ALBERT CLARKE

Decade of Betrayal Macmillan

Who cut off Medusa's head? Who was raised by a she-bear? Who tamed Pegasus? It takes a demigod to know, and Percy Jackson can fill you in on the all the daring deeds of Perseus, Atalanta, Bellerophon, and the rest of the major Greek heroes. Told in the funny, irreverent style readers have come to expect from Percy, (I've had some bad experiences in my time, but the heroes I'm going to tell you about were the original old school hard luck cases. They boldly screwed up where no one had screwed up before. . .) and enhanced with vibrant artwork by Caldecott Honoree John Rocco, this story collection will become the new must-have classic for Rick Riordan's legions of devoted fans--and for anyone who needs a hero. So get your flaming spear. Put on your lion skin cape. Polish your shield and make sure you've got arrows in your quiver. We're going back about four thousand years to decapitate monsters, save some kingdoms, shoot a few gods in the butt, raid the Underworld, and steal loot from evil people. Then, for dessert, we'll die painful tragic deaths. Ready? Sweet. Let's do this.

Horrible Histories Annual 2015

A Novel Scholastic Limited

Readers can discover all the foul facts about England, including which monk tried to pinch the devil's nose with a pair of tongs, why some people in the Middle Ages ate dove droppings and which English king was accused of being a werewolf. With a bold look these bestselling titles are sure to be a huge hit with yet another generation of Terry Deary fans.

Digital Games as History Simon and Schuster

Who invented beds? When did we start cleaning our teeth? How old are wine and beer? Which came first: the toilet seat or toilet paper? What was the first clock? Every day, from the moment our alarm clock wakes us in the morning until our head hits our pillow at night, we all take part in rituals that are millennia old.

Structured around one ordinary day, *A Million Years in a Day* reveals the astonishing origins and development of the daily practices we take for granted. In this gloriously entertaining romp through human history, Greg Jenner explores the gradual—and often unexpected—evolution of our daily routines. This is not a story of wars, politics, or great events. Instead, Jenner has scoured Roman rubbish bins, Egyptian tombs, and Victorian sewers to bring us the most intriguing, surprising, and sometimes downright silly historical nuggets from our past. Drawn from across the world, spanning a million years of humanity, this book is a smorgasbord of historical delights. It is a history of all those things you always wondered about—and many you have never considered. It is the story of your life, one million years in the making.

The Living Word 2015-2016 Scholastic Inc.

Learn all about the Gorgeous Georgians, like their sneaky schemes for hiding personal hygiene problems and the schoolchildren who went to war with their teachers! With a bold, accessible new look and revised by the author, these bestselling titles are sure to be a huge hit with yet another generation of Terry Deary fans.

A Million Years in a Day Scholastic UK

Designing the New American University will ignite a national discussion about the future evolution of the American research university.

Wolf by Wolf W. W. Norton & Company

This text is a practical guide that provides readers with effective approaches to communication theories and strategies and offers a wealth of tools for enhancing communication both in Canada and abroad. Informed by the authors' intersection of cultural identities and lived experiences, *Intercultural Communication* demonstrates how communicative practices are established and influenced within societal realms. Readers' understanding of culture is widened beyond discussions of race and ethnicity by critically examining factors like age, familial roles, sex, gender, socioeconomic status, and disability. Guided through real and complex scenarios, this text explores how different social and cultural practices present implications for communication, demonstrating how to manage conversations in appropriate and meaningful ways. Key topics include verbal and non-verbal communication, cultural values, self-awareness, and digital communications. Case studies, practical activities, and thought-provoking questions accompany each chapter, helping students to explore their own attitudes and actions through self-reflection. This invaluable and comprehensive guide is ideal for students enrolled in intercultural communication and cross-cultural communication courses, including studies in business, education, social work, health care, and law enforcement.

Gateway to Freedom: The Hidden History of the Underground Railroad Kube Publishing Ltd

A historic literary event: the publication of a newly discovered novel, the earliest known work from Harper Lee, the beloved, bestselling author of the Pulitzer Prize-winning classic, *To Kill a Mockingbird*. Originally written in the mid-1950s, *Go Set a Watchman* was the novel Harper Lee first submitted to her publishers before *To Kill a Mockingbird*. Assumed to have been

lost, the manuscript was discovered in late 2014. *Go Set a Watchman* features many of the characters from *To Kill a Mockingbird* some twenty years later. Returning home to Maycomb to visit her father, Jean Louise Finch—Scout—struggles with issues both personal and political, involving Atticus, society, and the small Alabama town that shaped her. Exploring how the characters from *To Kill a Mockingbird* are adjusting to the turbulent events transforming mid-1950s America, *Go Set a Watchman* casts a fascinating new light on Harper Lee's enduring classic. Moving, funny and compelling, it stands as a magnificent novel in its own right.

[How Videogames Represent the Past and Offer Access to Historical Practice](#) e-artnow sro

This book provides the first in-depth exploration of video games as history. Chapman puts forth five basic categories of analysis for understanding historical video games: simulation and epistemology, time, space, narrative, and affordance. Through these methods of analysis he explores what these games uniquely offer as a new form of history and how they produce representations of the past. By taking an inter-disciplinary and accessible approach the book provides a specific and firm first foundation upon which to build further examination of the potential of video games as a historical form.

