## HARDY DRAVEN

### Writings on Culture and Style in Contemporary Japan

Tuttle Publishing

Everyday aesthetic experiences and concerns occupy a large part of our aesthetic life. However, because of their prevalence and mundane nature, we tend not to pay much attention to them, let alone examine their significance. Western aesthetic theories of the past few centuries also neglect everyday aesthetics because of their almost exclusive emphasis on art. In a ground-breaking new study, Yuriko Saito provides a detailed investigation into our everyday aesthetic experiences, and reveals how our everyday aesthetic tastes and judgments can exert a powerful influence on the state of the world and our quality of life. By analysing a wide range of examples from our aesthetic interactions with nature, the environment, everyday objects, and Japanese culture, Saito illustrates the complex nature of seemingly simple and innocuous aesthetic responses. She discusses the inadequacy of art-centered aesthetics, the aesthetic appreciation of the distinctive characters of objects or phenomena, responses to various manifestations of transience, and the aesthetic expression of moral values; and she examines the moral, political, existential, and environmental implications of these and other issues.

God and Man in the Qur'an OUP Oxford

This is the first English translation of a text outlining a distinctively plebian Japanese aesthetic based on a unique category of taste, "iki"

**A Reader** North Atlantic Books

This is the first work in English on the history of the Japanese philosophy of art, from its inception in the 1870s to the present.

### The Embodied Present and the Ordinary Grace of Being

Stanford University Press

This photographic Tokyo travel guide explores the dynamic Japanese culture, art and architecture that make Tokyo a world-class city. It has been said that "every city has its high points, but Tokyo is all exclamation points!" The largest and most populous city in the world, Tokyo must be experienced in person to be understood truly. The next best thing? Tokyo Megacity—a visual and descriptive exploration of a city that combines old with new and traditional with trendy, like no other city in the world. This extraordinary book explores Tokyo through 250 revealing photographs by well-known photographer Ben Simmons and over 30 essays by famed author Donald Richie. Their love of the city, their sense of its history, and the deep respect and pure joy felt in being here, shine through on every page. Simmons and Richie show us how modern Tokyo evolved from a patchwork of villages that still exist today as distinct neighborhoods and districts to the modern, trendsetting metropolis renowned the world over—that combine to make Tokyo a unique and special place. Tokyo Megacity presents the districts of the city in the order that they originally developed, starting with the Imperial Palace, sliding down to the "Low City" along the Sumida River, soaring back up

to the "Mid-City," and finally, climbing the hills to the newer districts of the "High City." The combination of Ben Simmons' photographs and Donald Richie's text capture, as never before, the tremendous diversity, vitality and sheer livability of the megacity that is Tokyo.

Lafcadio Hearn's Japan Stone Bridge Press, Inc.

"An elegiac prose celebration . . . a classic in its genre."—Publishers Weekly In this acclaimed travel memoir, Donald Richie paints a memorable portrait of the island-studded Inland Sea. His existential ruminations on food, culture, and love and his brilliant descriptions of life and landscape are a window into an Old Japan that has now nearly vanished. Included are the twenty black and white photographs by Yoichi Midorikawa that accompanied the original 1971 edition. Donald Richie (1924–2013) was an internationally recognized expert on Japanese culture and film. Yoichi Midorikawa (1915–2001) was one of Japan's foremost nature photographers.

Everyday Aesthetics University of Hawaii Press

A collection of four early essays written by Nietzsche: an attack on David Strauss' *The old and new faith: a confession*; an investigation of the music, drama and personality of Richard Wagner; an alternative way of reading history; and an explanation of how Schopenhauer might bring on a resurgence of German culture.

A Novel Tuttle Publishing

The Essay Forms A Classic Description Of The Collision Between The Shadows Of Traditional Japanese Interiors And The Dazzling Light Of The Modern Age.

The Japanese Have a Word for It Stone Bridge Press, Inc.

There are qualities we all yearn to experience in our lives—peace, simplicity, grace, connection, clarity. Yet these qualities evade us because each of them arises from an experience of wholeness, and we live in a culture that enforces divisions within each of us. In *Radical Wholeness*, Philip Shepherd shows the countless ways in which we are persuaded to separate from the body and live in the head. Disconnected from the body's intelligence, we also disconnect from the wholeness of the present. This schism within us is the primary source of stress not just in our personal lives, but for the systems of the planet. Drawing from neuroscience, anthropology, physics, the arts, myth, personal stories and his experiences helping people around the world to experience wholeness, Philip Shepherd illuminates what true wholeness means and offers practices designed to help readers soften into the intelligence of the body. *Radical Wholeness* is a call to action: to recover wholeness and experience a new way of being.

Essays on Contemporary Japan McGraw-Hill Education

An essential reference for all game designers, this 1938 classic is "a fascinating account of 'man the player' and the contribution of play to civilization" (Harper's) In this classic evaluation of play

that has become a “must-read” for those in game design, Dutch philosopher Johan Huizinga defines play as the central activity in flourishing societies. Like civilization, play requires structure and participants willing to create within limits. Starting with Plato, Huizinga traces the contribution of Homo Ludens, or “man the player” through Medieval Times, the Renaissance, and into our modern civilization. Huizinga defines play against a rich theoretical background, using cross-cultural examples from the humanities, business, and politics. Homo Ludens defines play for generations to come.

The philosopher's controversial link with Heidegger is explored by Jon Mark Mikkelsen in the final essay, which concludes that, although Heidegger's view of art is consistent, both historically and conceptually, with his political involvement with fascism, the same cannot be said of Kuki."

Wabi Sabi Random House

This collection begins with an engaging historical overview of Japanese aesthetics and offers contemporary multidisciplinary and interdisciplinary perspectives on the artistic and aesthetic traditions of Japan and the central themes in Japanese art and aesthetics.

