My name is John Black. I used to be your typical nerd, a total weakling, letting bullies like Bobby Graden push me around. Then one day, Bobby and I got hit by a car. Somehow, the accident changed us, as if something inside us responded. It made us strong. More than strong, actually. It gave us power. That power brought us together, our shared secret creating a friendship despite our differences. Bobby and I could do things no one else could, and it was exhilarating, fun. Until the day we found out we weren't alone. And that, for others, power can be deadly serious.

The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this "vital, necessary, and beautiful book" (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and "allows us to understand racism as a practice not restricted to 'bad people' (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

JOHN SPENCER'S NAME IS SYNONYMOUS WITH the halcyon days of snooker in this country. Along with his friend and rival Ray Reardon, he helped to popularise the sport to such an extent that in the 1970s it became one of the UK's top televised sports, attracting millions of viewers for the major championships. Spencer was born into a poor working class family in Radcliffe, Manchester on June 18, 1935 with the country still suffering the aftermath of the economic slumps of the 1920s and 30s and plunging headlong into the Second World War. As a youngster, he spent his formative years growing up in the shadow of the conflict. At the age of 15 he took up snooker, a game for

which he had a rare gift, and was soon making century-plus breaks, but his National Service intervened and he gave up the game for over ten years. His appetite for snooker never diminished however, and in 1963 he entered the English Amateur Championships, reaching the final before being beaten by Reardon. He was runner-up again the following year before finally claiming the title in 1966 by beating Marcus Owen. he lost to Marcus's brother Gary in the final. Gary Owen, Reardon and Spencer then turned professional, the first new professionals in the sport since 1951, marking the beginning of the modern era for snooker. At the 1969 World Championships Spencer gained his revenge on Owen to win the first of his three World titles and begin a domination of the sport by himself and Reardon that was to last the best part of a decade. Reardon triumphed over Spencer in the 1970 semi-finals, but Spencer was to claim his title back by beating Warren Simpson the following November in Australia in what were the de facto 1971 championships. Beaten by Alex Higgins in the 1972 final, he did not claim his third and last World title until 1977, when he won the inaugural event at the Crucible, a place which has since become the home of the World Championship. However, during this period he won several other tournaments, including the Norwich Union Open Championship (twice), the Benson and Hedges Masters and the Benson and Hedges Irish Master. Black which catapulted him into the nation's consciousness. He won the Pot Black title on no less than three occasions, in 1970, 1971 and 1976, and his celebrity status was assured. Double vision affected his play by the end of the 1970s and he won his final title, the Holsten Lager International, in 1979, although he did reach the quarterfinals of the British Open in 1987. He became a popular broadcaster noted for his intelligent commentary and dry wit, and, moreover, his popularity within the sport saw him spend six years as chairman of the sport's governing body, the WPBSA, from 1990. But perhaps the defining moment in Spencer's life occurred on May 9, 1985 at the Pontins tournament in Prestatyn when the double vision problems, which he had been experiencing sporadically for the best part of ten years, became much worse. He was diagnosed with the rare condition Myasthenia Gravis and it is a condition with which he has to live with for the rest of his life. with Myasthenia Gravis, his early life of poverty in wartime Manchester, his magnificent snooker career and his memories of the men who he played alongside. A rare glimpse of a golden era in British sport is accompanied by Spencer's observations on the way the game has developed since his retirement. Painfully honest, funny and, at times, sad - this is the account one man's journey from greatness through to the unknown and the brink of tragedy.

Since the founding of St. Louis, African Americans have lived in communities throughout the area. Although St. Louis' 1916 "Segregation of the Negro Ordinance" was ruled unconstitutional, African Americans were restricted to certain areas through real estate practices such as steering and red lining. Through legal efforts in the court cases of Shelley v. Kraemer in 1948, Jones v. Mayer in 1978, and others, more housing options became available and the population dispersed. Many of the communities began to decline, disappear, or experience urban renewal.

