Combines photographs of animals with words of thanks in a loving tribute to mothers.

**THE GREAT GATSBY** Psh Publishing

This book examines how sexual politics, specifically those surrounding the modernization of a consumer economy, are key to understanding the transformation of Spain from isolated dictatorship to modern state. It focuses on issues concerning modernity and the commodification of the female body under the dictatorship of Francisco Franco in the 1950s and 1960s. These two decades are critical to understanding this transformation because they coincide with the opening of markets, the freer movement of people in and out of the country through tourism and emigration, and the embracing of the "American way of life" popularized in Hollywood movies. From a gender perspective this "in between moment" in Homi Bhabha's terms, from autarchy to consumerism favored the transition from the virginal female model, prescribed by the regime, (what the author calls "True Catholic Womanhood") to a seductive modern woman that the media sold to Spanish women. This study will add a significant piece to the growing corpus of literature on the body as an essential element of analysis in gender history and in the power dynamics of culture. It will help to fill a gap in the field of Spanish Cultural Studies in general and the emerging field of cultural Spanish history in particular. The originality of this study resides in Dr. Morcillo's use of feminist theories of the body to study archival sources of the Francoist years. Of special interest are the collections of Ministry of Culture and Administrative papers Women's Section of Falange at the Archivo General de la Administracion in Alcala de Henares. Also important are the works of intellectuals of the period, as well as health books, maternity and hygiene guides, conduct manuals, and documents produced by the Catholic Church hierarchy with regard to moral behavior and sexual mores that provide a textured analysis of gender relations under the dictatorship. The author's interest in unveiling the regime's technologies of control of ordinary Spaniards is covered through the study of the media, printed press, and the movie industry of this period particularly the so-called New Spanish Cinema inaugurated in the 1960s, illustrating how ads and films shaped and contested the regime's vision of modernity and gender roles. Through the production of dual versions of films the censorship process utilized women's cinematic bodies to present a more liberal image of Spain in the international scene. While nudity was allowed in the international versions the domestic productions continued to cut the customary kiss. The economy of desire displayed in today's Almodovar's films is already present in movies like La Tia Tula by Miguel Picazo (1964). This book will be essential for scholars and students interested in Ibero-American cultural studies, gender, religion, and totalitarian politics.

[How Committing to Myself Led to Triumph After Divorce](#) PURE SNOW PUBLISHING

Acoustic Properties: Radio, Narrative, and the New Neighborhood of the Americas discovers the prehistory of wireless culture. It examines both the coevolution of radio and the novel in Argentina, Cuba, and the United States from the early 1930s to the late 1960s, and the various populist political climates in which the emerging medium of radio became the chosen means to produce the voice of the people. Based on original archival research in Buenos Aires, Havana, Paris, and the United States, the book develops a literary media theory that understands sound as a transmedial phenomenon and radio as a transnational medium. Analyzing the construction of new social and political relations in the wake of the United States' 1930s Good Neighbor Policy, Acoustic Properties challenges standard narratives of hemispheric influence through new readings of Richard Wright's cinematic work in Argentina, Severo Sarduy's radio plays in France, and novels by John Dos Passos, Manuel Puig, Raymond Chandler, and Carson McCullers. Alongside these writers, the book also explores Che Guevara and Fidel Castro's Radio Rebelde, FDR's fireside chats, Félix Caignet's invention of the radionovela in Cuba, Evita Perón's populist melodramas in Argentina, Orson Welles's experimental New Deal radio, Cuban and U.S. "radio wars," and the 1960s African American activist Robert F. Williams's proto-black power Radio Free Dixie. From the doldrums of the Great Depression to the tumult of the Cuban Revolution, Acoustic Properties illuminates how novelists in the radio age converted writing into a practice of listening, transforming realism as they struggled to channel and shape popular power.

A History of the Spanish Language through Texts examines the evolution of the Spanish language from the Middle Ages to the present day. Pountain explores a wide range of texts from poetry, through newspaper articles and political documents, to a Bunuel film script and a love letter. With keypoints and a careful indexing and cross-referencing system this book can be used as a freestanding history of the language independently of the illustrative texts themselves.

bookdown: Authoring Books and Technical Documents with R Markdown presents a much easier way to write books and technical publications than traditional tools such as LaTeX and Word. The bookdown package inherits the simplicity of syntax and flexibility for data analysis from R Markdown, and extends R Markdown for technical writing, so that you can make better use of document elements such as figures, tables, equations, theorems,

citations, and references. Similar to LaTeX, you can number and cross-reference these elements with bookdown. Your document can even include live examples so readers can interact with them while reading the book. The book can be rendered to multiple output formats, including LaTeX/PDF, HTML, EPUB, and Word, thus making it easy to put your documents online. The style and theme of these output formats can be customized. We used books and R primarily for examples in this book, but bookdown is not only for books or R. Most features introduced in this book also apply to other types of publications: journal papers, reports, dissertations, course handouts, study notes, and even novels. You do not have to use R, either. Other choices of computing languages include Python, C, C++, SQL, Bash, Stan, JavaScript, and so on, although R is best supported. You can also leave out computing, for example, to write a fiction. This book itself is an example of publishing with bookdown and R Markdown, and its source is fully available on GitHub.

