NOBLE JAELYN

Introducing Comparative Politics Lynne Rienner Pub

The new edition of this leading overview of comparative politics once again blends theory and evidence across democratic systems to provide unparalleled coverage. The student-friendly structure and clear, concise writing ensure that complex issues are clearly explained and students engage with the key theories. The third edition is updated throughout, with a new chapter, 'Public Spending and Public Policies', increased coverage of defective democracies, and revised coverage of e-democracy and the power of the media. The pedagogy is simplified with a focus on 'Briefings' and 'Controversies' that feature examples from across the globe, alongside clear key terms, 'What We Have Learned' and 'Lessons of Comparison' sections, and a wealth of online materials to complete a rich teaching and learning package.

Principles and Applications Oxford University Press

Classic works and contemporary ideas

Leading experts in the field provide up-to-date and systematic coverage. The book is accompanied by an Online Resource Centre. Student resources: Three additional case studies, including one on China Web links from the book Flashcard glossary

Doing Comparative Politics Cambridge University Press

Unlike political or economic institutions, social movements have an elusive power, but one that is no less real. From the French and American revolutions through the democratic and workers' movements of the nineteenth century to the totalitarian movements of today, movements exercise a fleeting but powerful influence on politics and society. This study surveys the history of the social movement, puts forward a theory of collective action to explain its surges and declines, and offers an interpretation of the power of movement that emphasises its effects on personal lives, policy reforms and political culture. While covering cultural, organisational and personal sources of movements' power, the book emphasises the rise and fall of social movements as part of political struggle and as the outcome of changes in political opportunity structure.

A Guide to American Politics in Comparative Perspective

Oxford University Press, USA

Offers a groundbreaking analysis of the distinctive substantive, theoretical and methodological contributions of subnational research in the field of comparative politics.

Linking Concepts and Cases Cambridge University Press

Drawing on new approaches in comparative politics, Democratic Latin America focuses on analyzing political institutions as a way to assess broader trends in the region's politics, including the rise of democracy. The text looks at the major institutions—executive,

legislature, judiciary, military, and more—in 18 democratic countries to not only provide an expansive view of politics in Latin America but to also facilitate cross-national comparison.

Democratic Latin America uniquely surveys the "what" of the region's politics as well as the "why" and "how" to help students critically consider Latin America's future.

Governance and Politics of China University of Chicago Press

This book approaches current controversies concerning qualitative and quantitative procedures in the social sciences and incorporates new methods showing how they can supplement each other. It is based on a comprehensive international research project that readers can apply to their findings through the data set provided on the author's home page.

Principles of Comparative Politics Cambridge University Press

Examining democracies from a comparative perspective helps us better understand why politics—or, as Harold Lasswell famously said, "who gets what, when, and how"—differ among democracies. *American Difference: A Guide to American Politics in Comparative Perspective* takes the reader through different aspects of democracy—political culture, institutions, interest groups, political parties, and elections—and, unlike other works, explores how the United States is both different from and similar to other democracies. The fully updated Second Edition has been expanded to include several new chapters and discussion on civil liberties and civil rights, constitutional arrangements, elections and electoral institutions, and electoral behavior. This edition also includes data around the 2016 general election and 2018 midterm election.

Advances and Setbacks Psychology Press

This book examines the causal impact of ideology through a comparative-historical analysis of three cases of 'post-imperial democracy': the early Third Republic in France (1870–86); the Weimar Republic in Germany (1918–34); and post-Soviet Russia (1992–2008). Hanson argues that political ideologies are typically necessary for the mobilization of enduring, independent national party organizations in uncertain democracies. By presenting an explicit and desirable picture of the political future, successful ideologues induce individuals to embrace a long-run strategy of cooperation with other converts. When enough new converts cooperate in this way, it enables sustained collective action to defend and extend party power. Successful party ideologies thus have the character of self-fulfilling prophecies: by portraying the future polity as one organized to serve the interests of those loyal to specific ideological principles, they help to bring political organizations centered on these principles into being.

The Third World CQ Press

This systematic, user friendly, and refreshingly unusual introduction to comparative politics is designed to teach students how to think comparatively and theoretically about the world they live in. The second edition retains the core features of the first, coherently integrating comparative method, theory, and issues, but provides updated material and additional cases throughout. The text now also includes study questions for each chapter.

