral art. A leader in the development of choral music education in Venezuela, she has been instrumental in the development and success of the Fundación Schola Cantorum and the choral program at the Universidad Simón Bolívar. As part of her work at the Fundación Schola Cantorum, Guinand has taught hundreds of singers over the years and established an instructional system similar to that of the National System of Youth and Children's Orchestras of Venezuela also known as FESNOJIV created by José Antonio Abreu. This system has allowed Guinand to impact the lives of many Venezuelan children through choral music, directly and indirectly. Furthermore, her work as a conductor of the Schola Cantorum and the Cantoría Alberto

Grau has gained her numerous musical accolades, including a Grammy Award nomination in 2002 for Best Choral Performance for the recording of *La Pasión Según San Marcos*, composed by Osvaldo Golijov. In addition, María Guinand was a professor of music at the Universidad Simón Bolívar for over twenty-five years. There she taught an array of music courses and conducted the Orfeón Universitario Simón Bolívar; under her direction, this choir recorded and toured extensively. One of her most important contributions to this institution is the creation of the master's degree program in choral conducting, which has given her national and regional visibility. As a leader and promoter of choral music, Guinand has been at the forefront of several organizations, including the Academia Bach de Venezuela, the International Federation for Choral Music, and the development of the Andean Project of Social Action through Music. This study documents and preserves a history of Guinand's contributions within the field of choral music in Venezuela and abroad.
