This volume provides a comprehensive and interdisciplinary account of the scholarship on religion, conflict, and peacebuilding. Looking far beyond the traditional parameters of the field, the contributors engage deeply with the legacies of colonialism, missionary activism, secularism, orientalism, and liberalism as they relate to the discussion of religion, violence, and nonviolent transformation and resistance. Featuring numerous case studies from various contexts and traditions, the volume is organized thematically into five different parts. It begins with an up-to-date mapping of scholarship on religion and violence, and religion and peace. The second part explores the challenges related to developing secularist theories on peace and nationalism, broadening the discussion of violence to include an analysis of cultural and structural forms. In the third section, the chapters explore controversial topics such as religion and development, religious militancy, and the freedom of religion as a keystone of peacebuilding. The fourth part locates notions of peacebuilding in spiritual practice by focusing on constructive resources within various traditions, the transformative role of rituals, youth and interfaith activism in American university campuses, religion and solidarity activism, scriptural reasoning as a peacebuilding practice, and an extended reflection on the history and legacy of missionary peacebuilding. The volume concludes by looking to the

future of peacebuilding scholarship and the possibilities for new growth and progress. Bringing together a diverse array of scholars, this innovative handbook grapples with the tension between theory and practice, cultural theory, and the legacy of the liberal peace paradigm, offering provocative, elastic, and context-specific insights for strategic peacebuilding processes.

On Violence Addison-Wesley Longman

Since the mid-1960s, new religious movements—some exotic, some homegrown—have burgeoned all over the United States. A sense of self-awareness and spiritual sensitivity have found expression in the lives of large numbers of people, especially among youth. Why would this happen? What do these movements teach, and what effect do they have on the future? How does religious consciousness relate to other manifestations of social change, such as communal living, group therapy, and radical politics? Beginning in 1971, an extensive research project was undertaken by a team of sociologists, historians, and theologians seeking answers to these questions. Through a combination of interviews and participant observations, they studied new religious and quasi-religious groups in the San Francisco Bay Area, a spawning ground for upwards of one hundred such movements. The New Religious Consciousness opens with reports on three Eastern-based movements: the Healthy, Happy, Holy Organization, Hare Krishna, and Divine Light (more popularly known by the name of its leader, Maharaj Ji). Three quasi-religious movements are then considered: the New Left, the Human Potential Movement (Esalen, EST, Scientology, etc.), and Synanon. Next, three movements having their roots in Western religious traditions are examined: the Christian World Liberation Front (an offshoot of the Jesus Movement), Catholic Charismatic Renewal, and the Church of Satan (whose members believe in witchcraft). Succeeding chapters are devoted to estimating the impact of these movements on established religions and the population at large and to the history of earlier periods of religious ferment in the United States. The book concludes with provocative essays by the editors in which they present separate and differing analyses of the sources, nature, and meaning of the new religious consciousness. A variety of perspectives are represented here: phenomenological, theological, experiential, sociological, and social psychological. The result is a book rich in insight about the nature of new religions. Taken together with a companion volume, Robert Wuthnow's *The Consciousness Reformation*, also published by University of California Press, *The New Religious Consciousness* provides the first comprehensive study of American countercultural belief systems. Sayyid Qutb and the Origins of Radical Islamism Bloomsbury Publishing USA

Sayyid Qutb (1906-1966) was an influential Egyptian ideologue credited with establishing the theoretical basis for radical Islamism in the post colonial Sunni Muslim world. Lacking a pure understanding of the leader's life and work, the popular media has conflated Qutb's moral purpose with the aims of bin Laden and al-Qaeda. He is often portrayed as a terrorist, Islamo-Fascist, and advocate of murder. This book rescues Qutb from misrepresentation, tracing the evolution of his thought within the context of his time. An expert on social protest and political resistance in the modern Middle East, as well as Egyptian nationalism, John Calvert recounts Qutb's life from the small village in which he was raised to his execution at the behest of Abd al-Nasser's regime. His study remains sensitive to the cultural, political, social, and economic circumstances that shaped Qutb's thought-major developments that composed one of the most eventful periods in Egyptian history. These years witnessed the full flush of Britain's tutelary regime, the advent of Egyptian nationalism, and the political hegemony of the Free Officers. Qutb rubbed shoulders with Taha Husayn, Naguib Mahfouz, and Abd al-Nasser himself, though his Islamism originally had little to do with religion. Only in response to his harrowing experience in prison did Qutb come to regard Islam and kufr (infidelity) as oppositional, antithetical, and therefore mutually exclusive. Calvert shows how Qutb repackaged and reformulated the Islamic heritage to pose a challenge to authority, including those who claimed (falsely, he believed) to be Muslim.

