Empowerment University Press of Kentucky

Focusing on the term empowerment this book examines the various meanings given to the concept of empowerment and the many ways power can be expressed - in personal relationships and in wider social interactions.

*Power and Empowerment* Routledge Rethinking Empowerment looks at the changing role of women in developing countries and calls for a new approach to empowerment. An approach that adopts a more nuanced, feminist interpretation of power and em(power)ment, recognises that local empowerment is always embedded in regional, national and global contexts, pays attention to institutional structures and politics and acknowledges that empowerment is both a process and an outcome. Moreover, the book warns that an obsession with measurement rather than process can undermine efforts to foster transformative and empowering outcomes. It concludes that power must be restored as the centrepiece of empowerment. Only then will the term and its advocates provide meaningful

ammunition for dealing with the challenges of an increasingly unequal, and often sexist, global/local world.

*Power and Empowerment* Psychology Press

This book is about power -- power in the classroom, in our schools, and in our society. Schools, teachers, students, and teaching exist in a churning cauldron of interrelated institutions and social forces. Power relations in schools reflect these larger societal forces and the interconnections of our institutions. This book is also about empowerment -- the empowerment of teachers and students. It explores the process through which people develop more control over their lives and acquire the skills and dispositions necessary to be critical and effective participants in our society. The heart of this book, and Kreisberg's unique contribution to the empowerment literature, is his elucidation of the difference between power over and power with in his search to understand the nature of power that can empower individuals and communities. Kreisberg draws upon educational, political, feminist, and psychological theory, and, especially, the voices of teachers, in his framing of the question: What are the dynamics of power that we as teachers can create in our relationships with our

students that will be empowering for both our students and ourselves?

**Transforming Power** Routledge  
Enlightenment of Mind for Greater Intelligence Enter the realm of your mind where human intelligence is stored. Those with the superior mind are always able to acquire knowledge, analyze information, and access thoughts much more readily than those who are less mentally empowered. People's minds are fading faster than ever. Think back, when is the last time you met someone who was truly focused and alert, who was truly stimulated by the world in front of them? So many people live in a walking haze. Would you like to pursue a greater mind in an effective way that will leave you feeling enlightened? Be more effective at work, at home, or at leisure by unleashing the latent power that resides in your own mind. "Mind Empowerment" is not merely theories but methods for you to put each mind empowerment principle into practice as soon as you read about it. Think of this as an aerobic workout for your mind! Boost your mind's power to the next level. \* Cultivate and maintain a sharp mind through constant mental stimulation. \* Discover what "neurobics" are for mental strengthening and conditioning. \* Reprogram your mind to perform at its best when you need it the most. \* Get acquainted with natural stimulants to enhance concentration. \* Work your mind into shape with a series of mental exercises. \* And much more! Backed by decades of scientific research, "Mind Empowerment" will revolutionize your mental capabilities with a variety of intellectually stimulating and easy-to-use exercises adapted from some of the greatest scientific and philosophical minds in history. If you are willing to follow the

simple steps and powerful exercises, you will soon see the results and increased focus. And best of all? The pursuit of empowering your mind is fun and easy to do!

The four dimensions of power Temple University Press

This book uses ethnographic analysis to examine the issues surrounding power and empowerment. It presents material drawn from across the world to explore how traditionally disempowered groups gain influence in multicultural settings.

This all-inclusive guide will help you: - Give yourself empowerment - Empower many aspects of your life and those around you - Gain an introduction to the idea of an empowerment coach - Teach others the importance of empowerment - Use goals to strategically plan your empowerment - Empower your spiritual self And more... Are you ready to take control of your

life? This is the perfect guide to join you on your way to an improved life. It's time to discover who you are.

**Organizing for Power and**

**Empowerment** Bloomsbury Publishing  
Designed to help build powerful community organizations, empower ordinary citizens to become leaders, and bring about major social and economic change, this book offers a coherent practice-based framework for understanding social action, with power and empowerment at the center of analysis. Topics include recruiting members, consensus building, leadership, publicity, and fundraising.

**The Power of Empowerment** Berrett-Koehler Publishers

The time for "playing small" is well past, but unfortunately we didn't receive an owner's manual when we decided to incarnate and "borrow" these bodies for this human experience. Power tools appear to be everyday devices, but these tools can improve the human experience and build a reality that is constructed on a firm foundation of core values. Learn why you are here, how to use your thoughts to construct a richer reality, and how to create success in relationships, business, wealth and health.

