### **Bryman's Social Research Methods**

Oxford University Press

Clear, comprehensive, and trusted, Bryman's Social Research Methods has guided over a quarter of a million students through their research methods course and student research project. The thoroughly updated sixth edition offers unrivalled coverage of quantitative, qualitative, and mixed methods with renewed focus and a fresh, modern feel. The authors have worked closely with lecturers and students in thoroughly updating the sixth edition to reflect the current social science landscape, and carefully streamlining content to make it relevant and appealing to today's students. As a result, the text's comprehensive coverage - which includes many new examples and additional

material on areas such as social media research and big data - is now even clearer, more focused, and easier to navigate. NEW TO THIS EDITION thoroughly but sensitively updated by three new authors. Dr Tom Clark, Dr Liam Foster, and Dr Luke Sloan bring specialist expertise and have worked closely with students and lecturers to build on Alan Bryman's impressive legacy. Extensively streamlined to provide even more focused coverage of the key aspects of social research, with adjustments made throughout to improve clarity and aid navigation. A clean, attractive new design makes the material easier than ever to read and use. Coverage - including citations and real research examples - has been broadened to better reflect the concerns and contexts of the book's geographically diverse, multi-disciplinary readership. Discussions of feminist perspectives have also been updated to highlight wider issues relating to marginalised groups and power dynamics in research, and inclusive, ethical practices are consistently endorsed. New material on recent developments within social research, including social media research and big data, has been embedded throughout and the numerous examples of real research have been thoroughly updated. In new

'Learn from experience' boxes, recent social science graduates from across the UK and Europe share their experiences of conducting a student research project. These candid accounts will inspire readers and help them to avoid common pitfalls and emulate successful approaches. Expanded digital resources now include a 'research process in practice' simulation, answers to the end-of-chapter questions, videos from the new 'Learn from experience' graduate panel, and screencast tutorials covering the data analysis software packages SPSS, Nvivo, R, and Stata. This title is available as an eBook. Please contact your Learning Resource Consultant for more information.
