In light of the recent rise of right-wing populism in numerous political contexts and in the face of resurgent nationalism, racism, misogyny, homophobia, and demagoguery, this book investigates how historical and contemporary cultural producers have sought to resist, confront, confound, mock, or call out situations of political oppression in Germany, a country which has seen a dramatic range of political extremes during the past century. While the current turn to nationalist populism is global, it is perhaps most disturbing in Germany, given its history with its stormy first democracy in the interwar Weimar Republic; its infamous National Socialist (Nazi) period of the 1930s and 1940s; and its split Cold-War existence, with Marxist-Leninist Totalitarianism in the German Democratic Republic and the Federal Republic of Germany's barely-hidden ties to the Nazi past. Equally important, Germans have long considered art and culture critical to constructions of national identity, which meant that they were frequently implicated in political action. This book therefore examines a range of work by artists from the early twentieth century to the present, work created in an array of contexts and media that demonstrates a wide range of possible resistance.

How does a writer approach a novel about a real person? In this new collection of interviews, authors such as Emma Donoghue, David Ebershoff, David Lodge, Colum McCann, Colm Tóibín, and Olga Tokarczuk sit down with literary scholars to discuss the relationship of history, truth, and fiction. Taken together, these

conversations clarify how the biographical novel encourages cross-cultural dialogue, promotes new ways of thinking about history, politics, and social justice, and allows us to journey into the interior world of influential and remarkable people.

Why should we listen to celebrities like Bono or Angelina Jolie when they endorse a politician or take a position on an issue? Do we listen to them? Despite their lack of public policy experience, celebrities are certainly everywhere in the media, appealing on behalf of the oppressed, advocating policy change—even, in one spectacular case, leading the birther movement all the way to the White House. In this book Mark Harvey takes a close look into the phenomenon of celebrity advocacy in an attempt to determine the nature of celebrity influence, and the source and extent of its power. Focusing on two specific kinds of power—the ability to "spotlight" issues in the media and to persuade audiences—Harvey searches out the sources of celebrity influence and compares them directly to the sources of politicians' influence. In a number of case studies—such as Jolie and Ben Affleck drawing media attention to the civil war in the Democratic Republic of Congo; Bob Marley uniting warring factions in Jamaica; John Lennon networking with the new left to oppose Richard Nixon's re-election; Elvis Presley working with Nixon to counter anti-war activism—he details the role of celebrities working with advocacy groups and lobbying politicians to affect public opinion and influence policy. A series of psychological experiments demonstrate that celebrities can persuade people to accept their policy positions, even on national security issues. Harvey's analysis of news sources reveals that when celebrities speak about issues of public importance, they get disproportionately more coverage than politicians. Further, his reading of surveys tells us that people find politicians no more or less credible than celebrities—except politicians from the opposing party, who are judged less credible. At a time when the distinctions between politicians and celebrities are increasingly blurred, the insights into celebrity influence presented in this volume are as relevant as they are compelling.

The Evolution of Black Women in Television e-artnow sro

This book seeks to interrogate the representation of Black women in television. Cheers explores how the increase of Black women in media ownership and creative executive roles (producers, showrunners, directors and writers) in the last 30 years affected the fundamental cultural shift in Black women's representation on television, which in turn parallels the political, social, economic and cultural advancements of Black women in America from 1950 to 2016. She also examines Black women as a diverse television audience, discussing how they interact and respond to the constantly evolving television representation of their image and likeness, looking specifically at how social media is used as a

tool of audience engagement.

A fascinating insight into notable speeches that were never delivered, showing what could have been if history had gone down a different path For almost every delivered speech, there exists an undelivered opposite. These "second speeches" provide alternative histories of what could have been if not for schedule changes, changes of heart, or momentous turns of events. In Undelivered, political speechwriter Jeff Nussbaum presents the most notable speeches the public never heard, from Dwight Eisenhower's apology for a D-Day failure to Richard Nixon's refusal to resign the presidency, and even Hillary Clinton's acceptance for a 2016 victory—the latter never seen until now. Examining the content of these speeches and the context of the historic moments that almost came to be, Nussbaum considers not only what they tell us about the past but also what they can inform us about our present.

In *Just Like Us: Digital Debates on Feminism and Fame*, Caitlin E. Lawson examines the rise of celebrity feminism, its intersections with digital culture, and its complicated relationships with race, sexuality, capitalism, and misogyny. Through in-depth analyses of debates across social media and news platforms, Lawson maps the processes by which celebrity culture, digital platforms, and feminism transform one another. As she analyzes celebrity-centered stories ranging from “The Fappening” and the digital attack on actress Leslie Jones to stars’ activism in response to #MeToo, Lawson demonstrates how celebrity culture functions as a hypervisible space in which networked publics confront white feminism, assert the value of productive anger in feminist politics, and seek remedies for women’s vulnerabilities in digital spaces and beyond. *Just Like Us* asserts that, together, celebrity culture and digital platforms form a crucial discursive arena where postfeminist logics are unsettled, opening up more public, collective modes of holding individuals and groups accountable for their actions.
