### Mammalogy: Adaptation, Diversity, Ecology:

**Amazon.co.uk ...** Mammalogy 3rd Edition Feldhamer George A. Feldhamer is a professor of zoology at Southern Illinois University and coauthor or coeditor of several books including Wild Mammals of North America: Biology, Management, and Conservation and Mammals of the National Parks, both published by Johns Hopkins. Lee C. Drickamer is the Regents' Professor in the Department of Biological Sciences at Northern Arizona University. Mammalogy: Adaptation, Diversity, Ecology 3rd Edition "Further exploration of mammalogy, as a case study in natural history and comparative phylogeny, will be richly enhanced for anyone who studies this new edition of an excellent publication. Feldhamer et al. provide a resource for comparing, contrasting, and appreciating the whole array of orders and species that make up the Class Mammalia." Mammalogy: Adaptation, Diversity, Ecology / Edition 3 by ... A completely revised and updated edition of the leading mammalogy textbook, featuring color photographs throughout and a new streamlined structure for enhanced use in courses. There are more than 6,400 species in the class Mammalia, including the blue whale—the largest animal that has ever lived—and the pygmy shrew, which weighs little more than a dime. Mammalogy | Johns Hopkins University Press Books Buy Mammalogy: Adaptation, Diversity, Ecology 3rd edition (9780801886959) by George A. Feldhamer for up to 90% off at Textbooks.com.
