VANG BERG

Descendants of the

Basic Books
From a renowned
medieval historian

comes a new biography of King John, the infamous English king whose reign led to the establishment of the Magna Carta and the birth of constitutional democracy King John (1166-1216) has long been seen as the epitome of bad kings. The son of the most charismatic couple of the middle ages, Henry II and Eleanor of Aquitaine, and younger brother of the heroic crusader king, Richard the Lionheart, John lived much of his life in the shadow of his family. When in 1199 he became ruler of his family's lands in England and France, John proved unequal to the task of keeping them together. Early in his reign he lost much of his continental possessions, and over

the next decade would come perilously close to losing his English kingdom, too. In King John, medieval historian Stephen Church argues that John's reign, for all its failings, would prove to be a crucial turning point in English history. Though he was a masterful political manipulator, John's traditional ideas of unchecked sovereign power were becoming increasingly unpopular among his subjects, resulting in frequent confrontations. Nor was he willing to tolerate any challenges to his authority. For six long years, John and the pope struggled over the appointment of the Archbishop of Canterbury, a clash that led to the king's excommunication. As king of England, John

taxed his people heavily to fund his futile attempt to reconquer the lands lost to the king of France. The cost to his people of this failure was great, but it was greater still for John. In 1215, his subjects rose in rebellion against their king and forced upon him a new constitution by which he was to rule. The principles underlying this constitution -- enshrined in the terms of Magna Carta -- would go on to shape democratic constitutions across the globe, including our own. In this authoritative biography, Church describes how it was that a king famous for his misrule gave rise to Magna Carta, the blueprint for good governance.

Muse and Mentor
Simon and Schuster
Magna Carta is the founding document of individual freedom throughout the world. This is the definitive account of its genesis and subsequent impact.

1215 Simon and Schuster
King John is one of those historical characters who needs little in the way of introduction. If readers are not already familiar with him as the tyrant whose misgovernment gave rise to Magna Carta, we remember him as the villain in the stories of Robin Hood. Formidable and cunning, but also cruel, lecherous, treacherous and untrusting. Twelve years into his reign, John was regarded as a powerful king within the British Isles. But

despite this immense early success, when he finally crosses to France to recover his lost empire, he meets with disaster. John returns home penniless to face a tide of criticism about his unjust rule. The result is Magna Carta - a ground-breaking document in posterity, but a worthless piece of parchment in 1215, since John had no intention of honoring it. Like all great tragedies, the world can only be put to rights by the tyrant's death. John finally obliges at Newark Castle in October 1216, dying of dysentery as a great gale howls up the valley of the Trent. *The Battle of Hastings, Anglo-Saxon and Norman England*

That Magna Carta and King John Simon and Schuster
The Barons Named in the Magna Carta, 1215, and Some of Their Descendants who Settled in America During the Early Colonial Years British Library Board
Today Magna Carta is one of the most celebrated documents in English history. But although it has since come to symbolise some of the fundamental principles of democracy and human rights, it was never intended to be a lasting declaration of legal principle. It was a practical attempt to resolve a political crisis. This book explores the roles of the protagonists involved in the creation of Magna Carta in 1215 and describes the

political situation in England at the time – the wars with France, the king's exploitation of the feudal system, the barons' financial grievances, abuses in the administration of justice and the king's relationship with the Church. Illustrated throughout, and with a translation of the complete text of Magna Carta, the book explores the context in which Magna Carta came to be issued, in order to understand what it really meant to its creators and to those who have used and revered it since.

Magna Carta Boydell & Brewer

Eight hundred years ago King John of England was forced to seal a document of historic importance. As the first charter to grant individual

liberties under the rule of law, protecting the people against tyranny, Magna Carta is the most influential and far-reaching legal text the world has ever known. For this book, published with the official support of the UK Magna Carta Trust and marking the eight hundredth anniversary of the charter's first issue, Professor Nicholas Vincent is joined by a range of experts on Magna Carta from across the world to reflect on the circumstances of its genesis and its enduring significance. Magna Carta was serially reinterpreted by later generations, becoming a totem in fierce political debates on the liberties of the people - it became a sacred text for English puritans of the Civil

War, for the American patriots of the War of Independence, and for all those in the English-speaking world who have striven to build democratic rights and freedoms in the post-colonial age. Contents: Magna Carta in Context: a general survey from 1215 to the present day

 "Dan Jones has an enviable gift for telling a dramatic story while at the same time inviting us to consider serious topics like liberty and the seeds of representative government."
 —Antonia Fraser From the New York Times bestselling author of *The Plantagenets*, a lively, action-packed history of how the Magna Carta came to be—by the author of *Powers and Thrones*.
 The Magna Carta is

revered around the world as the founding document of Western liberty. Its principles—even its language—can be found in our Bill of Rights and in the Constitution. But what was this strange document and how did it gain such legendary status? Dan Jones takes us back to the turbulent year of 1215, when, beset by foreign crises and cornered by a growing domestic rebellion, King John reluctantly agreed to fix his seal to a document that would change the course of history. At the time of its creation the Magna Carta was just a peace treaty drafted by a group of rebel barons who were tired of the king's high taxes, arbitrary justice, and endless foreign wars.

