Books Collective African universities including the University of Dar es Salaam faced major resource constraints in the 1970's and 1980's. These constraints had a negative impact on higher education in Africa leading to a decline in the quality of education provided, stagnant or falling enrolments in the face of rapidly expanding populations, deteriorating infrastructure and staff exodus to greener pastures. Written by the Vice Chancellor of the University of Dar es Salaam 1991-2007 this book captures the achievements which were engineered under his leadership to transform the University into an institution which would be better placed to

meet the development needs of Tanzania in the 21st century. The book covers the bleak atmosphere prevailing when the author took over as Vice Chancellor in 1991, transformation achievements in the academic, finance and gender aspects, a sampling of the administrative challenges faced and some of the unfinished business which was passed on to succeeding Vice Chancellor. Journal Simon and Schuster The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases,

disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

James R. Hannibal presents a thrilling adventure through history, complete with mysteries, secret

items, codes, and a touch of magic in this stunning middle grade debut. Thirteen-year-old Jack Buckles is great at finding things. Not just a missing glove or the other sock, but things normal people have long given up on ever seeing again. If only he could find his father, who has disappeared in London without a trace. But Jack's father was not who he claimed to be. It turns out that he was a member of a secret society of detectives that has served the crown for centuries—and membership into the Lost Property Office is Jack's inheritance. Now the only way Jack will ever see his father again is if he finds what the nefarious Clockmaker is after: the Ember, which holds

a secret that has been kept since the Great Fire of London. Will Jack be able to find the Ember and save his father, or will his talent for finding things fall short?

Changing Concepts of Contract is a prestigious collection of essays that re-examines the remarkable contributions of Ian Macneil to the study of contract law and contracting behaviour. Ian Macneil, who taught at Cornell University, the University of Virginia and, latterly, at Northwestern University, was the principal architect of

relational contract theory, an approach that sought to direct attention to the context in which contracts are made. In this collection, nine leading UK contract law scholars re-consider Macneil's work and examine his theories in light of new social and technological circumstances. In doing so, they reveal relational contract theory to be a pertinent and insightful framework for the study and practice of the subject, one that presents a powerful challenge to the limits of orthodox contract law scholarship. In tandem with his academic life, Ian Macneil was also the 46th Chief of the Clan Macneil. Included in this volume is a

Preface by his son Rory Macneil, the 47th Chief, who reflects on the influences on his father's thinking of those experiences outside academia. The collection also includes a Foreword by Stewart Macaulay, Malcolm Pitman Sharp Hilldale Professor Emeritus at the University of Wisconsin-Madison, and an Introduction by Jay M. Feinman, Distinguished Professor of Law at Rutgers School of Law.
