Climate change, population increase, and the demands made by the growing number of people adopting urban lifestyles and western diets threaten the world’s supply of freshwater, edging us closer to a global water crisis, with dire implications for agriculture, the economy, the environment, and human health. Completely revised and updated, The Atlas of Water is a compelling visual guide to the state of this life-sustaining resource. Using vivid graphics, maps, and charts, it explores the complex human interaction with water around the world. This vibrant atlas addresses all the pressing issues concerning water, from water shortages and excessive demand, to dams, pollution, and privatization, all considered in terms of the growing threat of an increasingly unpredictable climate. It also outlines critical tools for managing water, providing safe access to water, and preserving the future of the world’s water supply.

Tells the extraordinary story of a feudal fiefdom in southern Morocco in the early twentieth century.

With a New Introduction University of Chicago Press

Noroc has journeyed through more than fifty countries to celebrate the diversity of this fascinating world. This volume contains photographs of five hundred women, from tribes, conservative communities, and modern cities. Most were struggling and working hard, and were facing discrimination as women. But through it all they were shining with dignity, strength, and beauty.

Maps capture data expressing the economic complexity of countries from Albania to Zimbabwe, offering current economic measures and as well as a guide to achieving prosperity Why do some countries grow and others do not? The authors of The Atlas of Economic Complexity offer readers an explanation based on "Economic Complexity," a measure of a society's productive knowledge. Prosperous societies are those that have the knowledge to make a larger variety of more complex products. The Atlas of Economic Complexity attempts to measure the amount of productive knowledge countries hold and how they can move to accumulate more of it by making more complex products. Through the graphical representation of the "Product Space," the authors are able to identify each country's "adjacent possible," or potential new products, making it easier to find paths to economic diversification and growth. In addition, they argue that a country's economic complexity and its position in the product space are better predictors of economic growth than many other well-known development indicators, including measures of competitiveness, governance, finance, and schooling. Using innovative visualizations, the book locates each country in the product space, provides complexity and growth potential rankings for 128 countries, and offers individual country pages with detailed information about a country's current capabilities and its diversification options. The maps and visualizations included in the Atlas can be used to find more viable paths to greater productive knowledge and prosperity.

The perfect gift book from Paris’s iconic apothecary L’Officine Universelle Buly captures the

elegance and sophistication of the Parisian beauty standard in a beautifully illustrated and detailed guide—with easy-to-follow recipes—to retaining and enhancing natural beauty. “Nothing is simpler, more enjoyable, more self-evident, or more efficient than taking good, natural care of yourself.” This is the philosophy of L’Officine Universelle Buly, a reincarnation of the legendary Parisian beauty emporium established in 1803. Since then, it has brought natural skin and body care to seven cities across the world, offering clays, oils, plant-based powders, and other gifts from nature collected by Victoire de Taillac and Ramdane Touhami over the course of their international travels. An Atlas of Natural Beauty is the result of their research and passion: an encyclopedic guide to simple recipes and protocols that will help anyone retain and enhance their natural beauty. This exquisitely designed book allows you to sample Buly’s unique aesthetic heritage as a French apothecary, as well as discover the modern uses, properties, and home beauty recipes for more than eighty exotic and diverse range of seeds, flowers, oils, trees, fruits, and herbs. From apricot and avocado to argan oil, jasmine, and jojoba, each ingredient is accompanied by a gorgeous illustration, its providence, its primary use, and recipes for how to use it as a beauty solution now. These ingredients are easy to find, and the recipes are easy to replicate, whether it’s making a simple oat bath to smooth skin, a sake lotion for your scalp, or a lemon “shine water” to brighten blonde hair. An Atlas of Natural Beauty is the perfect gift for newcomers and obsessives alike, empowering us all to take care of ourselves and feel confident in our skin.

The Atlas of Economic Complexity Yale University Press

Winner of the PEN Center USA West Award for Fiction – a collection of fifty-three interconnected stories by the National Book Award-winning author of Europe Central Hailed by Newsday as "the most unconventional--and possibly the most exciting and imaginative--novelist at work today," William T. Vollmann has also established himself as an intrepid journalist willing to go to the hottest spots on the planet. Here he draws on these formidable talents to create a web of fifty-three interconnected tales, what he calls "a piecemeal atlas of the world I think in." Set in locales from Phnom Penh to Sarajevo, Mogadishu to New York, and provocatively combining autobiography with invention, fantasy with reportage, these stories examine poverty, violence, and loss even as they celebrate the beauty of landscape, the thrill of the alien, the infinitely precious pain of love. The Atlas brings to life a fascinating array of human beings: an old Inuit walrus-hunter, urban aborigines in Sydney, a crack-addicted prostitute, and even Vollmann himself.

