Saudi Arabia Investment and Business Guide - Strategic and Practical Information

Indira Gandhi Motorbooks

The extraordinary memoir of global oil's former central banker Ali Al-Naimi is the former Saudi oil minister - and OPEC kingpin - a position he held for the two decades between August 1995 and May 2016. In this time, Al-Naimi's briefest utterances moved markets. But it wasn't always that way. Al-Naimi was born into abject poverty as a nomadic Bedouin in the 1930s, just as US companies were discovering vast quantities of oil under the baking Arabian deserts. From his first job as a shepherd boy, aged four, to his appointment to one of the most powerful political and economic jobs in the world, Out of the Desert charts Al-Naimi's extraordinary rise to power. Described by Alan Greenspan as 'the most powerful man you've never heard of', Al-Naimi's incredible journey proves that anyone can make it - even a poor Bedouin shepherd boy. This is his exclusive inside story of power, politics and oil. His Excellency Ali Ibrahim Al-Naimi is the former Minister of Petroleum and Mineral Resources for the Kingdom of Saudi Arabia. One of the most powerful economic and political jobs in the world, he held this post from August 1995 to May 2016. Prior to that he held a wide range of leadership positions in the Kingdom's national oil company, Saudi Aramco. He was the first Saudi national to be named President of the company in 1984 and became the first Saudi CEO in 1988. Al-Naimi joined the company, then called Aramco, as an office boy in 1947. A Bedouin, he was born in the deserts of eastern Arabia in 1935.

The 1962 coup d'état in North Yemen initiated one of the most debilitating Middle East conflicts ever, the eight-year civil war in North Yemen. This conflict in an obscure corner of the Arab world eventually assumed global importance, attracting the attention of the superpowers and the United Nations. This book focuses on the Yemeni civil war's impact at the regional level, where it provoked enmity between two influential Arab states, Saudi Arabia and Egypt. Dr. Badeeb argues that for Egypt, the war constituted a means of intensifying and confirming its role as the leader of the revolutionary camp in the Arab world. For Saudi Arabia, however, it presented a direct challenge to the security and stability of the kingdom. Dr. Badeeb provides a valuable elucidation of Saudi Arabia's concern over Yemen as a potential source of political and strategic upheaval. This lately unappreciated aspect of the regional security picture is in part a legacy of the Saudi-Egyptian conflict of the 1960s and is one of the central elements of current Saudi security policy.

"It's all here-Islam, the family tree, a sea of oil and money to match, palace intrigue...This is high drama and an epic tale." - Tom Brokaw Though Saudi Arabia sits on one of the richest oil deposits in the world, it also produced fifteen of the nineteen 9/11 hijackers. In this immensely important book, journalist Robert Lacey draws on years of access to every circle of Saudi society giving readers the fullest portrait yet of a land straddling the worlds of medievalism and modernity. Moving from the bloody seizure of Mecca's Grand Mosque in 1979, through the Persian Gulf War, to the delicate U.S.-Saudi relations in a post 9/11 world, Inside the Kingdom brings recent history to vivid life and offers a powerful story of a country learning how not to be at war with itself.

It lays out a structured approach to desinging and growing a platform business model and addressess the key factors that lead to the success and failure of these businesses."--back cover.

Historiography in Saudi Arabia Routledge

An unprecedented, intimate account of the lives of modern Chinese women, told by the women themselves -- true stories of the political and personal upheavals they have endured in their chaotic and repressive society For eight groundbreaking years, Xinran hosted a radio program in China during which she invited women to call in and talk about themselves. Broadcast every evening, Words on the Night Breeze became famous throughout the country for its unflinching portrayal of what it meant to be a woman in modern China. Centuries of obedience to their fathers, husbands and sons, followed by years of fear under Communism, had made women terrified of talking openly about their feelings.

Xinran won their trust and, through her compassion and ability to listen, became the first woman to hear their true stories. This unforgettable book is the story of how Xinran negotiated the minefield of restrictions imposed on Chinese journalists to reach out to women across the country. Through the vivid intimacy of her writing, these women confide in the reader, sharing their deepest secrets. Whether they are the privileged wives of party leaders or peasants in a forgotten corner of the countryside, they tell of almost inconceivable suffering: forced marriages, sexual abuse, separation of parents from their children, extreme poverty. But they also talk about love -- about how, despite cruelty, despite politics, the urge to nurture and cherish remains. Their stories changed Xinran's understanding of China forever. Her book will reveal the lives of Chinese women to the West as never before.

Saudi Arabia is generally and justifiably viewed as a country with the fewest democratic institutions and the weakest traditions of pluralism in the world. It is therefore surprising to learn that at least in one corner of the Saudi world, there is a plurality voices. Jörg Matthias Determann brings this element to light by analysing an important field of cultural activity in Saudi Arabia: historical writing. By exploring the emergence of a plurality of historical narratives in the absence of formal political pluralism, Determann seeks to paint a more nuanced picture of Saudi Arabia than has previously been drawn. Since the 1920s local, tribal, Shi'i and dynastic histories have contributed to a growing plurality of narratives, diverging from and contesting the histories which focus on the royal family. Instead, they have emphasized the communities' historical independence from the House of Saud or asserting the communities' importance in Saudi national history. In addition to this, during the 1970s, distinct social and economic histories began to be developed, new narratives which have described important historical events evolving from wider social and economic factors rather than resulting from the actions of individual rulers or communities. Paradoxically, this happened because of the expansion of the Saudi state, including state-provision of mass education. A variety of previously illiterate and relatively poor sections of Saudi society, including former Bedouin, were thus empowered to produce histories which, while conformist for the most part, also provided a vehicle for dissenting voices. Furthermore, Determann argues that this proliferation of alternative histories is also due to globalizing processes, such as the spread of the internet. It is through this phenomenon that narrative plurality has been facilitated, by putting Saudi historians in contact with different ideologies, methodologies and source material from abroad. In challenging the widely-held perception of Saudi Arabia as an irredeemably closed and monolithic society, *Historiography in Saudi Arabia* provides a deeper understanding of modern Arab historiography, the Saudi state, and education and scholarship in the Middle East.

Born into a leading merchant family in Saudi Arabia's Eastern Province, Dr Alghosaibi not only experienced but, as Minister for Industry and Electricity and Minister of Health, played a leading part in the Kingdom's rapid modernisation during the 1970s and 1980s. In this administrative autobiography, we are treated to the wit and wisdom of one of Saudi Arabia's leading

technocrats who, as poet, writer, broadcaster and, latterly, ambassador, is also one of its most prominent intellectuals and gifted communicators. In recounting his career, he provides us with a series of profound and penetrating insights into the relationship between the political leadership, the executive and the administrative machine. Along the way we are given an insider's view of the personalities of successive monarchs, the whirlwind transformation of the Kingdom's infrastructure, the tensions between conservatives and modernisers, and Saudi Arabia's relations with its neighbours. In Dr Alghosaibi's view of the human condition, we are all victims of administration from the day we are born, and inevitably grow up to be perpetrators of

it too. Illustrating his story with vivid and occasionally hilarious incident, he reflects on what he calls his own "aggressive" style of administration in contrast to the "defensive" style, the pitfalls of popularity and media stardom, the requirements of education and development, the relative merits of state ownership and privatisation, the challenges of national healthcare, and the claims of family life. The book is packed with judicious tips for budding administrators and diplomats. All those interested in the workings of government in this most conservative of modern Islamic states will find in Dr Alghosaibi's life in administration an essential and entertaining companion.
