Avocado (*Persea americana* Mill.) is a tropical tree native from south-central Mexico, showing nowadays an increasing commercial interest worldwide for its unique sensorial characteristics, high nutritional quality, and its medicinal uses. The global market is ruled by the exportation of the fresh fruit; but, the presence of avocado products (mainly

avocado oil) is gaining interest and currently involves close to 20%, both for human and industrial (mainly cosmetic) purposes. The fruits are mostly consumed raw as guacamole, a dip traditionally made by mashing ripe avocados with salt or added as an ingredient in salads. Avocado fruit is rich in healthy monounsaturated fatty acids (mostly oleic acid) and fiber. Moreover, the fruit is rich in bioactive compounds such as polyphenols, carotenoids, tocopherols, potassium, and sitosterol. Their health properties are mostly related to the high amount of antioxidant compounds present. Thus, it is used as an auxiliary agent in the reduction of cholesterol and triglyceride levels and weight management. In the food industry, the use of avocado oil as a preservative has been explored for its high antimicrobial activity. Therefore, this book covers a wide variety of topics related to avocado fruit and avocado by-products, including their therapeutic and nutraceutical potential, their bioactive compounds, and oxidative stability. Also, new research about the characterization of avocado and avocado-based products, its conservation, and potential use as a food industrial antioxidant and antimicrobial is included as well. Finally, an interesting update of patents on

avocado products related to health is also reviewed.

Mendoza the Jew Random House Books for Young Readers

In this heartwarming essay collection, dozens of authors, actors, artists and others imagine one last lunch with someone they cherished. A few years ago, Erica Heller realized how universal the longing is for one more moment with a lost loved one. It could be a parent, a sibling, a mentor, or a friend, but who wouldn't love the opportunity to sit down, break bread, and just talk? Who wouldn't jump at the chance to ask those unasked questions, or share those unvoiced feelings? In *One Last Lunch*, Heller has asked friends and family of authors, artists, musicians, comedians, actors, and others, to recount one such fantastic repast. Muffie Meyer and her documentary subject Little Edie Beale go to a deli in Montreal. Kirk Douglas asks his father what he thought of him becoming an actor. Sara Moulton dines with her friend Julia Child. The Anglican priest George Pitcher has lunch with Jesus. And Heller herself connects with her father, the renowned author Joseph Heller. These richly imagined stories are endlessly revealing, about the subject, the writer, the passage of time, regret, gratitude, and the power of enduring love.

Mendoza the Jew combines a graphic history with primary documentation and contextual information to explore issues of nationalism, identity, culture, and historical methodology through the life story of Daniel Mendoza. Mendoza was a poor Sephardic Jew from East London who became the boxing champion of Britain in 1789. As a Jew with limited means and a foreign-sounding name, Mendoza was an unlikely symbol of what many Britons considered to be their very own "national" sport.
