Hydrocarbons revenues still form the bulk of Abu Dhabi's GDP and while falling prices are a concern, the emirate has been moving steadily towards its economic diversification targets in line with Abu Dhabi Economic Vision 2030. The past 10 years has seen the non-oil sector expand strongly on the back of business-friendly government policies, as a result of which non-oil sector growth now outpaces that of the oil sector. Outside of hydrocarbons, construction and manufacturing represent the biggest GDP contributors in the emirate, with the construction sector poised to enter a period of renewed expansion and manufacturing identified as a key area for future growth, leveraging the emirate's natural resources, growing downstream capabilities and strategic location. Elsewhere Abu Dhabi's financial sector continues to assert itself and the expected 2015 launch of Abu Dhabi Global Market, the UAE's second financial free zone, is expected to boost activity in the sector. Meanwhile visitor numbers to Abu Dhabi continue to rise, with around 3.5m arrivals in 2014, up 25% on the previous year. This growth is expected to continue as major infrastructure upgrades continue apace. These include the expansion of Abu Dhabi International Airport and the development of the 1200-km wide Etihad rail project.

International Encyclopedia of Human Geography, Second Edition embraces diversity by design and captures the ways in which humans share places and view differences based on gender, race, nationality, location and other factors—in other words, the things that make people and places different. Questions of, for example, politics, economics, race relations and migration are introduced and discussed through a geographical lens. This updated edition will assist readers in their research by providing factual information, historical perspectives, theoretical approaches, reviews of literature, and provocative topical discussions that will stimulate creative thinking. Presents the most up-to-date and comprehensive coverage on the topic of human geography Contains extensive scope and depth of coverage Emphasizes how geographers interact with, understand and contribute to problem-solving in the contemporary world Places an emphasis on how geography is relevant in a social and interdisciplinary context

A free ebook version of this title is available through Luminos, University of California Press's Open Access publishing program. Visit [www.luminosoa.org](http://www.luminosoa.org) to learn more. Early in the twenty-first century, Louisiana, one of the poorest states in the United States, redirected millions in tax dollars from the public coffers in an effort to become the top location site globally for the production of Hollywood films and television series. Why would lawmakers support such a policy? Why would citizens accept the policy's uncomfortable effects on their economy and culture? Almost Hollywood, Nearly New Orleans addresses these questions through a study of the local and everyday experiences of the film economy in New Orleans, Louisiana—a city that has twice pursued the goal of becoming a movie production capital. From the silent era to today's Hollywood South, Vicki Mayer explains that the aura of a film economy is inseparable from a prevailing sense of home, even as it changes that place irrevocably.
