The Complete Idiot's Guide to Literary Theory and Criticism Penguin

A New York Times Book Review Notable Book • Finalist for the Pulitzer Prize for Fiction • Longlisted for the Women's Prize for Fiction "Easily the funniest book I've read this year." —GQ "Masterly funny debut novel . . . Erudite but never pretentious, *The Idiot* will make you crave more books by Batuman." —Sloane Crosley, *Vanity Fair* A portrait of the artist as a young woman. A novel about not just discovering but inventing oneself. The year is 1995, and email is new. Selin, the daughter of Turkish immigrants, arrives for her freshman year at Harvard. She signs up for classes in subjects she has never heard of, befriends her charismatic and worldly Serbian classmate, Svetlana, and, almost by accident, begins corresponding with Ivan, an older mathematics student from Hungary. Selin may have barely spoken to Ivan, but with each email they exchange, the act of writing seems to take on new and increasingly mysterious meanings. At the end of the school year, Ivan goes to Budapest for the summer, and Selin heads to the Hungarian countryside, to teach English in a program

run by one of Ivan's friends. On the way, she spends two weeks visiting Paris with Svetlana. Selin's summer in Europe does not resonate with anything she has previously heard about the typical experiences of American college students, or indeed of any other kinds of people. For Selin, this is a journey further inside herself: a coming to grips with the ineffable and exhilarating confusion of first love, and with the growing consciousness that she is doomed to become a writer. With superlative emotional and intellectual sensitivity, mordant wit, and pitch-perfect style, Batuman dramatizes the uncertainty of life on the cusp of adulthood. Her prose is a rare and inimitable combination of tenderness and wisdom; its logic as natural and inscrutable as that of memory itself. *The Idiot* is a heroic yet self-effacing reckoning with the terror and joy of becoming a person in a world that is as intoxicating as it is disquieting. Batuman's fiction is unguarded against both life's affronts and its beauty--and has at its command the complete range of thinking and feeling which they entail. Named one of the best books of the year by Refinery29 • Mashable One • Elle Magazine • The New York Times • Bookpage • Vogue • NPR • BuzzFeed • The Millions

From Plato to Freud to ecocriticism, the book illustrates dozens of stimulating-and sometimes notoriously complex-perspectives for approaching literature

and film. The book offers authoritative, clear, and easy-to-follow explanations of theories that range from established classics to the controversies of current theory. Each chapter offers a conversational, step-by-step explanation of a single theory, critic, or issue, accompanied by concrete examples for applying the concepts and engaging suggestions for related literary readings. Following a section on the foundations of literary theory, the book is organized thematically, with an eye to the best way to develop a real, working understanding of the various theories. Cross-references are particularly important, since it's through the interaction of examples that readers most effectively advance from basic topics and arguments to some of the more specialized and complicated issues. Each chapter is designed to tell a complete story, yet also to reach out to other chapters for development and debate. Literary theorists are hardly unified in their views, and this book reflects the various traditions, agreements, influences, and squabbles that are a part of the field. Special features include hundreds of references to and quotations from novels, stories, plays, poems, movies, and other media. Online resources could also include video and music clips, as well as high-quality examples of visual art mentioned in the book. The book also includes periodic "running" references to selected key titles (such as *Frankenstein*) in order to illustrate the effect of different theories on a single work.

Collects all three volumes of the Eisner Award-nominated graphic novels series, which skewers a self-important male literary poser. Living in a beat-up motel and consorting with the downtrodden as well as the mid-level literati, Fante Bukowski must overcome great obstacles — a love interest turned rival, ghostwriting a teen celebrity's memoirs, no actual talent — to gain the respect and adoration from critics and, more importantly, his father. Van Sciver has created a scathing, hilarious, and empathetic character study of a self-styled author determined that he's just one more poem (or drink) away from success. The book includes a foreword by novelist Ryan Boudinot (*Blueprints of the Afterlife*), a facsimile reproduction of Bukowski's literary debut, *6 Poems* (thought lost to time in the wake of a motel fire that destroyed the entire original print run), a "Works Cited" section, and a selection of "visual tributes" by over two dozen cartoonists including Nina Bunjevaca, Simon Hanselmann, Jesse Jacobs, Ed Piskor, Leslie Stein, and others.

Never has the world of journalism been so explosive, so global, and so competitive. Forget hourly news flashes; we live in a world of 24-hour breaking news with radio and TV stations and Internet sites updating stories by the minute and newspapers adjusting to stay fresh, in-depth, and relevant. While the number of newspapers and TV and radio stations has dropped over the last half century in the United States, instant, free-access Internet news portals have grown precipitously to not only fill any gaps in coverage but to force Big Media to change its game plans or risk losing readership. But in no way does this suggest any aspect of journalism is heading for the garbage heap—especially newspapers. Never before have Americans been so engaged in their world, and many mediums are needed to satiate that collective appetite for knowledge.
