Collisions are expensive! Learning, understanding and remembering the International Regulations for Preventing Collisions at Sea (COLREGs) is essential for anyone venturing onto the water. Leisure boaters, as much as professional mariners, need to know the rules, and a firm understanding is required to pass many nautical exams. But with the COLREGs

stretching to over 12,000 words, this is no small task. This is where Paul Boissier's excellent book comes in. Paul knows the COLREGs backwards having used them extensively in his career with the Royal Navy - from the bridges of submarines and warships which he has commanded, with each giving a rather different perspective on other shipping! He also knows the other side well with his extensive cruising experience, from his early years with his father to now, sailing his own yacht. These experiences mean that he knows and understands the COLREGs from both sides and this gives him the ability to take you

through the COLREGs from a mariners' and sailors' perspective. He brings the vital, but dry, document to life, going through it not in order, but by topics which are relevant to the mariner and sailor. Paul explains the intention of each rule and how it should be applied when at sea. He includes personal anecdotes (not all favourable to him!) which make everything real and tells us how he remembers different aspects of the Regulations through mnemonics and other devices. Finally, each chapter ends with a self-test to reinforce what has been learnt - other tests are also available online on

the Fernhurst Books' website. This new edition has been updated with the 2016 changes to the CLOREGS. Whether you want to increase your confidence, pass an exam, require an on-board reference, or wish to improve your understanding of the nautical rules of the road, this is the ideal book for you.

"In this original study of the life and works of the American poet Galway Kinnell, Richard J. Calhoun offers a fresh, comprehensive look at this award-winning writer, who has so often been misunderstood by critics. Neither a leader of a movement nor a follower, Kinnell has received relatively little representation in

standard poetry anthologies, despite his importance in modern verse. He has nevertheless attracted a devoted readership and an increasing amount of critical attention, winning the Pulitzer Prize for poetry in 1983, and sharing an American Book Award in the same year. This critical study seeks to convey the full range of Kinnell's achievement." "Kinnell has produced abundantly in the course of a career that has spanned more than thirty years, publishing eight major volumes of poetry, a novel, assorted critical essays and commentary on his own works in the form of "self-interviews" and an acclaimed translation of the verse of Francois Villon. In this study, Calhoun places Kinnell in the tradition of the postmodern, personal poets like Theodore Roethke and Robert Lowell, and demonstrates the wide variety of models Kinnell has followed, from Whitman to Rainer Maria Rilke. In doing so, Calhoun challenges those critics who have perceived Kinnell as a poet undeviatingly concerned with mortality, and provides a fresh, nuanced interpretation of Kinnell's work, one that does not try to force the variegated work of this accomplished poet

into preconceived categories. Considering in turn Kinnell's life, milieu, works, and influence, Calhoun concludes that the poet has attempted to imaginatively identify with all living creatures of the natural world, to understand the morality required of conscious, living creatures in the face of their mortality."--BOOK JACKET.Title

Despite having a number of potential attributes (such as being English-speaking, having poverty levels below that of comparable countries and a reasonably well-educated labour force), Jamaica's economic history is marked by the paradoxes of low growth in GDP and high employment despite high investment and important achievements in poverty reduction. This publication seeks to examine these issues, and topics discussed include: poverty reduction and income inequality; whether Jamaica's GDP growth has been underestimated; policy

options for reducing the fiscal and debt burden, revitalising the financial system; improving education outcomes, tackling the economic costs of crime, and improving international competitiveness.

Collected Poems University of Michigan Press

The essential collection by the Pulitzer Prize and National Book Award-winner who was "one of the true master poets of his generation" (The New York Times). In the words of Galway Kinnell, it is "the poet's job to figure out what's happening within oneself, to figure out the connection between the self and the world, and to get it down in words that have a lasting shape, that have a chance of lasting." With this deeply probing and restlessly curious sensibility, Kinnell spend decades producing some of American poetry's most beloved and revered works. This comprehensive volume includes Kinnell's expansive poem of immigrant life on the Lower East Side of New York, "The Avenue Bearing the Initial of Christ into the New World,"; his incantatory book-length poem, *The Book of Nightmares*; and a searing evocation of Hiroshima in "The Fundamental Project of Technology." It

covers the iconic themes of Kinnell's middle years—eros, family, and the natural world—in works such as "After Making Love We Hear Footsteps," "The Bear," "Saint Francis and the Sow," and "Blackberry Eating." And includes the unflinchingly introspective work of his later years. Spanning six decades, this is the essential collection for old and new devotees of Galway Kinnell: "a poet of the rarest ability...who can flesh out music, raise the spirits, and break the heart" (Boston Globe).

The ethnically diverse scope, broad chronological coverage, and mix of biographical, critical, historical, political, and cultural entries make this the most useful and exciting poetry reference of its kind for students today. American poetry springs up out of all walks of life; its poems are "maternal as well as paternal...stuff'd with the stuff that is coarse and stuff'd with the stuff that is fine," as Walt Whitman wrote, adding "Of every hue and caste am I, of every rank and religion." Written for high school and undergraduate students, this two-volume encyclopedia covers U.S. poetry from the Colonial era to the present, offering full treatments of hundreds of key poets of the American canon. What sets this reference apart is that it also discusses events, movements, schools, and poetic approaches, placing poets in their social, historical, political, cultural, and critical contexts and showing how their works mirror the eras in which they were written.

Readers will learn about surrealism, ekphrastic poetry, pastoral elegy, the Black Mountain poets, and "language" poetry. There are long and rich entries on modernism and postmodernism as well as entries related to the formal and technical dimensions of American poetry. Particular attention is paid to women poets and poets from various ethnic groups. Poets such as Amiri Baraka, Nathaniel Mackey, Natasha Trethewey, and Tracy Smith are featured. The encyclopedia also contains entries on a wide selection of Latino and Native American poets and substantial coverage of the avant-garde and experimental movements and provides sidebars that illuminate key points.
