This book can help your child by providing a whole year of ready to go activities and support on key English

topics which will be being taught in school from 2014. Did you know that your child in Year 2 will now need to; be able to distinguish between homophones and near-homophones (such as 'their', 'there' and 'they're'); write different types of sentences, such as statements, exclamations and commands; learn how to use an apostrophe for possession, for example John's. \* Workbooks for home learning \* Linked directly to what your children will be learning in school \* A linked website provides additional activities, answers and support for parents \* Developed by teachers to ensure the best possible support for the new 2014 National Curriculum.

**National Curriculum English Practice Book for Year 2** 100 Practice Activities  
This timely new book outlines a whole-

school approach to embedding a sustainable model of teaching and learning that puts the learner at the heart of the system. It provides an entire framework for ensuring all students achieve above their expectations; incorporating school vision, teacher professional development, assessment models, school culture, leadership and management, and core classroom practices. It takes what the current research suggests does - and does not - work and builds it into a practical approach that has been tried, tested and proven to work. Each section incorporates the research, a model of how this can be embedded across a school and then a training section that allows senior leaders in schools to teach the skill-set to others to ensure it can be

embedded and reviewed. Covering all aspect of teaching and learning including curriculum design, teacher practices, assessment and leadership, the book features: a clear planning framework that is easy to implement; subject based case studies to exemplify good practice; diagrams to clarify and consolidate information; training activities throughout each chapter, also available to download at [www.routledge.com/9780415831178](http://www.routledge.com/9780415831178).

Designed to be used as a training tool for both new and established teachers, this book is essential reading for senior leaders that want to equip their teachers with the skills and knowledge to create a school of outstanding classrooms.

Understanding Primary Education will help trainees and newly qualified teachers reflect on the professional decisions they need to make within their planning and classroom practice. The authors analyse key issues and policies within contemporary education through reference to research and pedagogical practice. They encourage readers to reflect on policy and practice and support them in articulating their own beliefs and values. A broad perspective of the curriculum is outlined with a focus on what curriculum breadth and balance looks like in practice. Readers are encouraged to consider questions such as: What are the purposes of education? What values are important in a pluralist society and what values might we share?

In what ways can children be encouraged to be active participants within their communities?