**Acoustic Properties** Bucknell University Press

The journey of a German Ecuadorian widower, Ernst Contag, and his four young children from their home in South America to Nazi Germany in 1942. Blacklisted as an enemy alien, Contag and his children were forcibly repatriated to the country of his grandparents' birth as part of a diplomatic exchange arranged by the United States State Department and cooperating countries. Denying their Ecuadorian citizenship, they had to learn to navigate an ever-shifting horizon as they faced internment, separation, hunger, and hopelessness in Germany and France, then hostility when they eventually returned to their Andean homeland.

The beloved, #1 global bestseller by John Green, author of The Anthropocene Reviewed and Turtles All the Way Down “John Green is one of the best writers alive.” -E. Lockhart, #1 bestselling author of We Were Liars “The greatest romance story of this decade.” -Entertainment Weekly #1 New York Times Bestseller • #1 Wall Street Journal Bestseller • #1 USA Today Bestseller • #1 International Bestseller Despite the tumor-shrinking medical miracle that has bought her a few years, Hazel has never been anything but terminal, her final chapter inscribed upon diagnosis. But when a gorgeous plot twist named Augustus Waters suddenly appears at Cancer Kid Support Group, Hazel's story is about to be completely rewritten. From John Green, #1 bestselling author of The Anthropocene Reviewed and Turtles All the Way Down, The Fault in Our Stars is insightful, bold, irreverent, and raw. It brilliantly explores the funny, thrilling, and tragic business of being alive and in love.

**Querida Dra. Polo 2** Hal Leonard

What could the Silk Road, the Sewers of Istambul, Marco Polo, Mongolia and Holy Land have in common? That's what the main characters of " The Last Cato", Ottavia Salina and Farag Boswell, will have to find out, putting their lives at risk yet again to solve a mystery that begins in the first century AD. Written with accuracy and a rhythm that keeps readers in suspense page after page, chapter after chapter until the very end, " Cato's Return" is an ingenious combination of adventure and history with which Matilde Asensi once again draws us in and doesn't let us go until the last word.

[Singer's Musical Theatre Anthology - Volume 7 Mezzo-Soprano](#)/Belter University of New Mexico Press

The literature on the geology, chemistry, and biochemistry of phosphorus generally takes its mineralogy for granted. The incidental information on phosphate minerals given in these texts is often obsolescent and inaccurate. The few mineralogical texts that have dealt comprehensively with the phosphate minerals have now become outdated, and typically present the essential information in a manner unsuitable for nongeological readers. This volume is intended as a ready reference for workers who require good basic information on phosphate minerals or their synthetic equivalents. The topics covered should appeal to geologists and geochemists, lithologists, environmental scientists and engineers, chemists and biochemists who have any interest in the intricate world of phosphorus. The hard tissues of many vertebrates and the many pathological calcifications consist mostly of phosphate minerals. The precipitation of these compounds also plays a major role in the ecological cycling of phosphorus, and occasionally even dominates the behavior of many trace metals in many geochemical and biological systems. Indeed, many pegmatitic phosphate minerals have acquired some notoriety because of the rarer trace metals which they tend to accumulate. With the commercialization of phosphate fertilizers since the early part of the 19th century, phosphate minerals have assumed an important role in industrial chemistry and agriculture. Clearly, the study of phosphate minerals is important from the economic, agricultural, environmental and (human and animal) health viewpoint.

*The Double Bind* Vintage

An interpretative history of Spain's culture, politics, traditions, and people from prehistoric times to the present, with particular concern for twentieth-century life, thought, and more.

[My Book of the Dead](#) Routledge

From Wall Street Journal bestseller Parker S. Huntington comes a broken love story laced with angst and forbidden romance.I wasn't supposed to be on that roof on Valentine's Day.Neither was Kellan Marchetti, the school's designated freak.We met on the verge of ending our lives.Somehow, the

tattered strings of our tragedies tangled and tightened into an unlikely bond. We decided not to take the plunge and agreed to check on each other every Valentine's Day until school ended. Same time. One roof. Two restless souls. We kept our promise for three years. On the fourth, Kellan made a decision, and I was left to deal with the consequences. Just when I thought our story ended, another one began. They say all love stories look the same and taste different. Mine was venomous, disgraceful, and written in scarlet scars. My name is Charlotte Richards, but you can call me Venom.

