A WALL STREET JOURNAL BESTSELLER!

"You can't really know anything if you just remember isolated facts. If the facts don't hang together on a latticework of theory, you don't have them in a usable form. You've got to have models in your head." - Charlie Munger, investor, vice chairman of

Berkshire Hathaway The world's greatest problem-solvers, forecasters, and decision-makers all rely on a set of frameworks and shortcuts that help them cut through complexity and separate good ideas from bad ones. They're called mental models, and you can find them in dense textbooks on psychology, physics, economics, and more. Or, you can just read *Super Thinking*, a fun, illustrated guide to every mental model you could possibly need. How can mental models help you? Well, here are just a few examples...

- If you've ever been overwhelmed by a to-do list that's grown too long, maybe you need the Eisenhower Decision Matrix to help you prioritize.
- Use the 5 Whys model to better understand people's motivations or get to the root cause of a problem.
- Before concluding that your colleague who messes up your projects is out to sabotage you, consider Hanlon's Razor for an alternative explanation.
- Ever sat through a bad movie just because you paid a lot for the ticket? You might be falling prey to Sunk Cost Fallacy.
- Set up Forcing Functions, like standing meeting or deadlines, to help grease the wheels for changes you want to occur. So, the next

time you find yourself faced with a difficult decision or just trying to understand a complex situation, let *Super Thinking* upgrade your brain with mental models.

Welcome Speeches for Special Days
Corwin Press

Frederick M. Hess and Michael Q. McShane have gathered a diverse group of scholars to examine the significant expansion of the federal role in education across the presidential administrations of George W. Bush and Barack Obama. The contributors address a wide range of topics, from standards and accountability to charter schools to the federal role in education research and the civil rights paradigm as a way of framing education issues. *Bush-Obama School Reform* offers a wealth of insight into the factors that support or constrain an expanded federal role in a range of education reforms and provides invaluable guidance for a changing era. "The best policy is designed for the future with a deep appreciation for what the past has taught. *Bush-Obama School Reform*, the first scholarly compendium of lessons from sixteen of the most active and activist years in education policy, launches a critical discussion." --Joanne Weiss,

president, Weiss Associates, former chief of staff to US Education Secretary Arne Duncan, and former director, Race to the Top Program "These smart essays deftly explore the paradoxes, ironies, lessons, ambitions, brands, victories, and defeats of education reform at the federal level. The book serves as a cautionary tale of 'policy windows' that open wide nationally and the forces that slam them shut, and offers lessons for the next generation of education wonks." --Stefanie Sanford, chief, Global Policy and External Relations, The College Board "This collection captures a fresh perspective on the politics and ideas that defined an era in education policy. Those working to shape the path forward should seek ways to build upon the lessons learned in Bush-Obama School Reform." --Roberto J. Rodriguez, former White House deputy assistant to President Barack Obama, and president and CEO, Teach Plus Frederick M. Hess is the director of education policy studies at the American Enterprise Institute. Michael Q. McShane is the director of national research at EdChoice.

Responses for All Occasions Abingdon Press

Wall Street Journal bestseller “A welcome revelation.” --The Financial Times Award-winning Wharton Professor and Choiceology podcast host Katy Milkman has devoted her career to the study of behavior change. In this ground-breaking book, Milkman reveals a proven path that can take you from where you are to where you want to be, with a foreword from psychologist Angela Duckworth, the best-selling author of Grit. Change comes most readily when you understand what's standing between you and success and tailor your solution to that roadblock. If you want to work out more but find exercise difficult and boring, downloading a goal-setting app probably won't help. But what if, instead, you transformed your workouts so they became a source of pleasure instead of a chore? Turning an uphill battle into a downhill one is the key to success. Drawing on Milkman's original research and the work of her world-renowned scientific collaborators, *How to Change* shares strategic methods for identifying and overcoming common barriers to change, such as impulsivity, procrastination, and forgetfulness. Through case studies and engaging

stories, you'll learn:

- Why timing can be everything when it comes to making a change
- How to turn temptation and inertia into assets
- That giving advice, even if it's about something you're struggling with, can help you achieve more

Whether you're a manager, coach, or teacher aiming to help others change for the better or are struggling to kick-start change yourself, *How to Change* offers an invaluable, science-based blueprint for achieving your goals, once and for all.

