Chinese Final Particles and the Syntax of the Periphery

Chinese University Press
The Routledge Advanced Chinese Multimedia Course: Crossing Cultural Boundaries is an innovative multimedia course for advanced students of Chinese. Written by a team of highly experienced instructors, the book offers advanced learners the opportunity to consolidate their knowledge of Chinese through a wide range of activities designed to build up both excellent language skills and cultural literacy. Divided into four thematic units covering popular culture, social change, cultural traditions, and politics and history, with each unit presenting three individual lessons, the volume provides students with a structured course which efficiently supports the transition from an intermediate to an advanced level. The many different texts featured throughout the lessons present interesting and accurate information about contemporary China and introduce students to useful vocabulary, speech patterns, and idiosyncratic language usage. Key features include Lively and detailed discussions of grammatical points and sentence patterns Engaging exercises for developing grammatical concepts and insight into the character writing system Systematic review of earlier material to ensure consolidation of learning Coverage of diverse and culturally relevant topics such as online dating, changing views of marriage, food culture, Confucianism and democracy in China. Extensive cultural and historical notes providing background to the subjects presented Complementary CDs to enhance listening skills. Free companion website (<http://duke.edu/web/chinesesoc/>) offering a wealth of video content forming the basis of many of the listening activities linked to topics within the book. Extensively revised and updated throughout, this new edition includes new material and activities on synonyms and substantial improvements to the "composition", "Focus on characters" and "Language practicum" sections. The improved Instructor's Resource Manual, which includes activity tips, additional exercises, answer keys and the traditional character texts, is available at <http://www.routledge.com/books/details/9780415841337/>

Easy Lessons, Questions, Answers, Mandarin Test Series, Captivating Short Stories, Teach Yourself Independently (Simplified Characters & Pinyin, Graded Reader Level 2) New Haven : Yale University Press

A concise introduction to the basics of open access, describing what it is (and isn't) and showing that it is easy, fast, inexpensive, legal, and beneficial. The Internet lets us share perfect copies of our work with a worldwide audience at virtually no cost. We take advantage of this revolutionary opportunity when we make our work "open access": digital, online, free of charge, and free of most copyright and licensing restrictions. Open access is made possible by the Internet and copyright-holder consent, and many authors, musicians, filmmakers, and other creators who depend on royalties are understandably unwilling to give their consent. But for 350 years, scholars have written peer-reviewed journal articles for impact, not for money, and are free to consent to open access without losing revenue. In this concise introduction, Peter Suber tells us what open access is and isn't, how it benefits authors and readers of research, how we pay for it, how it avoids copyright problems, how it has moved from the periphery to the mainstream, and what its future may hold. Distilling a decade of Suber's influential writing and thinking about open access, this is the indispensable book on the subject for researchers, librarians, administrators, funders, publishers, and policy makers.

Solutions Elementary: Workbook MIT Press

Told with humor and heart, *The Boy at the Back of the Class* offers a child's perspective on the refugee crisis, highlighting the importance of friendship and kindness in a world that doesn't always make sense. There used to be an empty chair at the back of Mrs. Khan's classroom, but on the third Tuesday of the school year a new kid fills it: nine-year-old Ahmet, a Syrian refugee. The whole class is curious about this new boy--he doesn't seem to smile, and he doesn't talk much. But after learning that Ahmet fled a Very Real War and was separated from his family along the way, a determined group of his classmates bands together to concoct the Greatest Idea in the World--a magnificent plan to reunite Ahmet with his loved ones. This accessible, kid-friendly story about the refugee crisis highlights the community-changing potential of standing as an ally and reminds readers that everyone deserves a place to call home. "This moving and timely debut novel tells an enlightening, empowering, and ultimately hopeful story about how compassion and a willingness to speak out can change the world." --School Library Journal, Starred Review Overall Winner of the 2019 UK Waterstones Children's Book Prize Winner of the 2019 UK Blue Peter Book Award A CLIP Carnegie Medal Children's Book Award Nominee

This report analyses all aspects of cultural diversity, which has emerged as a key concern of the international community in recent decades, and maps out new approaches to monitoring and shaping the changes that are taking place. It highlights, in particular, the interrelated challenges of cultural diversity and intercultural dialogue and the way in which strong homogenizing forces are matched by persistent diversifying trends. The report proposes a series of ten policy-oriented recommendations, to the attention of States, intergovernmental and non-governmental organizations, international and regional bodies, national institutions and the private sector on how to invest in cultural diversity. Emphasizing the importance of cultural diversity in different areas (languages, education, communication and new media development, and creativity and the marketplace) based on data and examples collected from around the world, the report is also intended for the general public. It proposes a coherent vision of cultural diversity and clarifies how, far from being a threat, it can become beneficial to the action of the international community.

gives discorsal strategies for forming sustained conversations.