Things have never been easy for Oscar. A ghetto nerd living with his Dominican family in New Jersey, he's sweet but disastrously overweight. He dreams of becoming the next J.R.R. Tolkien and he keeps falling hopelessly in love. Poor Oscar may never get what he wants, thanks to the Fukú - the curse that has haunted his family for generations. With dazzling energy and insight Díaz immerses us in the tumultuous lives of Oscar; his runaway sister Lola; their beautiful mother Belicia; and in the family's uproarious journey from the Dominican Republic to the US and back. Rendered with uncommon warmth and humour, *The Brief Wondrous Life of Oscar Wao* is a literary triumph, that confirms Junot Díaz as one of the most exciting writers of our time.

Panic attacks are more common than they are thought to be. Millions of people suffer from them every day and don't even know it. Many of these people suffer in silence, for they fear what others may think of them. It's time to look back inside ourselves and remember who we really are: light and love. With this little book, I would like to take you to the journey I had to make through very dark places, in order to understand all of those who are passing through those gloomy caves as well. I hope that my experience helps you find your truth and see panic attacks as a great teacher dressed up in a strange costume.

[How to Stop Being Lazy and Get Results in Your Life](#) Verso

Legendary leadership and elite performance expert Robin Sharma introduced The 5am Club concept over twenty years ago, based on a revolutionary

morning routine that has helped his clients maximize their productivity, activate their best health and bulletproof their serenity in this age of overwhelming complexity. Now, in this life-changing book, handcrafted by the author over a rigorous four-year period, you will discover the early-rising habit that has helped so many accomplish epic results while upgrading their happiness, helpfulness and feelings of aliveness. Through an enchanting—and often amusing—story about two struggling strangers who meet an eccentric tycoon who becomes their secret mentor, *The 5am Club* will walk you through: How great geniuses, business titans and the world's wisest people start their mornings to produce astonishing achievements A little-known formula you can use instantly to wake up early feeling inspired, focused and flooded with a fiery drive to get the most out of each day A step-by-step method to protect the quietest hours of daybreak so you have time for exercise, self-renewal and personal growth A neuroscience-based practice proven to help make it easy to rise while most people are sleeping, giving you precious time for yourself to think, express your creativity and begin the day peacefully instead of being rushed "Insider-only" tactics to defend your gifts, talents and dreams against digital distraction and trivial diversions so you enjoy fortune, influence and a magnificent impact on the world Part manifesto for mastery, part playbook for genius-grade productivity and part companion for a life lived beautifully, *The 5am Club* is a work that will transform your life. Forever.

*23 Anti-Procrastination Habits* Aguilar

For more than thirty years, Ana Castillo has been mesmerizing and inspiring readers from all over the world with her passionate and fiery poetry and prose. Now the original Xicanista is back to her first literary love, poetry, and to interrogating the social and political upheaval the world has seen over the last decade. Angry and sad, playful and wise, Castillo delves into the bitter side of our world—the environmental crisis, COVID-19, ongoing systemic racism and violence, children in detention camps, and the Trump presidency—and emerges stronger from exploring these troubling affairs of today. Drawings by Castillo created over the past five years are featured throughout the collection and further showcase her connection to her work as both a writer and a visual artist. *My Book of the Dead* is a remarkable collection that features a poet at the height of her craft.

*The Motorcycle Diaries* Aguilar

A castaway government official is stranded on an island of man-made monsters in this bold reimagining of the H. G. Wells science fiction classic *War of the Worlds*. Set adrift on a makeshift raft in the middle of the South Pacific, the sole survivor of a sabotaged space-shuttle flight, undersecretary of state Calvert Roberts is certain his life is coming to an end. But fate intervenes, depositing him dehydrated and half starved on the beach of an uncharted island with a giant M etched into a cliff wall. At first it appears to be paradise, but Eden has a dark side: Here, Dr. Mortimer Dart is playing God. A genius geneticist who is certifiably mad, he is called Master by the unspeakable creations of his predecessor—monstrous creatures, neither human nor animal but some nightmarish hybrid. Yet as horrible as the stranded government official finds these abominations, it is the truth behind Dart's experiments that chill Roberts's blood—for it will open wide a window onto an inescapable future of emptiness, ashes, and death. One of twentieth-century science fiction's brightest luminaries, Grand Master Brian W. Aldiss pays homage to one of the genre's most beloved progenitors, the great H. G. Wells, author of *The Time Machine*, *The War of the Worlds*, and other science fiction classics. *An Island Called Moreau* is a gripping near-future tale of inhuman experimentation, dystopia, morality, war, and mad science that honors and ingeniously updates Wells's brilliant, dark masterwork, *The Island of Doctor Moreau*.