How to Navigate Clueless Colleagues, Lunch-Stealing Bosses, and the Rest of Your Life at Work Oswal Publishers

Vol. II: Short-Term Programs features eight OST STEM programs for females from across the United States that run one to three days in length, in most cases, a single day. In this book, the chapter authors describe their programs, the effectiveness of those programs, and practical implications of their program evaluation data. This book series is the first of its kind to offer researchers, educators, school administrators, policy makers, and others detailed insight into the promise and practice of out-of-school-time STEM programs for females. Science,

technology, engineering, and mathematics (STEM) disciplines play a pivotal role in societal progress and economic prosperity, in addition to enhancing individual lives. However, U.S. students lack strong STEM performance in an international context. The pool of STEM-proficient workers is thus insufficient to fuel the nation, with females being one group that is noticeably absent. Out-of-school-time (OST) programs, which are on the rise, are increasingly suggested as a way to support and encourage underrepresented groups in STEM. Participants in OST programs have shown improved achievement, interest, and confidence in STEM, as well as greater awareness of STEM role models and careers.

From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice!

There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."—Booklist (starred review) "The author's friendly, warm, no-nonsense

writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience."—Library Journal (starred review) "I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor."—Robert Sutton, Stanford professor and author of The No Asshole Rule and The Asshole Survival Guide "Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way."—Erin Lowry, author of Broke Millennial: Stop Scraping By and Get Your Financial Life Together **Super Thinking** Corwin Press Now in its 14th edition, this groundbreaking, market-leading fundamentals of human communication text helps readers improve their communication competency by becoming proficient in using theory and research-grounded communication skills. Praised for its clear and concise writing style, this new edition includes increased

coverage of how technology and social media are changing communication practices and offers guidelines for best practice. Lively contemporary examples and sample speeches ground theory, increase comprehension, and help readers become skillful communicators.

COMMUNICATE! engages students in active learning through theory, application and skill-building exercises including speech action step activities that guide students through the speech preparation process. The role of ethics in communication is integrated throughout the text, and students can also apply ethical principles to case situations. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

and Learning Private Limited Giving Academic Presentations provides guidance on academic-style presentations for advanced students. A goal of the text is to make presenters aware that giving an effective academic presentation requires mastery of a broad range of skills. Among the topics covered in the book are: analyses of speeches, examination of different major speech types, tips for improving non-verbal behaviour, suggestions for speaker-listener interaction; discussion of the importance of using evidence in academic speaking; definitions and discussion of fillers; advice on preparing PPT slides; practical advice on preparing and practicing speeches; and pronunciation work on pausing, stress, and intonation.

Moderator-topics IAP

Welcome Speeches for Today can be used by laypeople asked to make welcome speeches for a variety of situations and events in the church. Sample speeches and prayers are included that can be used as a prototype for creating a personal welcome speech.

My Life with Kotnis Simon and Schuster Children in today's world are inundated

with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible

results, proving that it's never too early to teach someone how to live well.

Because Nonprofits Are Messy Abingdon Press

Strengthen family and community engagement to promote equity and increase student success! When schools, families, and communities collaborate and share responsibility for students' education, more students succeed in school. Based on 30 years of research and fieldwork, this fourth edition of a bestseller provides tools and guidelines to use to develop more effective and equitable programs of family and community engagement. Extraordinary architecture addresses so much more than mere practical considerations. It inspires and provokes while creating a seamless experience of the physical world for its users. It is the rare writer that can frame the discussion of a building in a way that allows the reader to see it with new eyes. *Writing About Architecture* is a handbook on writing effectively and critically about

buildings and cities. Each chapter opens with a reprint of a significant essay written by a renowned architecture critic, followed by a close reading and discussion of the writer's strategies. Lange offers her own analysis using contemporary examples as well as a checklist of questions at the end of each chapter to help guide the writer. This important addition to the *Architecture Briefs* series is based on the author's design writing courses at New York University and the School of Visual Arts. Lange also writes a popular online column for *Design Observer* and has written for *Dwell*, *Metropolis*, *New York* magazine, and *The New York Times*. *Writing About Architecture* includes analysis of critical writings by Ada Louise Huxtable, Lewis Mumford, Herbert Muschamp, Michael Sorkin, Charles Moore, Frederick Law Olmsted, and Jane Jacobs. Architects covered include Marcel Breuer, Diller Scofidio + Renfro, Field Operations, Norman Foster, Frank Gehry, Frederick Law Olmsted, SOM, Louis Sullivan, and Frank Lloyd Wright.