The fragile peace it established would last only two months, but its principles have reverberated over the centuries. Jones's riveting narrative follows the story of the Magna Carta's creation, its failure, and the war that subsequently engulfed England, and charts the high points in its unexpected afterlife. Reissued by King John's successors it protected the Church, banned unlawful imprisonment, and set limits to the exercise of royal power. It established the principle that taxation must be tied to representation and paved the way for the creation of Parliament. In 1776 American patriots, inspired by that long-ago defiance, dared to pick up arms against another English

king and to demand even more far-reaching rights. We think of the Declaration of Independence as our founding document but those who drafted it had their eye on the Magna Carta.

Magna Carta and King John Independently Published

The Magna Carta, or “The Great Charter of the Liberties” is one of the most important historical documents in English history and serves as a philosophical basis for democratic monarchy and civil liberties. The charter was originally drafted in response to a political crisis during the reign of King John who faced opposition from the church and from a group of rebellious barons. The Magna Carta placed restrictions on the

monarch and provided an important precedent in suggesting that the king, like everyone else, was subject to the laws of the land.

Though the Magna Carta was nullified shortly after it was signed into law in 1215, it continued to influence the philosophies on which the English and American political systems are based. HarperTorch brings great works of non-fiction and the dramatic arts to life in digital format, upholding the highest standards in ebook production and celebrating reading in all its forms. Magna Carta of King John, A.D. 1215

Genealogical Publishing Com
On a summer's day in 1215 a beleaguered English monarch met a group of disgruntled barons in a meadow by the river Thames named Runnymede. Beset by foreign crisis and domestic rebellion, King John was fast running out of options. On 15 June he reluctantly agreed to fix his regal seal to a document that would change the world. A milestone in the development of constitutional politics and the rule of law, the 'Great Charter' established an Englishman's right to Habeas Corpus and set limits to the exercise of royal power. For the first time a group of subjects had forced an

English king to agree to a document that limited his powers by law and protected their rights. Dan Jones's elegant and authoritative narrative of the making and legacy of Magna Carta is amplified by profiles of the barons who secured it and a full text of the charter in both Latin and English.

Magna Carta, 1215-1915 1215 and All That Magna Carta and King John Full translated text of the original 1215 edition of Magna Carta Libertatum including a short prelude to the signed charter.

The Year of Magna Carta Penguin UK History.

Magna Carta of King John, A.D. 1215. [A Facsimile.] Simon and Schuster
Using a combination of

original sources and sharp analysis, this book sheds new light on a crucial period in England's development. From Norman Conquest to Magna Carta is a wide-ranging history of England from 1066 to 1215 ideal for students and researchers throughout the field of medieval history. Starting with the build-up to the Battle of Hastings and ending with the Magna Carta, Christopher Daniell traces the profound change England underwent over the period, from religion and the life of the court through to arts and architecture. Central discussion topics include: how the Papacy became powerful enough to proclaim Crusades and to challenge kings how

new monastic orders revitalized Christianity in England and spread European learning throughout the country how new Norman conquerors built cathedrals, monasteries and castles, which changed the English landscape forever how by 1215 the king's administration had become more sophisticated and centralized how the acceptance of the Magna Carta by King John in 1215 would revolutionize the world in centuries to come. This volume will make essential reading for all students and researchers of medieval history. *Magna Carta* Univ of California Press A revealing glimpse into the tumultuous history of England's medieval period, full of

knights in shining armor and terrible peasant suffering. Covering the violent and disease-ridden period between 1272 to 1399, England in the Age of Chivalry. . . And Awful Diseases covers the events, personages and ideas most commonly known as "medieval". This includes Geoffrey Chaucer, the Peasants revolt, the Scottish wars of independence, the Great Famine of 1315, the Black Death and the 100 Years War. Central to this time is King Edward III, who started the 100 Years War and defined the concept of chivalry, including England's order of the garter. His legacy continues to shape our view of England's history and is crucial in understanding the

development of Europe.

Magna carta Penguin VOLUME 2 of 5. All 5 volumes would need to be purchased to complete the set and full story of descendants of the Magna Carta to the present. Several online groups were also set up, including one specifically for the

descendants of those present at Runnymede on 15 June 1215; many of its members became interested in learning how they were related to each of the others, and participated in a collaborative project to compile a large family tree. All lines with fully-sourced details for each generation linking 1215 to the present day are contained within the 5 volumes of this book."

