This is the first volume specifically dedicated to competition in inflection and word-formation, a topic that has increasingly attracted attention. Semantic categories, such as concepts, classes, and feature bundles, can be expressed by more than one form or formal pattern. This departure from the ideal principle "one form – one meaning" is particularly frequent in morphology, where it has been treated under diverse headings, such as blocking, Elsewhere Condition, Pāṇini's Principle, rivalry, synonymy, doublets, overabundance, suppletion and other terms. Since these research traditions, despite the heterogeneous terminology, essentially refer to the same underlying problems, this volume unites the phenomena studied in this field of linguistic morphology under the more general heading of competition. The volume features an extensive state of the art report on the subject and 11 research papers, which represent various theoretical approaches to morphology and address a wide range of aspects of competition, including morphophonology, lexicology, diachrony, language contact, psycholinguistics, sociolinguistics and language acquisition.

The Colour and Colour Naming conference, held in 2015 at the University of Lisbon, offered a chance to explore colour naming processes from a cross-linguistic approach. The conference was an initiative of the working group Lexicography And Lexicology from a Pan-European Perspective, itself part of the COST action European Network of Lexicography. The working group investigates the various ways by which vocabularies of European languages can be represented in dictionaries and how existing information from single language dictionaries can be displayed and interlinked to better communicate their common European heritage. The proceedings gather together a selection of studies originally presented at the conference. The first section of the volume outlines a Pan-European perspective of colour names; the second section is devoted to the categorisation and lexicographic description of colour terms.

When she agrees to take on one of the abused horses just rescued by the local SPCA, a new chapter opens in Susan Richards's difficult life. She lost her mother at the age of five and was raised by uncaring relatives; she married unhappily and divorced; and she'd been an alcoholic. Now, at the age of forty-three, she lives with three horses who keep her company: the diva-like Georgia, boyish Tempo and hopelessly romantic Hotshot. While trying to capture another horse assigned to her, Lay Me Down, a skeletal mare, walks into Susan's horse trailer of her own volition. When Susan agrees to take her, she begins to forge a special, healing relationship that alters her life. Poignant and evocative, this is a book for anyone who has ever loved a horse, and for everyone who has ever lost a loved one.

An illuminating collection of work by members of the Religious Society of Friends. Covering nearly three centuries of religious development, this comprehensive anthology brings together writings from prominent Friends that illustrate the development of Quakerism, show the nature of Quaker spiritual life, discuss Quaker contributions to European and American civilization, and introduce the diverse community of Friends, some of whom are little remembered even among Quakers today. It gives a balanced overview of Quaker history, spanning the globe from its origins to missionary work, and explores daily life, beliefs, perspectives, movements within the community, and activism throughout the world. It is an exceptional contribution to contemporary understanding of religious thought. Raised with limited peer interaction, Ernestine St Bennett has difficulty interpreting social cues. At twenty-five she's become a loner; a shy nerd immersed in her scientific studies, whose best friend is her pet fish, Waldo.Then Ernestine meets Simon Prime, who's obviously a nerd, too!

Sympathizing with his social dysfunction, Ernie decides to help poor Simon increase his self-esteem and thus enhance his social standing. Using principles learned in her fish studies, she'll simply turn Simon from meek to macho.What Ernestine doesn't know (but Waldo suspects) is that Simon Prime is really ex-cop, private investigator Sam Pierce in disguise. A man who definitely doesn't need his masculinity enhanced!

Celebrating the sesquicentennial anniversary of the completion of the first transcontinental railroad in the United States , After Promontory: One Hundred and Fifty Years of Transcontinental Railroading profiles the history and heritage of this historic event. Starting with the original Union Pacific—Central Pacific lines that met at Promontory Summit, Utah, in 1869, the book expands the narrative by considering all of the transcontinental routes in the United States and examining their impact on building this great nation. Exquisitely illustrated with full color photographs, After Promontory divides the western United States into three regions—central, southern, and northern—and offers a deep look at the transcontinental routes of each one. Renowned railroad historians Maury Klein, Keith Bryant, and Don Hofsommer offer their perspectives on these regions along with contributors H. Roger Grant and Rob Krebs.

