Play with the Day is a soulful goal journal, planner and habit tracker that will help you live better -- not just get more done. With it, you'll weave beautiful rituals and habits into your life along with a few focused to-do's, leaving plenty of room for play. You'll live more soulfully while tapping into the universe's magic to help you become who you most want to be. Because life isn't about checking things off a list -- it's about living! Unfortunately, most planners are a series of to-do's, which results in living from the brain and not from the heart. Big dreams are not achieved by logic alone! Strategy is a powerful tool, but creatives who live from the heart require something more. Living from the heart is about taking one right next step at a time, allowing ourselves to be guided as life changes and we change. It requires us to stay open to inspired guidance and serendipity, the kind of magic that transcends logic but is the special sauce necessary for turning the wildest beyond wild dreams into reality. If your desires transcend logic, then your planner needs to, too. *Play with the Day Yearly Goal Journal* strikes the perfect balance between masculine structure and feminine flow. **This journal is UNDATED, allowing you to start and stop at any time.** Play with the Day Yearly Goal Journal features 8 parts: Part 1: Review First, you'll take stock of the 12 months that just passed with guided journaling prompts to help you compassionately assess how things have been going for you and create closure. Part 2: Daydream Next, you'll tune into your heart and ask yourself what you'd create if anything was possible. Time to go beyond the limits of your mind and existing reality! Part 3: Cast a vision The most fun part! You'll create a vision in 8 key areas of life. Each area offers two pages, one to brainstorm and another to create a mini vision board to harness the law of attraction. Part 4: Build a positive mindset Hidden fears will stop you from manifesting your dreams unless you honor them and write a new story! This guided journal portion will help you uncover even the most secret, deep hidden sabotages, allowing you to move beyond them and create real change in your life. Part 5: Create stepping stones to your vision A big part of realizing your dreams is simply making success a habit. In this section, you'll identify the main habits that will get you where you want to go and figure out how to implement them in your life. Part 6: Live with soul This is the soul of this goal setting workbook! Each month, you'll write about your desires and what you're grateful for, creating a powerful foundation to the start of the month. You'll set a main intention and up to 3 goals while digging into a handful of juicy guided journaling prompts -- just enough to deepen you into your goal without overwhelming you. You'll also connect to the main habits or rituals required to achieve your goal. Part 7: Track your habits This section features a habit tracker for maintaining the habits you've identified as important for helping you achieve your goals and become who you want to be. Part 8: Close the year Finally, close the year with a few brief, soulful questions different than those in Part 1. **The idea behind this habit tracker journal is that healthy habits create the foundation of joy and success. It's not what you do one day, but what you do every day. Using this goal setting journal and workbook, you'll achieve the perfect balance of structure and flow. Life is about more than work and getting things done. Sometimes you need a massage or a hike! And sometimes during that massage or hike, you receive a multi-million dollar idea. You can't schedule that. It has to come from within. With *Play with the Day*, you'll identify those messages to create a life as unique as you are.