The Foundation of Freedom 1215-2015

Simon and Schuster
This new history is the first to tell the story of Magna Carta 'through the ages'. No other general work traces its continuing importance in England's political consciousness. Many books have examined the circumstances surrounding King John's grant of Magna Carta

in 1215. Very few trace the Charter's legacy to subsequent centuries and even fewer look at the fate of the physical document. Turner also underlines its great influence outside the United Kingdom, especially in North America. Today, the Charter enjoys greater prestige in the United States, the land of lawyers, than in Britain. U.S. citizens claim Magna Carta as a source of their liberties, guaranteeing 'due process of law' and condemning 'executive privilege'.
Descendants of the Magna Carta Sureties, King John and His Supporters As Shown I
Routledge
Finally revealing the family's indefatigable women among its legendary military figures, The Howe

Dynasty recasts the British side of the American Revolution. In December 1774, Benjamin Franklin met Caroline Howe, the sister of British General Sir William Howe and Richard Admiral Lord Howe, in a London drawing room for “half a dozen Games of Chess.” But as historian Julie Flavell reveals, these meetings were about much more than board games: they were cover for a last-ditch attempt to forestall the outbreak of the American War of Independence. Aware that the distinguished Howe family, both the men and the women, have been known solely for the military exploits of the brothers, Flavell investigated the letters of Caroline Howe,

which have been blatantly overlooked since the nineteenth century. Using revelatory documents and this correspondence, *The Howe Dynasty* provides a groundbreaking reinterpretation of one of England’s most famous military families across four wars. Contemporaries considered the Howes impenetrable and intensely private—or, as Horace Walpole called them, “brave and silent.” Flavell traces their roots to modest beginnings at Langar Hall in rural Nottinghamshire and highlights the Georgian phenomenon of the politically involved aristocratic woman. In fact, the early careers of the brothers—George, Richard, and

William—can be credited not to the maneuverings of their father, Scrope Lord Howe, but to those of their aunt, the savvy Mary Herbert Countess Pembroke. When eldest sister Caroline came of age during the reign of King George III, she too used her intimacy with the royal inner circle to promote her brothers, moving smoothly between a straitlaced court and an increasingly scandalous London high life. With genuine suspense, Flavell skillfully recounts the most notable episodes of the brothers' military campaigns: how Richard, commanding the HMS Dunkirk in 1755, fired the first shot signaling the beginning of the Seven Years' War at sea; how George won

the devotion of the American fighters he commanded at Fort Ticonderoga just three years later; and how youngest brother General William Howe, his sympathies torn, nonetheless commanded his troops to a bitter Pyrrhic victory in the Battle of Bunker Hill, only to be vilified for his failure as British commander-in-chief to subdue Washington's Continental Army. Britain's desperate battles to guard its most vaunted colonial possession are here told in tandem with London parlor-room intrigues, where Caroline bravely fought to protect the Howe reputation in a gossipy aristocratic milieu. A riveting narrative and long overdue reassessment of the

entire family, The Howe Dynasty forces us to reimagine the Revolutionary War in ways that would have been previously inconceivable.

Liberties and Commons for All Head of Zeus Magna Carta, the Great Charter, was granted at Runnymede on June 15th, 1215 by King John, and has since become one of the most important and celebrated documents in English history. It challenged and limited royal authority for the first time, established the Rule of Law in England and created core principles that are reflected in many constitutional documents around the world today. Magna Carta and All That reveals the compelling story behind this document, as well as

what life was truly like in England in 1215. Looking at how Magna Carta impacted on the people and the customs of the day and the key personalities behind the political power struggle of the time, it also explores the lives of ordinary people, both free men and serfs, in medieval English society. With fascinating facts and insights, this book gives a richly detailed look at the medieval world and the lasting legacy of this crucial document.

Magna Carta of King John, Ad 1215 Third Millenium Pub In this book top scholars analyse the historic and contemporary influence of Magna Carta, challenging its common myths. *King John* HarperCollins

'David Carpenter deserves to replace Sir James Holt as the standard authority, and an unfailingly readable one too.' Ferdinand Mount, TLS 'An invaluable new commentary' Jill Leopore, New Yorker With a new commentary by David Carpenter "No free man shall be seized or imprisoned, or stripped of his rights or possessions, or outlawed or exiled, or deprived of his standing in any other way, nor will we proceed with force against him, or send others to do so, except by the lawful judgment of his equals or by the law of the land." Magna Carta, forced on King John in 1215 by rebellion, is one of the most famous documents in world

history. It asserts a fundamental principle: that the ruler is subject to the law. Alongside a new text and translation of the Charter, David Carpenter's commentary draws on new discoveries to give an entirely fresh account of Magna Carta's text, origins, survival and enforcement, showing how it quickly gained a central place in English political life. It also uses Magna Carta as a lens through which to view thirteenth-century society, focusing on women and peasants as well as barons and knights. The book is a landmark in Magna Carta studies. 2015 is the 800th anniversary of Magna Carta's creation - an event which will be marked with exhibitions,

commemorations and debates in all the countries over whose constitutions and legal assumptions the shadow of Magna Carta hangs.
