An Annotated

Bibliography from the

National Center on Child

Abuse and Neglect

In the early 1970s, the

problem of abuse within

the family unit began to

surface on a large scale

and 1975 was a

particularly significant

year for the recognition of

interfamilial violence. This

recognition provided the

impetus for more concern

and investigation of the

issue and significant

literature on family violence began to emerge during this period. First published in 1984, this bibliography contains information published in English on domestic violence and abuse from 1960-1982. It is arranged alphabetically by author, or by the first significant word in the title if no author is given. A concise subject index and an author index follow the bibliography itself. This book will be a valuable resource to those studying social work, health care, mental health, sociology, women's studies and law.

Studies conducted by

Social and Medical

scientists in and around

their areas of work have

given sufficient indication

of the widespread

prevalence of child abuse

in varied forms, all over.

These indicators have

caused serious concern.

Prevention of cruelty to

children has consequently

come to be recognised as

a global priority. As

elsewhere child abuse is

emerging as a pressing

social problem in India

today. However, a lack of

sensitivity to the need,

therefore, for us is not

only to generate hard

empirical data that will

throw light on the nature

and magnitude of the

problem but also to

sensitize all concerned to

the glaring and

outrageous forms of child

abuse prevailing in the

country. The book surveys

the existing literature on

the subject to provide the

necessary insight to

researchers and enables

them to identify areas and gaps that need to be researched on a priority basis.
