Three boys, fifteen-year-old Ralph Rover (the narrator), eighteen-year-old Jack Martin and fourteen-year-old Peterkin Gay, are the sole survivors of a shipwreck on the coral reef of a large but uninhabited Polynesian island. At first their life on the island is idyllic; food, in the shape of fruits, fish and wild pigs, is plentiful, and using their only possessions; a broken telescope, an iron-bound oar and a small axe, they fashion a shelter and even construct a small boat. Their first contact with other people comes after several months when they observe two large outrigger canoes land on the beach. The two groups are engaged in battle and the three boys intervene to successfully defeat the attacking party, earning the gratitude of the chief Tararo. The Polynesians leave and the three boys are alone once more. Then more unwelcome visitors arrive in the shape of pirates, who make a living trading, or stealing, sandalwood. The three boys conceal themselves in a hidden cave, but Ralph is captured when

he sets out to see if the pirates have left, and is taken aboard the pirate schooner. Ralph strikes up an unexpected friendship with one of the pirates, "Bloody Bill", and when they call at an island to trade for more wood he meets Tararo again. On the island he sees all facets of island life, including the popular sport of surfing, as well as the practice of infanticide and cannibalism. Rising tension leads to an attack by the inhabitants on the pirates, leaving only Ralph alive and Bloody Bill mortally wounded. However they manage to make their escape in the schooner. After Bill dies, making a death-bed repentance for his evil life, Ralph manages to sail back to the Coral Island to be re-united with his friends.

A seemingly simple tale of schoolboys marooned on an island, *Lord of the Flies* has proven to be one of the most enigmatic and provocative pieces of literature ever published. This casebook probes the many layers of meaning in the novel, examining its literary, philosophical, historical, scientific, and religious significance. Beginning with a literary analysis that explores the universality of the novel's characters, the story is considered as subversion of the adventure tale, comparing it to such classics as *Treasure Island* and *Robinson Crusoe*. From these literary depictions of savagery, this study delves deeper, confronting the long-running philosophical and biological debates about human nature that have absorbed such influential thinkers as Rousseau and Darwin. The full meaning of *Lord of the Flies* is further contextualized by tracing historical views on civilization, from the Victorian perspective, to the very real horrors of World War II. This casebook integrates analysis and primary documents, with excerpts from materials as diverse as the Bible, the writings of Darwin, and war crimes interviews, to explore the very nature of human aggression and evil. This book will spark students to consider intriguing

connections between Golding's masterpiece and broader concepts of civilization, altruism, political leadership responsibilities, and the history of western imperialism. The interdisciplinary approach of this casebook helps students situate the lessons of *Lord of the Flies* in the context of Education, War and Postwar, the Adventure Story, Religion, and Biology and Evolution. The six topic sections integrate original illustrations and photos, literary excerpts, and primary documents and historic writings that help contextualize the work. Thought-provoking ideas for class discussions and research topics, with carefully chosen further reading suggestions enhance this volume as a teaching tool.

A closer look at genealogy, incorporating how biological, anthropological, and technical factors can influence human lives We are at a pivotal moment in understanding our remote ancestry and its implications for how we live today. The barriers to what we can know about

our distant relatives have been falling as a result of scientific advance, such as decoding the genomes of humans and Neanderthals, and bringing together different perspectives to answer common questions. These collaborations have brought new knowledge and suggested fresh concepts to examine. The results have shaken the old certainties. The results are profound; not just for the study of the past but for appreciating why we conduct our social lives in ways, and at scales, that are familiar to all of us. But such basic familiarity raises a dilemma. When surrounded by the myriad technical and cultural innovations that support our global, urbanized lifestyles we can lose sight of the small social worlds we actually inhabit and that can be traced deep into our ancestry. So why do we need art, religion, music, kinship, myths, and all the other facets of our over-active imaginations if the reality of our effective social worlds is set by a limit of some one hundred and fifty partners (Dunbar's number) made of family, friends, and useful acquaintances? How could such a social community lead to a city the size of London or a country as large as China? Do we really carry our hominin past into our human present? It is these small worlds, and the link they allow to the study of the past that forms the central point in this book.