Essential Readings in Comparative Politics W. W. Norton
Integrating theories, methods, and country cases with an emphasis on application and analysis. Combining thematic organization and a variety of country-specific case studies, *Comparative Politics Integrating Theories, Methods, and Cases* is an engaging and accessible introduction to comparative politics. Methodological tools are introduced early in the text and integrated throughout to help students develop a systematic way of doing their own analyses of concepts and issues. These tools include theories, the basics of the comparative method, and manageable case materials for practice, all in the context of the big questions in comparative politics today.

When International Relations, Comparative Politics, and Foreign Policy Meet University Press of America

Environmental Conservation and Social Justice in India, Tanzania, and Mexico W. W. Norton

The Oxford Handbook of Comparative Politics offers a critical survey of the field of empirical political science through the collection of a set of chapters written by 48 top scholars in the discipline of comparative politics

Mixed Methods in Comparative Politics CQ Press

Engaging. Refreshing. Provocative. These are just a few of the positive responses received already to this much needed new textbook. *Comparative Politics of the Third World* offers just the right blend of theory and substance to introduce students in a meaningful way to the developing - or not developing - world. Avoiding overgeneralization on the one hand and the problems of a strictly country-by-country approach on the other, authors Green and Luehrmann consistently link concepts pertaining to history, politics, economics, and international relations to a set of eight case studies: the classic cases of Mexico, Nigeria, Iran, and China and the alternative cases of Peru, Zimbabwe, Turkey, and Indonesia. Their approach, an accessible and even compelling narrative, is directed specifically at today's undergraduate students. Among the many outstanding features of the book: - Uses the familiar concreteness of case studies to make sense of both classic and cutting-edge theory. - Provides a solid introduction to eight countries, as well as the analytical tools needed to appreciate the enormous diversity of experience within and across regions. - Raises controversies: offers a stimu

Cases and Concepts in Comparative Politics Oxford University Press, USA

Organized thematically around important questions in comparative politics, *Introducing Comparative Politics, Fourth Edition* by Stephen Orvis and Carol Ann Drogus integrates a set of extended case studies of 11 core countries into the narrative. Serving as touchstones, the cases are set in chapters where they make the most sense topically—not separated from theory or in a separate volume—and vividly illustrate issues in cross-national context. The book's organization allows instructors flexibility and

gives students a more accurate sense of comparative study. In this edition, a brand new chapter on Contentious Politics covers ethnic fragmentation, social movements, civil war, revolutions, and political violence. New case studies on this topic include the Occupy and Tea Party movements in the US; Zapatista rebellion in Mexico; Boko Haram in Nigeria; and; and revolutions in China and Iran. The chapter on States and Identity has been substantially revised to better introduce students to the concept of identity and how countries handle identity-based demands. Case studies include nationalism in Germany; ethnicity in Nigeria; religion in India; race in the US; gender in Iran; and sexual orientation in Brazil. Content on states and markets, political economy, globalization, and development has all been consolidated into a new Part III of the book, focusing in a sustained way on economic issues.

Coronavirus Politics W. W. Norton

On the Boundaries focuses on the connections between international relations, comparative politics, and foreign policy. To many observers, international relations and comparative politics have recently lost focus. Both fields continually move away from foreign policy concerns. In this provocative volume, Howard J. Wiarda details where these fields have gone astray, indicates what must be done to correct their downward trajectories, and offers probing analyses of recent hot political topics that re-forge the links between international relations, comparative politics, and foreign policy.

Issues and Methods in Comparative Politics CQ Press

The Social Democratic party family is a central part of political life in the West. This book focuses on this party family as well as a unique political force in the industrialised world. It provides a critical comparative survey of when, where, how and why Social Democracy developed within established capitalist democracies. The book explains the electoral fortunes of Social Democratic parties, the influence of the party system dynamics and co-operation between parties in government. It examines the ideological tensions within Social Democratic parties between socialists and reformists and its ramifications for pursuing a 'better and kinder' world. This study also discusses the recent state of affairs and its mission in the 21st century. The book features a comparative analysis of 21 cases from Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Japan, Netherlands, New Zealand, Norway, Portugal, Spain, Sweden, Switzerland, the UK and the United States. It will be of key interest to students and scholars of public policy, comparative politics, party politics and democracy studies.

Foundations of Comparative Politics Palgrave Macmillan
How elites influenced major electoral reform in the emerging democracy of Indonesia

Structuring the State Lynne Rienner Publishers

Including cases drawn from Africa, the Middle East, Asia, and Latin America, this collection of scholarly essays is relevant to the growing state theory literature in the social sciences, stressing a state-in-society approach to the study of political development.

Theory and Methods University of Michigan Press

The most comprehensive, consistent casebook