*Power, Empowerment and Social Change* Russell House Pub Limited

Most books about power only deal with the societal formula of the few having power over the enormously larger powerless masses, and which is mistaken as the so-called "natural order of power." But it is not well understood that this formula also requires social conditioning measures aimed at perpetuating the continuing depowerment of the powerless so that the powerful CAN have power over them. This in turn requires the societal

suppression and secretizing of all knowledge about the superlative human powers known to exist in individuals of the human species, but which are socially forced into latency in most. It is broadly understood that power and secrecy go together, but the scope of the "web" of secrets surrounding the larger nature of human power(s) is surprising. As discussed in this Volume I of SECRETS OF POWER, empowerment is difficult if the larger panorama of societal power and depowerment are not more fully understood.

**Power and Empowerment** Columbia University Press

An action guide and macro-level understanding of the process required to foster the workplace culture envisioned in *Empowerment Takes More Than a Minute*. As Ken Blanchard, John Carlos, and Alan Randolph clearly demonstrated in their previous bestseller, *Empowerment Takes More Than a Minute*, empowerment is not a goal that can be achieved in a minute. Empowerment is a process that requires ongoing effort, awareness, and commitment to transforming the hierarchy. This essential guide offers managers detailed, hands-on answers to their real-life questions about how, exactly, they can navigate the journey to empowerment. Written in an easily accessible Q&A format, the book closely examines and expands on the three keys to empowerment originally presented in *Empowerment Takes More Than a Minute*—sharing information, creating autonomy through boundaries, and replacing the hierarchy with teams. It clearly outlines the promises and challenges of each stage of the journey, providing managers with thought-provoking questions, clear advice, effective activities, and action tools that

will help them create a culture of empowerment. Wherever they are in the journey, managers will find a clear roadmap in this user-friendly action guide. Praise for Empowerment Takes More Than a Minute “The most truthful, straight-talk book on managing people to come along in eons. This is an exceptional tool for business.” —Harvey MacKay, #1 New York Times-bestselling author “One of the very best organized, thought out, planned, and written books on any business subject I have read.”

—Stanley Bass, Human Resources Consultant, Stan Bass Consulting

**Being of Power** John Hunt Publishing  
On weekday afternoons, dismissal bells signal not just the end of the school day but also the beginning of another important activity: the federally funded after-school programs that offer tutoring, homework help, and basic supervision to millions of American children. Nearly one in four low-income families enroll a child in an after-school program. Beyond sharpening students' math and reading skills, these programs also have a profound impact on parents. In a surprising turn—especially given the long history of social policies that leave recipients feeling policed, distrusted, and alienated—government-funded after-school programs have quietly become powerful forces for political and civic engagement by shifting power away from bureaucrats and putting it back into the hands of parents. In *State of Empowerment* Carolyn Barnes uses ethnographic accounts of three organizations to reveal how interacting with government-funded after-school programs can enhance the civic and political lives of low-income citizens. *Power and Empowerment in Higher Education* Routledge  
Empowerment has become a well-used

term across a wide variety of social work settings that involve dealing with people and their problems. But is it a central part of good practice or an empty word? And what of power? It is a central theme of human services practice but, like empowerment, is often only loosely examined. This book examines both the theory and practice of power and empowerment.

SAGE

Powerful women aren't just men walking around in dresses! As women continue to assume positions of social leadership in increasing numbers, the dynamics of the social construction of power need to be examined. Have women adopted traditionally male patterns of behavior in an effort to gain and maintain power in business, industry, politics, academics, etc.? And if not, what kind of power are women practicing? The authors of *Women, Power, and Ethnicity: Working Toward Reciprocal Empowerment* endeavored to find out by conducting a research study on how women from various racial and ethnic backgrounds compare and contrast the attributes associated with existing power paradigms (traditional, empowerment, personal authority) with an alternate model of power--reciprocal empowerment. Reciprocal empowerment is a discursive and behavioral style of interaction grounded in reciprocity initiated by people who feel a sense of personal authority. Reciprocal empowerment enables people with mutual self-interests to rise above obstacles based on social and political structures and to use personal authority to discuss and act on issues openly and honestly in order to effect change. Using a qualitative methodology, *Women, Power, and Ethnicity* includes the results of surveys

and interviews with women from seven different ethnic groups in the United States to determine if the concept or reciprocal empowerment resonates with them. The answer: Yes! *Women, Power, and Ethnicity* is organized by surveys and interview findings on women from seven cultural groups living in the United States (African, Asian, Caribbean, European, Latin, Middle Eastern, Native American). Each chapter includes: analyses of ethnographic findings, surveys, and interviews concise historical information effects of immigration, where applicable tables and diagrams direct quotes and much more! *Women, Power, and Ethnicity* examines women's attitudes toward power in several social forums--home, job, religion, politics, and society in general. The book is an essential resource for teachers and students of communication studies, women studies, gender studies, ethnic studies, and social sciences.

