Classical Guitar Technique: Essential Exercises, Scales, and Arpeggios (2019 Edition). Notation Only with Fingering, String Numbers, and Positions. 122 Pages. Includes: Practice Routines, Tips, YouTube Lessons, 100 Open String Exercises, 120 Giuliani Arpeggios, Selected Scales (Major, Minor, 3rds, 6ths, Octaves, 10ths), Slur Exercises, Shifts, Finger Independence,

Alignment, Stretch, Barre, Tremolo, Common Harmonics, Speed and Relaxation, and more. This book focuses on essential exercises for the development of classical guitar technique. All the exercises from the headings of the table of contents progress from easy to advanced in a progressive format. Although this is a book of exercises rather than a method, I have included many helpful tips throughout the book to aid students. As with all my materials, the video lessons are an added educational advantage. Intended for beginner to early-advanced classical guitar students (approximately RCM Toronto Grade 1-9). As a basic prerequisite students would have completed both Volume One and Two of my beginner method book series or an equivalent. There are a number of exercises in upper positions that include accidentals, therefore, additional reading experience is required if you wish to study the entire book. The inclusion of fingering, string numbers, and position marks should make the exercises easy to understand. The 100 open string exercises should be very accessible to beginners and advanced students alike.

Together with *The Baroque Book* (97479), this book was compiled as part of an educational series implementing an innovative teaching concept developed by the UK branch of the European Guitar Teachers Association. This volume contains intermediate level classic guitar solos from the early 19th Century,

including works by Aguado, Carcassi, Carulli, Coste, Diabelli, Giuliani, Molino, and Sor. The progressively arranged pieces are divided into three categories: 1) pieces that do not contain left-hand slurs or barres and do not go higher than the fifth position, 2) pieces that include half barres, single grace notes, and other examples of the left-hand slur, and 3) pieces that include full barres along with multiple grace notes. Higher positions are required with greater frequency in the latter two sections. Overall, this anthology provides great sight reading practice at an intermediate level, along with ample historical and biographical notes.

*Beethoven of the Guitar: Book I: Youth, Celebrity, and War* Alfred Music

The guitar studies of Fernando Sor (1778-1839) have long been valued highly among the indispensable elements of a guitarist's training. A number of prominent

virtuosi attribute a large portion of their development to the diligent study of these works. Sor's studies address an impressive array of technical and musical topics, including proper left-hand fingering, training of the right hand, interval and chord formations, scales, arpeggios, repeated notes, ligados, barring, natural harmonics, control of note duration, balance of melody versus accompaniment, and the handling of contrapuntal voices. A careful study of these pieces will lay the groundwork for a solid technique and allow the guitarist to build the control necessary for the expression of his or her musical concepts. In preparing this edition David Grimes worked with Sor's original publications, but incorporated some alterations that appear in those studies that Napoleon Coste chose to include in his *Method complete pour la Guitarre par Ferdinand Sor*. Furthermore, Mr. Grimes has corrected misprints, modernized the notation and rectified some inconsistencies. Finally, some developments in technique since Sor's day have been incorporated in this edition.

Intermediate-level guitarists will enjoy playing through this varied collection of pieces, all in one volume. A wide gamut of composers from the Renaissance to the nineteenth century is included, along with a few anonymous contributions.

Continuing with the techniques and carefully thought-out fingerings and notation employed in Dr. Afshar's previous publication (Beginning Pieces for Classical Guitar), selections like "Carcassi Study

#3" and "Sor Studies Nos. 5 and 6" require the execution of rest stroke technique on their melodies in order to distinguish them clearly from the concurrent free-stroke accompaniment. In the same spirit, "Study No. 5" by Fernando Sor has been written out in a way that clearly shows the melody as it appears on beats one and three. The nine-movement suites by Gaspar Sanz and Robert de Visée introduce the student guitarist to Baroque dances and ornamentation.
