The Health/Life Safety Code Advisory Committee was created in January 1999 to assess issues related to the health/life safety amendment process in Illinois regarding school facilities. The appendices of the Committee's report include public hearing testimony. The condensed transcript of the public hearing held on July 7, 1999, is accompanied by a concordance. *Health/Life Safety Code Advisory Committee Final Report* Nordic Council of Ministers

The Traffic Safety Summit Implementation Group (TSSIG) was established by the Secretary of Transportation, with a charter to operate from July 6, 1990, to July 6, 1992. TSSIG provided a forum for the development, consideration, and dissemination of traffic law enforcement strategies to State and/or local governments to assist in the implementation of the recommendations of the Department of Transportation (DOT) Traffic Safety Summit held April 1-3, 1990. This report reviews the meeting history,

accomplishments, and activities of TSSIG.

Cosmeceuticals are the latest additions to the health industry and have an ever-expanding market. They are considered to be a marriage between cosmetics and drugs and are defined as preparations applied on the body that may modify the physiological functions of the skin.

However, as more cosmeceuticals are being launched in the market and more types of drugs are incorporated into the formulation, the composition of cosmeceuticals is becoming more complex. Handbook of Cosmeceutical Excipients and their Safeties summarises the current evidence relating to cosmeceuticals' side effects and highlights the important information that practitioners and consumers need to know, as well as ways to avoid the adverse effects of the excipients.

Handbook of Cosmeceutical Excipients and their Safeties includes chapters covering topics such as the history of cosmeceuticals and the laws that regulate them, skin permeation, carcinogenicity as a systemic adverse effect and dermatitis as a topical adverse effect. It concludes with an appendix that gives brief information on the potency and permeability of common ingredients in cosmeceuticals. The appendix aims to highlight the

maximum allowable quantity of each ingredient to ensure product safety for consumers. The appendix was prepared by compiling the ingredients of 257 products containing more than 500 compounds, collected from a hospital pharmacy in Singapore. Focuses on the practical aspect of adverse effects from cosmeceuticals Explains the regulatory framework of cosmeceuticals Gives an idea of how excipients and drugs in cosmeceuticals enter the skin and methods of control

The IRTAD Annual Report 2014 provides an overview of road safety indicators for 2012 in 38 countries, with preliminary data for 2013, and detailed reports for each country.

### **Evaluation of Safety Belt Education Program for Employees. Final Report**

Rand Corporation  
Prosecutors, defense attorneys, judges, and highway safety professionals from around the country met in 1991 for Traffic Safety Summit II. The Summit produced 188 recommendations on all aspects of the prosecution and adjudication of traffic offenses. To assist in implementing these recommendations, then Secretary of Transportation Skinner appointed an Implementation Group, composed of the Summit working group moderators. This report describes the Implementation Group's accomplishments during its two year charter. The Implementation Group prioritized the recommendations. The highest priority recommendations fell into four major areas: training and education, records, assessment and treatment, and legislation.