This powerful photography collection, drawn from the celebrated National Geographic archive, reveals the lives of women from around the globe, accompanied by revelatory new interviews and portraits of contemporary trailblazers including Oprah Winfrey, Jane Goodall, and Christiane Amanpour. #MeToo. #GirlBoss. Time's Up. From Silicon Valley to politics and beyond, women are reshaping our world. Now, in anticipation of the 100th anniversary of the 19th amendment, this bold and inspiring book from National Geographic mines 130 years of photography to showcase their past, their present, and their future. With 300+ stunning images from more than 50 countries, each page of this glorious book offers compelling testimony about what it means to be female, from historic suffragettes to the haunting, green-eyed "Afghan girl." Organized around chapter themes like grit, love, and joy, the book features brand-new commentary from a wide swath of luminaries including Laura Bush, Gloria Allred, Roxane Gay, Melinda Gates, New Zealand prime minister Jacinda Ardern, and the founders of the #MeToo and Black Lives Matter movements. Each is accompanied by a bold new portrait, shot by acclaimed NG photographer Erika Larsen. The ultimate coffee table book, this iconic collection provides definitive proof that the future is female.

The hidden costs of artificial intelligence, from natural resources and labor to privacy and freedom What happens when artificial intelligence saturates political life and depletes the planet? How is AI shaping our understanding of ourselves and our societies? In this book Kate Crawford reveals how this planetary network is fueling a shift toward undemocratic governance and increased inequality. Drawing on more than a decade of research, award-winning science, and technology, Crawford reveals how AI is a technology of extraction: from the energy and minerals needed to build and sustain its infrastructure, to the exploited workers behind "automated" services, to the data AI collects from us. Rather than taking a narrow focus on code and algorithms, Crawford offers us a political and a material perspective on what it takes to make artificial intelligence and where it goes wrong. While technical systems present a veneer of objectivity, they are always systems of power. This is an urgent account of what is at stake as technology companies use artificial intelligence to reshape the world.

The Atlas of Love The New Press

What we eat, where we eat, and how we eat: these questions are explored in this remarkable book, now with a new introduction contextualizing the atlas for 2013 and beyond. By providing an up-to-date and visually appealing understanding of important issues around global food and agriculture, The Atlas of Food maps out broad areas of investigation—contamination of food and water, overnutrition, micronutrient deficiency, processing, farming, and trade—to offer a concise overview of today's food and farming concerns. Buttressed by engaging prose and vivid graphics, Erik Millstone and Tim Lang convincingly argue that human progress depends on resolving global inequality and creating a more sustainable food production system.

A geographically organized survey of the world's most desirable and iconic residential interiors from the 1940s to today. 'The Atlas of Interior Design' is an unparalleled global tour of more than 400 captivating residential interiors from the past eight decades. From classic to contemporary, minimal to maximal, the homes included illuminate the design tropes unique to their location's context, while others confound preconceived ideas of vernacular design to spectacular effect. Exceptional photography and a descriptive text accompanying each project enrich this thoroughly researched and comprehensive volume.

The Atlas of Legendary Places Thomas Dunne Books

A beautiful and engaging guide to global warming’s impacts around the world “The direction in which our planet is headed isn’t a good one, and most of us don’t know how to change it. The bad news is that we will experience great loss. The good news is that we already have what we need to build a better future.” —from the introduction Our planet is in peril. Seas are rising, oceans are acidifying, ice is melting, coasts are flooding, species are dying, and communities are faltering. Despite these dire circumstances, most of us don’t have a clear sense of how the interconnected crises in our ocean are affecting the climate system, food webs, coastal cities, and biodiversity, and which solutions can help us co-create a better future. Through a rich combination of place-based storytelling, clear explanations of climate science and policy, and beautifully rendered maps that use a unique ink-on-dried-seaweed technique, The Atlas of Disappearing Places depicts twenty locations across the globe, from Shanghai and Antarctica to Houston and the Cook Islands. The authors describe four climate change impacts—changing chemistry, warming waters, strengthening storms, and rising seas—using the metaphor of the ocean as a body to draw parallels between natural systems and human systems. Each chapter paints a portrait of an

existential threat in a particular place, detailing what will be lost if we do not take bold action now. Weaving together contemporary stories and speculative “future histories” for each place, this work considers both the serious consequences if we continue to pursue business as usual, and what we can do—from government policies to grassroots activism—to write a different, more hopeful story. A beautiful work of art and an indispensable resource to learn more about the devastating consequences of the climate crisis—as well as possibilities for individual and collective action—The Atlas of Disappearing Places will engage and inspire readers on the most pressing issue of our time. Locations include: Houston, Texas Shanghai, China Hamburg, Germany San Juan, Puerto Rico New York City, New York Pisco, Peru Kisumu, Kenya Kure Atoll, Hawaii Camden, Maine The Cook Islands San Francisco, California Norfolk, Virginia Bến Tre, Vietnam Ise, Japan Gravesend, United Kingdom