John Ogbu has studied minority education from a comparative perspective for over 30 years. The study reported in this book--jointly sponsored by the community and the school district in Shaker Heights, Ohio--focuses on the academic performance of Black American students. Not only do these students perform less well than White students at every social class level, but also less well than immigrant minority students, including Black immigrant students. Furthermore, both middle-class Black students in suburban school districts, as well as poor Black students in inner-city schools are not doing well. Ogbu's analysis draws on data from observations, formal and informal interviews, and statistical and other data. He offers strong empirical evidence to support the cross-class existence of the problem. The book is organized in four parts: *Part I provides a description of the twin problems the study addresses--the gap between Black and White students in school performance and the low academic engagement of Black students; a review of conventional explanations; an alternative perspective; and the framework for the study. *Part II is an analysis of societal and school factors contributing to the problem, including race relations, Pygmalion or internalized White beliefs and expectations, levelling or tracking, the roles of teachers, counselors, and discipline. *Community factors--the focus of this study--are discussed in Part III. These include the educational impact of opportunity structure, collective identity, cultural and language or dialect frame of reference in schooling, peer pressures, and the role of the family. This research focus does not mean exonerating the system and blaming minorities, nor does it mean neglecting school and society factors. Rather, Ogbu argues, the role of community forces should be incorporated into the discussion of the academic achievement gap by researchers, theoreticians, policymakers, educators, and minorities themselves who genuinely want to improve the academic achievement of African American children and other minorities. *In Part IV, Ogbu presents a summary of the study's findings on community forces and offers recommendations--some of which are for the school system and some for the Black community. Black American Students in an Affluent Suburb: A Study of Academic Disengagement is an important book for a wide range of researchers, professionals, and students, particularly in the areas of Black education, minority education, comparative and international education, sociology of education, educational anthropology, educational policy, teacher education, and applied anthropology.

Written during the 1970s, John McGrath's winding, furious, innovative play tracks the economic history and exploitation of the Scottish Highlands from the post-Rebellion suppression of the clans to the story of the Clearances: in the nineteenth century, aristocratic landowners discovered the profitability of sheep farming, and forced a mass emigration of rural Highlanders, burning their houses in order to make way for the Cheviot sheep. The play follows the thread of capitalist and repressive exploitation through the estates of the stag-hunting landed gentry, to the 1970s rush for profit in the name of North Sea Oil. Described by the playwright as having a "ceilidh" format, *The Cheviot, the Stag and the Black, Black Oil* draws on historical research alongside Gaelic song

and the Scots' love of variety and popular entertainment to tell this epic story. A totally distinctive cultural and theatrical phenomenon, the play championed several new approaches to theatre, raising its profile as a means of political intervention; proposing a collective, democratic, collaborative approach to creating theatre; offering a language of performance accessible to working-class people; producing theatre in non-purpose-built theatre spaces; breaking down the barrier between audience and performers through interaction; and taking theatre to people who otherwise would not access it. The play received its premiere in 1973 by the agit-prop theatre group 7:84, of which John McGrath was founder and Artistic Director, and toured Scotland to great critical and audience acclaim.

Concentrating on the general shift away from color that began around 1800, Harvey traces the

transition to black from the court of Burgundy in the fifteenth century, through sixteenth-century Venice, seventeenth-century Spain and the Netherlands. He uses paintings from Van Eyck and Degas to Francis Bacon, religious art, period lithographs, wood engravings, costume books, newsphotos, movie stills and related sources in his compelling study of the meaning of color and clothes.

My name is John Black and my time is up. It seems like the list of my enemies is growing while I can count my friends on just one hand. I'm not sure who I can trust anymore. Maybe no one. Superpowered villains, monsters, even the government. Everyone's out to get me. Even my sister Holly seems to be infected with something terrible. Or worse, someone terrible. I've tried for so long to save her from all this, but now I have to wonder: How can you save a person when maybe they don't want to be saved?
