I was inspired to create this Big book of Writing for preschoolers. My experience as a preschool teacher has inspired me to promote these same exercises to stimulate the learning growth of Robert, my son who desired to write at a young age. This book I created is divided into several sections that include: writing exercises, learning to write the alphabet, learning to write numbers, and connecting the dots. It is a great tool to help young students who are struggling to learn to write the alphabet at a comfortable level.