*Power and Empowerment in Schools*  
Rethinking Development

The present volume grew out of the 30th International LAUD Symposium, held on April 19–22, 2004 at the University of Koblenz-Landau in Landau, Germany. The conference, "Empowerment through Language", was centrally concerned with the concept of power and/or empowerment as observed in the status and use of language(s) and their speakers in bilingual and multilingual communities. The book discusses the theoretical issues inherent in the relation between language and power, the empowerment strategies involved in language policy and language planning situations, and the issue of language endangerment in Africa, i.e., the fate of minority languages and their speakers and the sociopolitical factors

perpetuating their exclusion from access to knowledge and skills. The volume constitutes a collection of papers by prominent linguists from many countries who explore the exciting interdisciplinary area of language, power, and linguistic empowerment. Broadly speaking, the papers focus on the theoretical and sociolinguistic problems related to the role of power in language policy and language planning situations in multilingual settings, language choices, code switches, and associated topics. Thus, the aim of the volume is to open up language policy and language planning issues as observed in multilingual contexts (nations, institutions, other settings, and domains) to the wider community of critical sociolinguistics by concentrating on the relationship between language and power. More particularly, it offers a decidedly sociolinguistic perspective to the study of language and power, which likewise has been tackled from other perspectives in the areas of sociology and political science. This interdisciplinary relationship is important both for linguistics and for the sociology of language. In this way, the book is an important contribution to general linguistics, sociolinguistics, minority issues in multilingual settings as well as the social sciences. In honor of his upcoming 80th birthday (2006), Fishman's colleagues and former students are preparing five volumes by him or about him, this being one of them.

**The Power of Empowerment** Oxfam

We live in a world where we're all about updating. We update our computers, phones, cars, careers—even our partners. Now it's time to update your personal philosophy and view. In essence, it's time to update you. Being

of Power is about transforming relationships. Not just with others, but with yourself, your experiences, your work, your purpose—how you relate to everything in your life. Here you will find the tools to enable you to break through the limiting views that have been keeping you stuck, frustrated, and unfulfilled; expand your viewpoint to see new possibilities; and come into your authentic self. The nine practices in this book are the stepping-stones on the path back to your essential authenticity, which is where your greatest power lies. These are practices to put into action minute by minute, day by day. We don't master them all at once; instead, we work them in each present moment, again and again, until eventually we come to embody them as a natural way of being. This is how we transform. The aim of this book is not to tell you "the truth," but rather to help you rediscover your own truth. Your deepest power comes from what you already know inside. You have the intelligence. You have the answers. The nine practices of transformation will simply allow you to dissolve the blocks standing in your way and access the wisdom that's already within you. They will show you how to put your essentially powerful way of being into action so you can create new, expanded results in your life. At its core, this book is about connecting to your authentic self and rediscovering who you are and what's possible.

**The Social Work Pocket Guide To Practical Action Pub**

The late author, one of the first women to enter the field of management consulting, experienced what she described as "nibbles"—little bites that life takes out of a person's self confidence. She offers a process for dealing with the world that moves the

reader toward personal power and growth arising out of the unique values and strengths of each person.

*Theories of Power and Domination*  
McGraw-Hill Education (UK)

This book provides an approach for promoting citizen participation; separating human rights, rule of law, development, and governance, reconnecting them in order to create an integrated approach to rights-based political empowerment; delving into questions of citizenship, constituency-building, social change, gender, and accountability.

**Mind Empowerment** Manchester University Press

This book casts a light on the daily struggles and achievements of 'gender experts' working in environment and development organisations, where they are charged with advancing gender equality and social equity and aligning this with visions of sustainable development. Developed through a series of conversations convened by the book's editors with leading practitioners from research, advocacy and donor organisations, this text explores the ways gender professionals – specialists and experts, researchers, organizational focal points – deal with personal, power-laden realities associated with navigating gender in everyday practice. In turn, wider questions of epistemology and hierarchies of situated knowledges are examined, where gender analysis is brought into fields defined as largely techno-scientific, positivist and managerialist. Drawing on insights from feminist political ecology and feminist science, technology and society studies, the authors and their collaborators reveal and reflect upon strategies that serve to mute epistemological boundaries and enable small changes to

be carved out that on occasions open up promising and alternative pathways for an equitable future. This book will be of great relevance to scholars and practitioners with an interest in environment and development, science and technology, and gender and women's studies more broadly. The Open Access version of this book, available at <https://www.taylorfrancis.com/books/e/9781351175180>, has been made
