MicroC/OS II Second Edition describes the design and implementation of the MicroC/OS-II real-time operating system (RTOS). In addition to its value as a reference to the kernel, it is an extremely detailed and highly readable design study particularly useful to the embedded systems student. While documenting the design and implementation of the ker

On August 16th, 2016 Santiago Lange amazed the sporting world when he and his teammate Cecilia Carranza won the gold medal in sailing at the Olympic Games in Rio de Janeiro. At that time he was 54 years old, it was his sixth Olympic participation and he fought against unbelievable obstacles. His victory was an incomparable demonstration of his will to fight – not even one year after he had to undergo surgery because of lung cancer. Santiago Lange gave the world of sailing an unforgettable moment of glory. But how did he manage to get back on his feet in such a short time, to train without rest and to take part at the Olympic Games again? And why did he fight when his body, friends and family thought it was time to stop?"Nothing gives me more joy of life and adrenaline than the challenge of sport. When I'm on the water, my thoughts rest. Time stands still. I feel the wave, I feel the wind turning. The tension of the boat tells me that I have to change course or trim. I react, the boat gets faster and everything else doesn't exist anymore. It's always been like that." Santiago Lange

Kamran Khan is a cocky young taxi driver trying to make it big in Mumbai. But his life transforms when he saves a don called Mirza from being killed.

What seems like a good deed however has a cruel payback and in a single moment, Kamran loses everything dear to him. This is when Mirza, in gratitude, takes Kamran under his wing and the young man gets drawn into the mafia boss's dangerous world of cops and rival gangsters, eventually taking over from him. Kamran also inherits Mirza's philosophy that all of life's problems can be solved through Ghalib's poetry. Soon, the innocent taxi driver has cops, criminals and even cabinet ministers at his beck and call. And he has a new name—Ghalib Danger.

This book puts the spotlight on how a real-time kernel works using Micrium's C/OS-III as a reference. The book consists of two complete parts. The first describes real-time kernels in generic terms. Part II provide examples for the reader, using the Inineon XMC4500. Together with the IAR Systems Embedded Workbench for ARM development tools, the evaluation board provides everything necessary to enable the reader to be up and running quickly, as well as a fun and educational experience, resulting in a high-level of proficiency in a short time. This book is written for serious embedded systems programmers, consultants, hobbyists, and students interested in understanding the inner workings of a real-time kernel. C/OS-III is not just a great learning platform, but also a full commercial-grade software package, ready to be part of a wide range of products. C/OS-III is a highly portable,

ROMable, scalable, preemptive real-time, multitasking kernel designed specifically to address the demanding requirements of today's embedded systems. C/OS-III is the successor to the highly popular C/OS-II real-time kernel but can use most of C/OS-II's ports with minor modifications. Some of the features of C/OS-III are: Preemptive multitasking with round-robin scheduling of tasks at the same priority Unlimited number of tasks and other kernel objects Rich set of services: semaphores, mutual exclusion semaphores with full priority inheritance, event flags, message queues, timers, fixed-size memory block management, and more. Built-in performance measurements

IGI Global

Josiel Henry finally found solace from a violent past when she retired to a quiet isolated cottage in the country. Her seclusion is shattered when four bank robbers choose her home as a hideout in their escape from the law. Held prisoner in her own home, Josiel's thoughts are flooded with the past, along with the realization that escape is imperative. As her captors debate the merits of murdering their witness, Josiel schemes to break free but soon finds the risk of running away is greater than she could have imagined. Outnumbered and forced to fight for her life, she learns just how far she will go to save herself. A gripping story that provokes a primal fear, Remote Bliss explores the instinct for self preservation

"This book includes the challenges and practical experience of the design of M-Learning environments, covering current developments in M-learning experiences in both academia and industry"--Provided by publisher.

The Rainbow Study Bible King James Version, Indexed PANTAURO

In Rules for Reformers, Douglas Wilson poaches the political craft of radical progressives and applies it to Christian efforts in the current culture war. The result is a spicy blend of combat manual and cultural manifesto. Rules for Reformers is a little bit proclamation of grace, a little bit Art of War, and a little bit analysis of past embarrassments and current cowardice, all mixed together with a bunch of advanced knife-fighting techniques. As motivating as it is provocative, Rules for Reformers is just plain good to read. Thanks to Saul Alinsky's Rules for Radicals: A Practical Primer for Realistic Radicals--a book well-loved by Barack Obama, Hillary Clinton, and many others--for much of the shrewd advice, and for none of the worldview.

East meets West in this award-winning book of Chinese style by superstar fashion designer Vivienne Tam--and now it's in a cute, smaller trim size trade paperback! Celebrated fashion designer Vivienne Tam shares the rare individuality of her own cross-cultural style, combining traditional eastern elements with a modern Western edge. The seductive East-meets-West style is brought alive as Tam takes us on a personal journey featuring the people, places, and things that inspire her. From the sexy cheongsam (the ultimate feminine dress) to the Mao jacket (gives power dressing a whole new meaning), from the elaborate Chinese opera houses to Zen gardens, she teaches such us how to savour the world in a bowl of noodles and the essence of Chinese design in her favourite Ming chair. China Chic is style that is hot, hip, and pervasive to today's--and tomorrow's--pop culture.