The Chinese Classics: with a Translation, Critical and

Exegetical Notes, Prolegomena, and Copious Indexes ; in

Seven Volumes Tuttle Publishing

Women in Traditional Chinese Theatre serves as an introduction

to Chinese classical drama, through original translations of six

plays from the 14th to 20th centuries, and an investigation of the

portrayal of women in Chinese theater. The selected plays feature

the most popular female archetypes in Chinese literature,

including the paragon of virtue, the stoic sufferer, the faithful

wife, and the femme fatale. Appealing to both scholars and

general theater enthusiasts, this book reveals how the cultural

constructs of Chinese women are represented in dramatic

literature, and how the theater, in turn, shapes the cultural

perception of women.

Describes the state of postwar development policy in Africa that has channeled billions of dollars in aid but failed to either reduce poverty or increase growth, offering a hopeful vision of how to address the problem.

Communication, Civilization and China Random House Books for Young Readers

This is a complete and easy-to-use guide for reading and writing Chinese characters. Learning written Chinese is an essential part of mastering the Chinese language. Used as a standard by students and teachers learning to read Chinese and write Chinese for more than three decades, the bestselling Reading & Writing Chinese has been thoroughly revised and updated. Reading & Writing Chinese places at your fingertips the essential 1,725 Chinese characters' current definitions, derivations, pronunciations, and examples of correct usage by utilizing cleverly condensed grids. This guide also focuses on Pinyin, which is the official system to transcribe Hanzhi, Chinese characters, into Latin script, now universally used in mainland China and Singapore. Traditional characters (still used in Taiwan and Hong Kong) are also included, making this a complete reference. Newly updated and revised, these characters are the ones officially prescribed by the Chinese government for the internationally recognized test of proficiency in Chinese, the Hanyu Shuiping Kaoshi (HSK). The student's ability to read and write Chinese are reinforced throughout the text. Key features of this newly-expanded edition include: The 1,725 most frequently used characters in both Simplified and Traditional forms. All 2,633 characters and 5,000+ compounds required for the HSK Exam. Standard Hanyu Pinyin romanizations. More mnemonic phrases and etymologies to help you remember the characters. An extensive introduction, alphabetical index, and index according to stroke count and stroke order. Completely updated/expanded English definitions. Convenient quick-reference tables of radicals. Updated and revised compounds, plus 25% more vocabulary now offered. Codes to assist those who are preparing for the AP exam or the HSK exam.

Hacking Chinese Springer Nature

An innovator in contemporary thought on economic and political development looks here at decline rather than growth. Albert O. Hirschman makes a basic distinction between alternative ways of reacting to deterioration in business firms and, in general, to dissatisfaction with organizations: one, "exit," is for the member to quit the organization or for the customer to switch to the competing product, and the other, "voice," is for members or customers to agitate and exert influence for change "from within." The efficiency of the competitive mechanism, with its total reliance on exit, is questioned for certain important situations. As exit often undercuts voice while being unable to counteract decline, loyalty is seen in the function of retarding exit and of permitting voice to play its proper role. The interplay of the three concepts turns out to illuminate a wide range of economic, social, and political phenomena. As the author states in the preface, "having found my own unifying way of looking at issues as diverse as competition and the two-party system, divorce and the American character, black power and the failure of 'unhappy' top officials to resign over Vietnam, I decided to let myself go a little."

A Practical Guide to Learning Mandarin UNESCO

This text presents dialogues on everyday topics together with analysis of anticipated points of difficulty for the student and numerous sentences illustrating the usage of all new words and grammar. "Intermediate Chinese" has a number of unique features, chief among them is that the dialogues were first recorded and then transcribed and edited. This has resulted in

livelier conversational material than is generally found in textbooks.

Exit, Voice, and Loyalty Macmillan Elt

Chinese Civilization sets the standard for supplementary texts in Chinese history courses. With newly expanded material, personal documents, social records, laws, and documents that historians mistakenly ignore, the sixth edition is even more useful than its classic predecessor. A complete and thorough introduction to Chinese history and culture.

A Suitable Boy Tuttle Publishing

This book is a cross-linguistic study of the syntax of yes-no questions and their answers, drawing on data from a wide range of languages with particular focus on English, Finnish, Swedish, Thai, and Chinese. There are broadly two types of answer to yes-no questions: those that employ particles such as 'yes' and 'no' (as found in English) and those that echo a part of the question, usually the finite verb, with or without negation (as found in Finnish). The latter are uncontroversially derived by ellipsis, while the former have been claimed to be clause substitutes. Anders Holmberg argues instead that even answers that employ particles are complete sentences, derived by ellipsis from full sentential

expressions, and that the two types share essential syntactic properties. The book also examines the related cross-linguistic and intralinguistic variation observed in answers to negative questions such as 'does he not drink coffee?', whereby 'yes' in one language appears to correspond to 'no' in another. The book illustrates how a seemingly trivial phenomenon can have the most wide-ranging consequences for theories of language, and will be of interest not only to theoretical linguists but also to students and scholars of typological and descriptive linguistics.
