Written as a sequel to The Agricultural Tractor 1855-1950 by R. B. Gray and Farm Tractors 1950-1975 by Lester Larson, each chapter lists most of the new tractors

introduced for that year, a summary of the specifications for the models, and information about the companies manufacturing the tractors.

Texas, 1836. The Republic of Texas began the fight for independence in 1833. For several years, Texans fought the Mexican government for the right

to rule itself. One of the historical battles was fought on March 6, 1836, at the Alamo, a crumbling fort defended by 154 men. Stand with the defenders in what became a symbol of Texan courage and sacrifice in this impressive graphic novel. Maps, timelines, glossaries, and indexes make these titles an exciting addition to classroom discussion.

 In 2014 NCM initiated a new project: "Test centers for green energy solutions – Biorefineries and Business needs" to strengthen Nordic bioeconomy by identifying potentials, obstacles, needs and opportunities. The Nordic bioeconomy has a unique profile: Upgrade of many types of

residues also to higher value products; good collaboration between private and public sector; R&D efforts in all Nordic countries. However, shortcomings were also identified: few activities across Nordic countries beyond designated Nordic programs; too few upscaling facilities; need for improved framework conditions (within regulatory and market stimulus) for biobased products. This report is part of the Nordic Prime Ministers' green growth initiative: "The Nordic

Region - leading in green growth" - read more in the web magazine "Green Growth the Nordic Way" at www.nordicway.org or at www.norden.org/greengrowth with Automotive Engineering FIELD & STREAM, America's largest outdoor sports magazine, celebrates the outdoor experience with great stories, compelling photography, and sound advice while honoring the traditions hunters and fishermen have passed down for generations.
