This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for

German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Letter From the Editor, 2012Dear Reader, Thank you for picking up this magazine. Inside you will find a world of wonders. If you are like most people you will flick through and look at the art first. We are proud to feature gallery prints from iconic photographer Kim Weston. The art editor and I met Kim a few years ago at the Henry Miller Library over dinner, and have been trying to get his beautiful photographs in our magazine ever since. It is thanks to the dogged tenacity of River Tabor that we are able to feature work by an astounding member of the Weston dynasty. Tim Youd did an entire art exhibit

based on a passage out of Henry Miller's Tropic of Capricorn. We have a poem by Big Sur visitor and raconteur Richard Brautigan. This poem seems to embody the internal landscape of the author. We are fortunate to have so many talented people in the planisphere that is the Henry Miller Memorial library, and are happy to have so many West Coast writers and artists featured in this issue. The Library is an amazing cultural venue, a local's hang out, a bookstore, a concert venue, and a film theatre, but it is also a fragile watershed. Our commitment to keeping this delicate ecosystem in check is part of why this year we have launched into our capital fundraising campaign, in an effort to retrofit Emil White's little cabin into a place that hosts such acts as Thurston Moore of Sonic Youth. I met Thurston on a damp afternoon at the library. I am not an interviewer per say, but I do love listening to people's stories. Thurston Moore and I talked about poetry and art under a persimmon tree, the interview featured herein is the fruit...The East Coast is always well represented since half of our editors live in Brooklyn, which I like to call the poetry capital of the U.S. of A. We

have the wondrous poets Leah Umansky, J. Hope Stein, Joanna Penn Cooper and Angela Wong featured Enjoy! Maria Garcia Teutsch

A charming tale for fans of Marley & Me

and Dewey's Nine Lives. Whenever middle-aged desert tour guide Forrest Bryant Johnson went out on his daily walks into the Mojave, all was usually peaceful and serene. But one beautiful summer day in 1987, Forrest heard a cry of distress. Following the cries, he came upon a small bobcat kitten, injured, orphaned, and desperately in need of help. So Forrest took his new feline friend home for a night. But when the little "trooper" clearly needed some more time to recoup, that night turned into two nights, a week, and eventually nineteen years. And so Trooper became a part of the Johnson family. And in those nineteen years, Trooper lived his nine lives to the fullest. He explored desert flora and fauna around him, befriending kit foxes, jackrabbits, desert tortoises, and

other creatures and getting into mischief along the way. Trooper became a "big brother" to stray tabby Little Brother, teaching, guiding, and protecting Brother on the pair's adventures and misadventures. He became a beloved patient at his local vet, and cherished housemate of Forrest's wife, Chi. And Trooper even managed to melt the icy heart of a tough guy neighbor. But most of all, throughout his nineteen years, Trooper became Forrest's best friend, as the two shared each other's worries and frustrations, musings and rants, joys and laughter. Harrowing and heartfelt, Trooper: The Bobcat Who Came in from the Wild is for any reader who ever had their heart stolen by their pet.