Atlas of Amazing Birds Penguin

"Beautifully written, a highly literate story of friendship, parenthood, and every other kind of love you can imagine." —Marisa de los Santos, author of *Love Walked In* When Jill becomes both pregnant and single at the end of one spring semester, she and her two closest friends plunge into an experiment in tri-parenting, tri-schooling, and trihabitating as grad students in Seattle. Naturally, everything goes wrong, but in ways no one sees coming. Janey Duncan narrates the adventure of this modern family with hilarity and wisdom and shows how three lives are forever changed by (un)cooperative parenting, literature, and a tiny baby named Atlas who upends and uplifts their entire world. In this sparkling and wise debut novel, The Atlas of Love, Frankel's unforgettable heroines prove that home is simply where the love is.

Our Evolving Planet Visualized with More Than 100 Maps, Charts, and Infographics Univ of California Press

"This is why we read fiction at all" raves the Washington Post: Family life meets historical romance

in this critically acclaimed, “gorgeous, sweeping novel” (Ms Magazine) about two people who find each other when abandoned by everyone else, marking the signal American debut of an award-winning writer who richly deserves her international acclaim. On the outskirts of a small town in Bengal, a family lives in solitude in their vast new house. Here, lives intertwine and unravel. A widower struggles with his love for an unmarried cousin. Bakul, a motherless daughter, runs wild with Mukunda, an orphan of unknown caste adopted by the family. Confined in a room at the top of the house, a matriarch goes slowly mad; her husband searches for its cause as he shapes and reshapes his garden. As Mukunda and Bakul grow, their intense closeness matures into something else, and Mukunda is banished to Calcutta. He prospers in the turbulent years after Partition, but his thoughts stay with his home, with Bakul, with all that he has lost—and he knows that he must return.

#1 NEW YORK TIMES BESTSELLER • In her latest book, Brené Brown writes, “If we want to find the way back to ourselves and one another, we need language and the grounded confidence to both tell our stories and be stewards of the stories that we hear. This is the framework for meaningful connection.” In *Atlas of the Heart*, Brown takes us on a journey through eighty-seven of the emotions and experiences that define what it means to be human. As she maps the necessary skills and an actionable framework for meaningful connection, she gives us the language and tools to access a universe of new choices and second chances—a universe where we can share and steward the stories of our bravest and most heartbreaking moments with one another in a way that builds connection. Over the past two decades, Brown’s extensive research into the experiences that make us who we are has shaped the cultural conversation and helped define what it means to be courageous with our lives. *Atlas of the Heart* draws on this research, as well as

on Brown’s singular skills as a storyteller, to show us how accurately naming an experience doesn’t give the experience more power—it gives us the power of understanding, meaning, and choice. Brown shares, “I want this book to be an atlas for all of us, because I believe that, with an adventurous heart and the right maps, we can travel anywhere and never fear losing ourselves.”

Women National Geographic Books

"After a long career as an aid worker, Sabine Hardt has retreated to her native Germany for a quieter life. But when her American niece Lily disappears while volunteering in Uganda, Sabine must return to places and memories she once thought buried in order to find her. In Uganda, Rose Akulu--haunted by a troubled past with the Lord's Resistance Army--becomes distressed when her lover Ocen vanishes without a trace. Side by side, Sabine and Rose must unravel the tangled threads that tie Lily and Ocen's lives together--ultimately discovering that the truth of their loved ones' disappearance is inescapably entwined to the secrets the two women carry."--

National Geographic Photographers on Assignment Berkley

Photographs and stories of 500 women from around the world, based on the author's hugely popular website. Since 2013 Mihaela Noroc has travelled the world with her backpack and camera taking photos of everyday women to showcase the diversity and beauty all around us. The Atlas of Beauty is a collection of her photographs that celebrates women from fifty countries across the globe and shows that beauty is everywhere, regardless of money, race or social status, and comes in many different sizes and colours. Mihaela's portraits feature women in their native environments, from the Amazon rain forest to markets in India, London city streets and parks in Harlem, creating a mirror of our varied cultures and proving that beauty has no rules. 'Stunning . . . aims to challenge the ideals of beauty dictated by the women's fashion magazine industry' Independent 'A startling and revealing project' Daily Mail 'Scrolling through "The Atlas of Beauty", beauty becomes not a universal standard, but a complicated tapestry' Huffington Post
