 Of Technology Management The
 objectives of IJTM are to develop,
 promote and coordinate the science and
 practice of technology management. It
 also aims to help professionals working
 in the field, engineering and business
 educators and policy-makers to
 contribute, to disseminate information
 and to learn from each other's work. The
 international dimension is emphasised in
 order to overcome cultural and national

barriers and to meet the needs of accelerating technological change and changes in the global economy. International Journal of Technology Management (IJTM) ... The International Journal of Technology Management and Sustainable Development supports new philosophies on technology and development, their relationship to globalisation, and the problems of world poverty and environmental degradation. International Journal of Technology Management ... The IJTM aims to provide a refereed and authoritative source of information in the field of managing with technology, and the management of engineering, science and technology. It seeks to establish channels of communication between government departments,

technology executives in industry, commerce and related business, and academic experts in the field. International Journal of Technology Management The International Journal of Technology Management & Sustainable Development (TMSD) is a peer-reviewed multidisciplinary journal dedicated to publishing high quality, original and research-based papers addressing policy issues arising from the relationship between technology and development. In its aim to respond to the growing awareness of the need to understand sustainable development in terms of its underlying dynamics, TMSD draws on a whole niche area of issues in the relationship ...
