Shipcare & Maritime Management Blue Moon Rising
Future Risks and Risk Management provides a broad perspective on risk, including basic philosophical issues concerned with values, psychological issues, such as the perception of risk, the factors that generate risks in current and future technological and social systems, including both technical and organizational factors. No other volume adopts this broad perspective. Future Risks and Risk Management will be useful in a variety of

contexts, both for teaching and as a source book for the risk professional needing to be informed of the broader issues in the field. *Marine Week* Kogan Page Publishers
International Freight Transport presents the key changes and issues in the fast-moving industries of trade and transport. It includes coverage of regional trade groupings, the emergence of new large economies (i.e. BRIC countries), and pivotal regions such as the Middle East and Central America where major projects, such as new and widened canals, are underway or planned. These changes could redraw the trade map with major implications for transport patterns and solutions. Blending

geography, economics, politics and trade, International Freight Transport provides insight into a wide range of topics, including: globalisation; demand versus supply; buyers and sellers; transport regulation, geography, modes and methods; transport ownership; alliances; and safety and security. The book is the only comprehensive and accessible book on international transport available. *British Motorship* Springer Science & Business Media
