*Introduction to
International
and Global
Studies,
Second
Edition*

Penguin

This book introduces law in the context of international business. The basics of law are explored using a clear comparative methodology. International and regional economic institutions are discussed, next to the fundamentals of private law.

These include contract law, liability law, labour law, company law, privacy law, intellectual property law and international private law.

The book goes beyond the usual focus on Western legal systems and uses examples from all over the world to provide students with comprehensive knowledge of business law. It is set up rather broadly, so that it can be used by teachers throughout

their entire curriculum. Each chapter ends with a clear summary, and practice questions. Due to its colourful cases, this book is accessible and fun to read.

Introduction to Global Studies

Cambridge
University
Press

Introduction to International Migration introduces students to state-of-the-art knowledge on international migration, a contemporary issue of

central importance to virtually all countries around the globe. Original chapters by prominent women migration scholars cover a complex and multifaceted issue area including various types of migration, the mechanisms of migration governance, the impact of migration on both host and home societies, the migrants themselves in a transnational space, and the nexus

between migration and other aspects of globalization. Key topics include labor, gender, citizenship, public opinion, development, security, climate, and ethics. Refugee flows are tracked from beginning to end. Photos, figures, text boxes with real-world examples, discussion questions, and recommended readings provide pedagogical structure for each chapter. Intended as a

core text for courses on migration and immigration and a supplement to more general courses in global studies, this book is appropriate for both undergraduate and graduate students in the variety of disciplines that deal with the challenges of international migration. Special Features Consistently structured original chapters by notable scholars include an

Introduction, Empirical Overview, Theoretical Evolution, Continuing Issues, and Summary for every chapter. Chapter pedagogy includes Discussion Questions, Suggested Readings, and References as well as a Data Appendix for the book. Photos with thematic captions and Text Boxes on hot topics round out the visual and substantive appeal of the text.

An Introduction to International Economics UNC Press Books

Introduction to International and Global Studies, Third Edition

International Law and Business Routledge

Taking an interdisciplinary approach, An Introduction to Global Studies presents readers with a solid introduction to the complex, interconnected forces and issues confronting today's globalized world.

Introduces readers to major theories, key terms, concepts, and notable theorists

Equips readers with the basic knowledge and conceptual tools necessary for thinking critically about the complex issues facing the global community

Includes a variety of supplemental features to facilitate learning and enhance readers' understanding of the material

Introduction to Global Business: Understanding the International Environment & Global Business Functions

Island Press
This innovative introduction to international and global studies, updated and revised in a new edition, offers instructors in the social sciences and humanities a core textbook for teaching undergraduates in this rapidly growing field. Encompassing

the latest scholarship in what is a markedly interdisciplinary endeavor, Shawn Smallman and Kimberley Brown introduce key concepts, themes, and issues and then examine each in lively chapters on essential topics that include the history of globalization; economic, political, and cultural globalization; security, energy, and development; health; agriculture and food; and

the environment. Within these topics, the authors explore such timely and pressing subjects as commodity chains, labor (including present-day slavery), human rights, multinational corporations, and the connections among them. New to this edition: * The latest research on debates over privacy rights and surveillance since Edward Snowden's disclosures * Updates on

significant political and economic developments throughout the world, including a new case study of European Union, Icelandic, and Greek responses to the 2008 fiscal crisis * The newest information about the rise of fracking, the Fukushima nuclear disaster, the decline of the Peak Oil movement, and climate change, including the latter's effects on the Arctic and Antarctica

* A dedicated website with authors' blog and a teaching tab with syllabi, class activities, and well-designed, classroom-tested resources * An updated teacher's manual available online, including sample examination questions, additional resources for each chapter, and special assistance for teaching ESL students * Updated career advice for international

studies majors
Issues and Actors in the Global Arena
 Oxford University Press
 Shawn C. Smallman and Kimberley Brown's popular introductory textbook for undergraduates in international and global studies is now released in a substantially revised and updated third edition. Encompassing the latest scholarship in what has become a markedly interdisciplinary endeavor

and an increasingly chosen undergraduate major, the book introduces key concepts, themes, and issues and then examines each in lively chapters on essential topics, including the history of globalization; economic, political, and cultural globalization; security, energy, and development; health; agriculture and food; and the environment. Within these topics the

authors explore such diverse and pressing subjects as commodity chains, labor (including present-day slavery), pandemics, human rights, and multinational corporations and the connections among them. This textbook, used successfully in both traditional and online courses, provides the newest and most crucial information needed for understanding our rapidly

changing world. New to this edition:
*Close to 50% new material
*New illustrations, maps, and tables
*New and expanded emphases on political and economic globalization and populism; health; climate change, and development
*Extensively revised exercises and activities
*New resume-writing exercise in careers chapter
*Thoroughly revised online teacher's manual

An Introduction to International Relations

Routledge
Ideal for a one-semester course in international economics, this book is accessible to those within and outside of economics programs.