This book is the first attempt to understand Boko Haram in a comprehensive and consistent way. It examines the early history of the sect and its transformation into a radical armed group. It analyses the causes of the uprising against the Nigerian state and evaluates the consequences of the on-going conflict from a religious, social and political point of view. The book gives priority to authors conducting fieldwork in Nigeria and tackles the following issues: the extent to which Boko Haram can be considered the product of deprivation and marginalisation; the relationship of the sect with almajirai, Islamic schools, Sufi brotherhoods, Izala, and Christian churches; the role of security forces and political parties in the radicalisation of the sect; the competing discourses in international and domestic media coverage of the crisis; and the consequences of the militarisation of the conflict for the Nigerian government and the civilian population, Christian and Muslim. About the Editor: Marc-Antoine Perouse de Montclos is a Doctor in Political Science and a Professor at the French Institute of Geopolitics in the University of Paris 8. A specialist on armed conflicts in Africa south of the Sahara, he graduated from the Institut d'etudes politiques de Paris (IEP), where he teaches, and is a researcher at the Institut de recherche pour le developpement (IRD). Based on the premise that terrorism is essentially a message, *Terrorism and Communication: A Critical Introduction* examines terrorism from a communication perspective—making it the first text to offer a complete picture of the role of communication in terrorist activity. Through the extensive examination of state-of-the-art research on terrorism as well as recent case studies and speech excerpts, communication and terrorism scholar Jonathan Matusitz explores the ways that terrorists communicate messages through actions and discourse. Using a multifaceted approach, he draws valuable insights from relevant disciplines, including mass communication, political communication, and visual communication, as he illustrates the key role that media outlets play in communicating terrorists' objectives and examines the role of global communication channels in both spreading and combating terrorism. This is an essential introduction to understanding what terrorism is, how it functions primarily through communication, how we talk about it, and how we prevent it.

The Oxford Handbook of Religion, Conflict, and Peacebuilding Princeton University Press

With existing literature focusing largely on Western perspectives of peace and their applications, a global understanding of peace is much needed. Spurred by more recent debates and discourses that

criticize the dominant realist and liberal approaches for crises in contemporary state- and peace-building, the contributors to this handbook emphasize not only the need to solve this eternal conundrum of humanity, but also demand—with the rise of increasingly more violent conflicts in international relations—the development of a global interpretive framework for peace and security. To this end, the present handbook examines conceptual, institutional and normative interpretive approaches for making, building and promoting peace in the context of roles played by state and non-state actors within local, national, regional, and global units of analysis.

The Status of Woman in Islam MDPI

"Ed Husain has become one of the most vital Muslim voices in the world. The House of Islam could very well be his magnum opus." -Reza Aslan, #1 New York Times bestselling author of *Zealot* "This should be compulsory reading." -Peter Frankopan, author of the international bestseller *The Silk Roads Today*, Islam is to many in the West an alien force, with Muslims held in suspicion. Failure to grasp the inner workings of religion and geopolitics has haunted American foreign policy for decades and has been decisive in the new administration's controversial orders. The intricacies and shadings must be understood by the West not only to build a stronger, more harmonious relationship between the two cultures, but also for greater accuracy in predictions as to how current crises, such as the growth of ISIS, will develop and from where the next might emerge. The House of Islam addresses key questions and points of disconnection. What are the roots of the conflict between Sunni and Shi'a Muslims that is engulfing Pakistan and the Middle East? Does the Koran encourage the killing of infidels? The book thoughtfully explores the events and issues that have come from and contributed to the broadening gulf between Islam and the West, from the United States' overthrow of Iran's first democratically elected leader to the emergence of ISIS, from the declaration of a fatwa on Salman Rushdie to the attack on the offices of Charlie Hebdo. Authoritative and engaging, Ed Husain leads us clearly and carefully through the nuances of Islam and its people, taking us back to basics to contend that the Muslim world need not be a stranger to the West, nor our enemy, but our peaceable allies.

Analysts and pundits from across the American political spectrum describe Islamic fundamentalism as one of the greatest threats to modern, Western-style democracy. Yet very few non-Muslims would be able to venture an accurate definition of political Islam. Mohammed Ayoob's *The Many Faces of Political Islam* thoroughly describes the myriad manifestations of this rising ideology and analyzes its impact on global relations. "In this beautifully crafted and utterly compelling book, Mohammed Ayoob accomplishes admirably the difficult task of offering a readily accessible yet nuanced and comprehensive analysis of an issue of enormous political importance. Both students and specialists will learn a great deal from this absolutely first-rate book." ---Peter J. Katzenstein, Walter S. Carpenter, Jr. Professor of International Studies and Stephen H. Weiss Presidential Teaching Fellow, Cornell University "Dr. Ayoob addresses the nuances and complexities of political Islam---be it mainstream, radical, or militant---and offers a road map of the pivotal players and issues that define the movement. There is no one as qualified as Mohammed Ayoob to write a synthesis of various manifestations of political Islam. His complex narrative highlights the changes and shifts that have taken place within the Islamist universe and their implications for internal Muslim politics and

relations between the world of Islam and the Christian world." ---Fawaz A. Gerges, Carnegie Scholar, and holds the Christian A. Johnson Chair in International Affairs and Middle Eastern Studies, Sarah Lawrence College "Let's hope that many readers---not only academics but policymakers as well---will use this invaluable book." ---François Burgat, Director, French National Centre for Scientific Research (CNRS) and the Institute for Research and Study on the Arab and Muslim World (IREMAM), Aix-en-Provence, France "This is a wonderful, concise book by an accomplished and sophisticated political scientist who nonetheless manages to convey his interpretation of complex issues and movements

to even those who have little background on the subject. It is impressive in its clarity, providing a badly needed text on political Islam that's accessible to college students and the general public alike." ---Shibley Telhami, Anwar Sadat Professor for Peace and Development, University of Maryland, and Senior Fellow, Brookings Institution Mohammed Ayoob is University Distinguished Professor of International Relations with a joint appointment in James Madison College and the Department of Political Science at Michigan State University. He is also Coordinator of the Muslim Studies Program at Michigan State University.