With an introduction by Meg Rosoff William Golding's final novel, left in draft at his death, tells the story of a priestess of Apollo. Arieka is one of the last to prophesy at Delphi, in the shadowy years when the Romans were securing their grip on the tribes and cities of Greece. The plain, unloved daughter of a local grandee, she is rescued from the contempt and neglect of her family by

her Delphic role. Her ambiguous attitude to the god and her belief in him seem to move in parallel with the decline of the god himself - but things are more complicated than they appear. 'A remarkable work ... A compelling storyteller as well as a clear-eyed philosopher of the dangerous puzzles of being human.' The Times 'A wonderful central character. The story stretches out as clean and dry and clear as the beach in *Lord of the Flies*.' Independent 'Feline, deadpan and at moments hilarious.' Observer

Mary Hood's fictional world is a world where fear, anger, longing—sometimes worse—lie just below the surface of a pleasant summer afternoon or a Sunday church service. In "A Country Girl," for example, she creates an idyllic valley where a barefoot girl sings melodies "low and private as a lullaby" and where "you could pick up one of the little early apples from the ground and eat it right then without worrying about pesticide." But something changes this summer afternoon with the arrival at a family reunion of fair and fiery Johnny Calhoun: "everybody's kind and nobody's kin," forty in a year or so, "and wild in the way that made him worth the trouble he caused." The title story in the collection begins with a visit to clean the graves in a country cemetery and ends with the terrifying pursuit of a young girl and her grandmother by two bikers, one of whom "had the invading sort of eyes the woman had spent her lifetime bolting doors against." In the story "Inexorable Process" we see the relentless desperation of Angelina, "who hated many things, but Sundays most of all," and in "Solomon's Seal" the ancient anger of the mountain woman who has crowded her husband out of her life and her heart, until the plants she has tended in her rage fill the half-acre. "The madder she got, the greener everything grew."

A haunting tribute to the heroic pioneers who shaped the American Midwest This powerful novel by Willa Cather is considered to be one of her finest works and placed Cather in the forefront of women novelists. It tells the stories of several immigrant families who start new lives in America in rural Nebraska. This powerful tribute to the quiet heroism of those whose struggles and triumphs shaped the American Midwest highlights the role of women pioneers, in particular. Written in the style of a memoir penned by Antonia's tutor and friend, the book depicts one of the most memorable heroines in American literature, the spirited eldest daughter of a Czech immigrant family, whose calm, quite strength and robust spirit helped her survive the hardships and loneliness of life on the Nebraska prairie. The two form an enduring bond and through his chronicle, we watch Antonia shape the land while dealing with poverty, treachery, and tragedy. The landmark text about the inner workings of the unconscious mind—from the symbolism that unlocks the meaning of our dreams to their effect on our waking lives and artistic impulses—featuring more than a hundred images that break down Carl Jung's revolutionary ideas "What emerges with great clarity from the book is that Jung has done immense service both to psychology as a science and to our general understanding of man in society."—The Guardian "Our psyche is part of nature, and its enigma is limitless." Since our inception, humanity has looked to dreams for guidance. But what are they? How can we understand them? And how can we use them to shape our lives? There is perhaps no one

more equipped to answer these questions than the legendary psychologist Carl G. Jung. It is in his life's work that the unconscious mind comes to be understood as an expansive, rich world just as vital and true a part of the mind as the conscious, and it is in our dreams—those personal, integral expressions of our deepest selves—that it communicates itself to us. A seminal text written explicitly for the general reader, *Man and His Symbols* is a guide to understanding the symbols in our dreams and using that knowledge to build fuller, more receptive lives. Full of fascinating case studies and examples pulled from philosophy, history, myth, fairy tales, and more, this groundbreaking work—profusely illustrated with hundreds of visual examples—offers invaluable insight into the symbols we dream that demand understanding, why we seek meaning at all, and how these very symbols affect our lives. By illuminating the means to examine our prejudices, interpret psychological meanings, break free of our influences, and recenter our individuality, *Man and His Symbols* proves to be—decades after its conception—a revelatory, absorbing, and relevant experience.