Rebecca Rusch is one of the great endurance athletes of our time. Known today as the Queen of Pain for her perseverance as a relentlessly fast runner, paddler, and mountain bike racer, Rusch was a normal kid from Chicago who abandoned a predictable life for one of adventure. In her new book Rusch to Glory: Adventure, Risk & Triumph on the Path Less Traveled, Rusch weaves her

fascinating life's story among the exotic locales and extreme conditions that forged an extraordinary athlete from ordinary roots. Rusch has run the gauntlet of endurance sports over her career as a professional athlete-- climbing, adventure racing, whitewater rafting, cross-country skiing, and mountain biking--racking up world championships along the way. But while she might seem like just another superhuman playing out a fistful of aces, her empowering story proves that anyone can rise above self-doubt and find their true potential. First turning heads with her rock climbing and paddling skills, Rusch soon found herself spearheading adventure racing teams like Mark Burnett's Eco-Challenge series. As she fought her way through the jungles of Borneo, raced camels across Morocco, threaded the rugged Tian Shan mountains, and river-boarded the Grand Canyon in the dead of winter, she was forced to stare down her own demons. Through it all, Rusch continually redefined her limits, pushing deep into the pain cave and emerging ready for the next great challenge. At age 38, Rusch faced a tough decision: retire or reinvent herself yet again. Determined to go for broke, she shifted her focus to endurance mountain bike racing and rode straight into the record books at a moment when most athletes walk away. Rusch to Glory is more than an epic story of adventure; it is a testament to the rewards of hard work, determination, and resilience on the long road to personal and professional triumph.

This book was first written in Latin in 1241 by Frederick II of Hohenstaufen, Holy Roman Emperor

(1196-1250). It was first published as a two volume work by his son Manfred. The original is in the Vatican. Next it was published in French in 1300 in six volumes by Jean II of Dampierre. The six volume work was translated into English and combined into one book in 1931 by Dr. Casey Albert Wood (1856-1942), a Canadian ophthalmologist specializing in the eyes of birds, and F. Marjorie Fyfe. The illustrations in this book were obtained in the Vatican Library during the years that Dr. Wood was studying there. Falcons have the best eyesight of any creature known to exist. It has long been recognized that birds of this type have exceptional ability in eyesight. We even have the expression "Eagle-eyed," meaning a person who is alert and can see well. Second is that they are the fastest creature known to exist. Consider the fact that Falcons fly high in the sky, thousands of feet up, yet they can spot a mouse on the ground and dive down to catch him. Dr. Casey Wood was studying falcons to find out why they are able to see so much better than we humans can. One of the very few rare copies of this book known to exist are in the Vatican Library in Vatican City, where he was studying.

A thrilling page-turner that also happens to be the biography of one of Russia's most controversial figures This is how Emmanuel Carrère, the magnetic journalist, novelist, filmmaker, and chameleon, describes his subject: "Limonov is not a fictional character. There. I know him. He has been a young punk in Ukraine, the idol of the Soviet underground; a bum, then a multimillionaire's butler in Manhattan; a fashionable writer in Paris; a lost soldier in the Balkans; and now, in the fantastic shambles of postcommunism, the elderly but charismatic leader of a party of young desperadoes. He sees himself as a hero; you might call him a scumbag: I suspend my judgment on the matter. It's a dangerous life, an ambiguous life: a real adventure novel. It is also, I believe, a life that says something. Not just about him, Limonov, not just about Russia, but about all our

history since the end of the Second World War." So Eduard Limonov isn't fictional—but he might as well be. This pseudobiography isn't a novel, but it reads like one: from Limonov's grim childhood to his desperate, comical, ultimately successful attempts to gain the respect of Russia's literary intellectual elite; to his immigration to New York, then to Paris; to his return to the motherland. Limonov could be read as a charming picaresque. But it could also be read as a troubling counternarrative of the second half of the twentieth century, one that reveals a violence, an anarchy, a brutality, that the stories we tell ourselves about progress tend to conceal.

Plays By African Americans From 1847 To Today Routledge

This book is about the nature of morphology and its place in the structure of grammar. Drawing on a wide range of aspects of Romance inflectional morphology, leading scholars present detailed arguments for the autonomy of morphology, ie morphology has phenomena and mechanisms of its own that are not reducible to syntax or phonology. But which principles and rules govern this independent component and which phenomena can be described or explicated by the mechanisms of the morphemic level? In shedding light on these questions, this volume constitutes a major contribution to Romance historical morphology in particular, and to our understanding of the nature and importance of morphomic structure in language change in general.