Wabi-sabi for Artists, Designers, Poets & Philosophers Lexington Books

A new collection of essays about Japan.

*Tokyo Megacity* University of Hawaii Press

"Some of the essays provide a general introduction to the basic theories of Japanese aesthetics, others deal with poetry and theater, and a third group discusses cultural phenomena directly related to classic Japanese literature.

A History Stone Bridge Press

Developed out of the aesthetic philosophy of cha-no-yu (the tea ceremony) in fifteenth-century Japan, wabi sabi is an aesthetic that finds beauty in things imperfect, impermanent, and incomplete. Taken from the Japanese words wabi, which translates to less is more, and sabi, which means attentive melancholy, wabi sabi refers to an awareness of the transient nature of earthly things and a corresponding pleasure in the things that bear the mark of this impermanence. As much a state of mind—an awareness of the things around us and an acceptance of our surroundings—as it is a design style, wabi sabi begs us to appreciate the simple beauty in life—a chipped vase, a quiet rainy day, the impermanence of all things. Presenting itself as an alternative to today's fast-paced, mass-produced, neon-lighted world, wabi sabi reminds us to slow down and take comfort in the simple, natural beauty around us. In addition to presenting the philosophy of wabi-sabi, this book includes how-to design advice—so that a transformation of body, mind, and home can emerge. Chapters include: History: The Development of Wabi Sabi Culture: Wabi Sabi and the Japanese Character Art: Defining Aesthetics Design: Creating Expressions with Wabi Sabi Materials Spirit: The Universal Spirit of Wabi Sabi

*Homo Ludens* Beacon Press

What might Godzilla and Kurosawa have in common? What, if anything, links Ozu's sparse portraits of domestic life and the colorful worlds of anime? In *What Is Japanese Cinema?* Yomota Inuhiko provides a concise and lively history of Japanese film that shows how cinema tells the story of Japan's modern age. Discussing popular works alongside auteurist masterpieces, Yomota considers films in light of both Japanese cultural particularities and cinema as a worldwide art form. He covers the history of Japanese film from the silent era to the rise of J-Horror in its historical, technological, and global contexts. Yomota shows how Japanese film has been shaped by traditional art forms such as kabuki theater as well as foreign influences spanning

Hollywood and Italian neorealism. Along the way, he considers the first golden age of Japanese film; colonial filmmaking in Korea, Manchuria, and Taiwan; the impact of World War II and the U.S. occupation; the Japanese film industry's rise to international prominence during the 1950s and 1960s; and the challenges and technological shifts of recent decades. Alongside a larger thematic discussion of what defines and characterizes Japanese film, Yomota provides insightful readings of canonical directors including Kurosawa, Ozu, Suzuki, and Miyazaki as well as genre movies, documentaries, indie film, and pornography. An incisive and opinionated history, *What Is Japanese Cinema?* is essential reading for admirers and students of Japan's contributions to the world of film.

*Semantics of the Qur'anic Weltanschauung* Springer

Historical, geographical, cultural and economic facts complement colour photographs to create an introduction to Japan.

*Japanese Wisdom for a Perfectly Imperfect Life* SUNY Press

Environmental aesthetics crosses several commonly recognized divides: between analytic and continental philosophy, Eastern and Western traditions, universalizing and historicizing approaches, and theoretical and practical concerns. This volume sets out to show how these perspectives can be brought into conversation with one another. The first part surveys the development of the field and discusses some important future directions. The second part explains how widening the scope of environmental aesthetics demands a continual rethinking of the relationship between aesthetics and other fields. How does environmental aesthetics relate to ethics? Does aesthetic appreciation of the environment entail an attitude of respect? What is the relationship between the theory and practice? The third part is devoted to the relationship between the aesthetics of nature and the aesthetics of art. Can art help "save the Earth"? The final part illustrates the emergence of practical applications from theoretical studies by focusing on concrete case studies.

A follow-up book to the classic *Wabi-Sabi: for Artists, Designers, Poets & Philosophers*.

*The Complete Stories* Kodansha Amer Incorporated

This collection of writings from Lafcaido Hearn paints a rare and fascinating picture of pre-modern Japan Over a century after his death, author, translator, and educator Lafcaido Hearn remains one of the best-known Westerners ever to make Japan his home. Almost more Japanese than the Japanese—"to think with their thoughts" was his aim—his prolific writings on things Japanese were instrumental in introducing Japanese culture to the West. In this masterful anthology, Donald Richie shows that Hearn was first and foremost a reliable and enthusiastic observer, who faithfully recorded a detailed account of the people, customs, and culture of late nineteenth-century Japan. Opening and closing with excerpts from Hearn's final books, Richie's astute selection from among "over 4,000 printed pages" not including correspondence and other writing, also reveals Hearn's later, more sober and reflective attitudes to the things that he observed and wrote about. Part One, "The Land," chronicles Hearn's early years when he wrote primarily about the appearance of his adopted home. Part Two, "The People," records the author's later years when he came to terms with the Japanese themselves. In this anthology, Richie, more gifted in capturing the essence of a person on the page than any other foreign writer living in Japan, has picked out the best of Hearn's evocations. Select writings include: The Chief City of the Province of the Gods Three Popular Ballads In the Cave of the Children's Ghosts Bits of Life and Death A Street Singer Kimiko On A Bridge

The Japanese Art of Impermanence Tuttle Publishing

From his vantage point as a garden designer and writer based in

Kyoto, Marc Peter Keane examines the world around him and delivers astonishing insights through an array of narratives. How the names of gardens reveal their essential meaning. A new definition of what art is. What trees are really made of. The true

meaning of the enigmatic torii gate found at Shinto shrines. Why we give flowers as gifts. The essential, underlying unity of the world.