In *Barmy British Empire*, readers get all the brutal facts about how Britannia really ruled the waves - from infamous antics in India to dreadful deeds down under. *Blitzed Brits* reveals what life was like for those who stayed at home in World War Two, from foul food facts about rotten rationing to awful evacuation experiences. With curious quizzes, rotten recipes, gruesome games and terrible tests... History has never been so horrible
Horrible Histories Annual 2015 Routledge

During the Great Depression, a sense of total despair plagued the United States. Americans sought a convenient scapegoat and found it in the Mexican community. Laws forbidding employment of Mexicans were accompanied by the hue and cry to "get rid of the Mexicans!" The hysteria led pandemic repatriation drives and one million Mexicans and their children were illegally shipped to Mexico. Despite their horrific treatment and traumatic experiences, the American born children never gave up hope of returning to the United States. Upon attaining legal age, they badgered their parents to let them return home. Repatriation survivors who came back worked diligently to get their lives back together. Due to their sense of shame, few of them ever told their children about their tragic ordeal. *Decade of Betrayal* recounts the injustice and suffering endured by the Mexican community during the 1930s. It focuses on the experiences of individuals forced to undergo the tragic ordeal of betrayal, deprivation, and adjustment. This revised edition also addresses the inclusion of the event in the educational curriculum, the issuance of a formal apology, and the question of fiscal remuneration. "Francisco Balderrama and Raymond Rodríguez, the authors of *Decade of Betrayal*, the first expansive study of Mexican repatriation with perspectives from both sides of the border, claim that 1 million people of Mexican descent were driven from the United States

during the 1930s due to raids, scare tactics, deportation, repatriation and public pressure. Of that conservative estimate, approximately 60 percent of those leaving were legal American citizens. Mexicans comprised nearly half of all those deported during the decade, although they made up less than 1 percent of the country's population. 'Americans, reeling from the economic disorientation of the depression, sought a convenient scapegoat' Balderrama and Rodríguez wrote. 'They found it in the Mexican community.'"--American History

[Horrible Histories: Barmy British Empire](#) Little, Brown Spark

"A deeply curious and evenhanded report on our national appetites." --The New York Times In the tradition of *Fast Food Nation* and *The Omnivore's Dilemma*, an extraordinary investigation into the human lives at the heart of the American grocery store The miracle of the supermarket has never been more apparent. Like the doctors and nurses who care for the sick, suddenly the men and women who stock our shelves and operate our warehouses are understood as 'essential' workers, providing a quality of life we all too easily take for granted. But the sad truth is that the grocery industry has been failing these workers for decades. In this page-turning expose, author Benjamin Lorr pulls back the curtain on the highly secretive grocery industry. Combining deep sourcing, immersive reporting, and sharp, often laugh-out-loud prose, Lorr leads a wild investigation, asking what does it take to run a supermarket? How does our food get on the shelves? And who suffers for our increasing demands for convenience and efficiency? In this journey: • We learn the secrets of Trader Joe's success from Trader Joe himself • Drive with truckers caught in a job they call "sharecropping on wheels" • Break into industrial farms with activists to learn what it takes for a product to earn certification labels like "fair trade" and "free range" • Follow entrepreneurs as they fight for shelf space, learning essential tips, tricks, and traps for any new food business • Journey with migrants to examine shocking forced labor practices through their eyes The product of five years of research and hundreds of interviews across every level of the business, *The Secret Life of Groceries* is essential reading for those who want to understand our food system--delivering powerful social commentary on the inherently American quest for more and compassionate insight into the lives that provide it.
Focus On: 100 Most Popular 2010s Comedy-drama Films UNM Press

The dramatic story of fugitive slaves and the antislavery activists who defied the law to help them reach freedom. More than any other scholar, Eric Foner has influenced our understanding of America's history. Now, making brilliant use of extraordinary evidence, the Pulitzer Prize-winning historian once again reconfigures the national saga of American slavery and freedom. A deeply entrenched institution, slavery lived on legally and commercially even in the northern states that had abolished it after the American Revolution. Slaves could be found in the streets of New York well after abolition, traveling with owners doing business with the city's major banks, merchants, and manufacturers. New York was also home to the North's largest free black community, making it a magnet for fugitive slaves seeking refuge. Slave catchers and gangs of kidnappers roamed the city, seizing free blacks, often children, and sending them south to slavery. To protect fugitives and fight kidnappings, the city's free blacks worked with white abolitionists to organize the New York Vigilance Committee in 1835. In the 1840s vigilance committees proliferated throughout the North and began collaborating to dispatch fugitive slaves from the upper South, Washington, and Baltimore, through Philadelphia and New York, to Albany, Syracuse, and Canada. These networks of antislavery resistance, centered on New York City, became known as the

underground railroad. Forced to operate in secrecy by hostile laws, courts, and politicians, the city's underground-railroad agents helped more than 3,000 fugitive slaves reach freedom between 1830 and 1860. Until now, their stories have remained largely unknown, their significance little understood. Building on fresh evidence—including a detailed record of slave escapes secretly kept by Sydney Howard Gay, one of the key organizers in New York—Foner elevates the underground railroad from folklore to sweeping history. The story is inspiring—full of memorable characters making their first appearance on the historical stage—and significant—the controversy over fugitive slaves inflamed the sectional crisis of the 1850s. It eventually took a civil war to destroy American slavery, but here at last is the story of the courageous effort to fight slavery by "practical abolition," person by person, family by family.

Hearings Before a Subcommittee of the Committee on Appropriations, House of Representatives, One Hundred Thirteenth Congress, Second Session HarperCollins

Terry Deary reveals the terrible truth behind the lousy pirate legends and lies . . . so forget the brave heroes swinging from masts and the handsome young men sailing the seven seas, for this is history at its most horrible! Readers can decide who was

the baddest of the bunch in the top ten putrid pirates, discover why the women pirates were just as wicked as the men and learn to talk the patter of a pirate. Plus there are foul facts on the ships they sailed, the punishments they suffered and the rules they lived by. Now the nasty bits are at your fingertips!
