There's more to writing a successful fantasy story than building a unique world or inventing new magic. How exactly is a plot put together? How do you know if your idea will support an entire novel? How do you grab reader attention and keep it? How do you create dynamic, multi-dimensional characters? What is viewpoint and do you handle it differently in urban fantasy than in traditional epics? What should you do if you're lost in the middle? How do you make your plot end

up where you intend it to go? From the writing of strong, action-packed scenes to the handling of emotions, let award-winning fantasy author Deborah Chester guide you through the process of putting a book together. Convinced there's no need to shroud the writing process under a veil of mystery, Chester supplies tips that are both practical and proven. They are exactly what she uses in writing her own novels and what she teaches in her writing courses at the University of Oklahoma. Along with explaining story construction step-by-step, Chester illustrates each technique with examples drawn from both traditional and urban fantasy. The technique chapters include exercises to assist novices in mastering the craft of writing fantasy as well as suggestions for avoiding or solving plot problems. More experienced writers will find tips for taking their work to the next level. With an introduction by author Jim Butcher, The fantasy fiction formula provides the information you need to gain skill and proficiency in writing fantasy like a pro.

Writing Fight Scenes

Do you want your characters to feel such strong emotions that the readers' scalps prickle, their mouths go dry and their hearts thud like they're sharing the experience? Do you want to convey fear or happiness in ways that make the readers feel heat radiating through their chest or cold sweat trickling down their spine rather than the tired 'he was afraid' or 'she felt happy'? Step by step, you'll learn how to express feelings through body language, dialogue, thought, similes, visceral sensations and mood-rich descriptions. The book also guides you through layering emotions and varying their intensity. It shows you how to subtly reveal a character's secret or suppressed emotions. The book also flags mistakes to avoid and reveals tricks used by professional authors. At the end of each chapter, you'll find assignments. If you like, you can use this book as an advanced fiction-writing course. Please note: This book is not suitable for absolute

beginners. It assumes that you have mastered the basics of your craft and know how to create characters and write dialogue and are ready to take your craft skills to the next level. British English.

But a poorly done or unbelievable fight scene can ruin a great book in an instant. In *Fight Write* you'll learn practical tips, terminology, and the science behind crafting realistic fight scenes for your fiction. Broken up into "Rounds," trained fighter and writer Carla Hoch guides you through the many factors you'll need to consider when developing battles and brawls. • In Round 1, you will consider how the

Who, When, Where, and Why questions affect what type of fight scene you want to craft. • Round 2 delves into the human factors of biology (think fight or flight and adrenaline) and psychology (aggression and response to injuring or killing another person). • Round 3 explores different fighting styles that are appropriate for different situations: How would a character fight from a prone position versus being attacked in the street? What is the vocabulary used to describe these styles? • Round 4 considers weaponry and will guide you to select the best weapon for your characters, including nontraditional weapons of opportunity, while also thinking about the nitty-gritty details of using them. • In Round 5, you'll learn how to accurately describe realistic injuries sustained from the fights and certain weapons, and what kind of injuries will kill a character or render them unable to fight further. By taking into account where your character is in the world, when in history the fight is happening, what the character's motivation for fighting is, and much more, you'll be able write

fight scenes unique to your plot and characters, all while satisfying your reader's discerning eye. *Critical Failures IV* Simon and Schuster If he hates her so much, why did he say yes?
