A guide for using body language to lead more effectively Aspiring and seasoned leaders have been trained to manage their leadership communication in many important ways. And yet, all their efforts to communicate effectively can be derailed by even the smallest nonverbal gestures such as the way they sit in a business meeting, or stand at the podium at a speaking engagement. In *The Silent Language of Leaders*, Goman explains that personal space, physical gestures, posture, facial expressions, and eye contact communicate louder than words and, thus, can be used strategically to help leaders manage, motivate, lead global teams, and communicate clearly in the digital age. Draws on compelling psychological and neuroscience research to show leaders how to adjust their body language for maximum effect. Stands out as the only book to address specifically how leaders can use body language to increase their effectiveness Goman, a respected management coach, is widely considered as the expert in body language issues in the workplace *The Silent Language of Leaders* will show readers how to take advantage of the most underused skills in the leadership toolkit—nonverbal skills—to improve their credibility and stay ahead of the curve.

Understanding what others are trying to tell you with their posture, hand gestures, eye contact (or lack thereof) or incessant fiddling with their iPhone might all be even more important than what you're projecting yourself. Do they plan on making a deal with your company? Are they lying to you? Can you trust this person with your most intimate secrets? Knowing what others are thinking can tell you when to run with an opportunity and when not to waste your time, whether at work, in a crucial negotiation or on a promising first date. Bestselling authors Mark Bowden and Tracey Thomson, principals at the communications company Truthplane, illustrate the essential points of body language with examples from everyday life, leavened with humour and insights that you can use to your advantage in virtually any situation.

Explains each stage of lying and bluffing: James — a top body-language guru and image consultant — lays down, step by step, how to disguise your hand and unmask bluffers. By identifying body language giveaways — from posture, facial expressions, to how players hold their cards and chips — and what they reveal, we learn how to hide our emotions and give off misleading cues. Identifies four main poker "personalities": Most players display the traits of one of four different personality groups that influence how they play poker. Their verbal interactions and body language give them away. For each personality, Poker Face reveals the key physical tells that expose bluffing and winning or losing hands.