An Introduction to International Political Theory Oxford University Press

This book provides an overview of the current state of the art in International Political

Theory (IPT). It offers a coherent account of the field of IPT, placing both traditional and modern work in a clear and logical framework. The text moves from conventional accounts of the society of states to non-state-centric understandings of global politics. The first part covers international law, war, human rights and humanitarianism. The second part looks at the new human

rights regime, the responsibility to protect, the ethics of war and global justice. Each chapter includes annotated reading lists, highlighting directions you can take to further your reading. International Society, Global Polity is perfect for students taking courses on International Political Theory, International Theory, Global Ethics and Global Justice. **The Globalization**

Since the
1950s,
globalization
has been an
increasingly
irresistible
trend and one
that has
exerted a
tremendous
impact on the
political,
economic,
military,
environmental
, and social
fortunes of
mankind - and
yet, existing
theories in
humanities
and social
sciences have
been
fundamentally
built upon the
traditional
"nation-state"

model. These
two volumes,
a pioneering
work on global
studies to be
published out
of China, aims
at creating a
new
theoretical
framework
against the
backdrop of
globalization.
Volume 1
introduces the
core concepts
and discusses
the critical
issues of
globalization
while the
editors
redefine
notions of
politics,
economics,
law, and
globality while
deploying
globalization
as a

theoretical
framework.
Volume 2
examines the
multi-level
and multi-
dimensional
nature of
globalization,
analysing
processes and
systems of
global society
in the light of
globalization,
and exploring
the
construction
of a stable
and rational
global order.
These two
volumes of
global studies
are an
essential
reference for
scholars and
students in
politics,
economics,
international

relations and law. <i>An Introduction to International Social Work</i> Wiley-Blackwell Extensively revised and updated, the new Fourth Edition of <i>Global Issues: An Introduction</i> offers a unique approach to the most important environmental , economic, social, and political concerns of modern life. Revised and updated to reflect the latest global developments	Examines the most important environmental , economic, social, and political concerns of modern life The only book of its kind to use the concept of development to illustrate how different global issues are interrelated Includes a new section on nuclear energy Chapter boxes examine ways that individuals can have a positive impact on the issues examined	within the text Key features include a glossary of terms; guides to further reading, media, and Internet resources; and suggestions for discussing and studying the material An Introduction Routledge "This innovative introduction to international and global studies, updated and revised in a new edition, offers instructors in the social sciences and humanities a core textbook

Now in its fifth edition, this

title has been fully revised and updated in the light of recent developments in world politics, with new chapters on the changing nature of war, human security, and international ethics. An Introduction to International Relations John Wiley & Sons
Conclusion: 13.
Gender Matters in Global Politics
Oxford University Press, USA
Invaluable to students and those

approaching the subject for the first time, An Introduction to International Relations, Second Edition provides a comprehensive and stimulating introduction to international relations, its traditions and its changing nature in an era of globalisation. Thoroughly revised and updated, it features chapters written by a range of experts from around the world. It presents a

global perspective on the theories, history, developments and debates that shape this dynamic discipline and contemporary world politics. Now in full-colour and accompanied by a password-protected companion website featuring additional chapters and case studies, this is the indispensable guide to the study of international relations. An Introduction to International

Economics and Business Routledge This innovative introduction to international and global studies offers instructors in both the humanities and the social sciences an up-to-date and comprehensive approach to teaching undergraduates in this rapidly growing interdisciplinary field. Shawn Smallman and Kimberley Brown first present students with the key concepts

necessary to understand the intellectual and structural underpinnings of globalization. Thoughtfully building the presentation of core themes-- including the history of globalization; economic, political, and cultural globalization; security; energy; and development-- the authors examine such timely topics as commodity chains, labor, human rights, and multinational corporations,

and provide keen insights into more familiar themes, such as food, health and disease, and the environment. Smallman and Brown focus on teaching students about global citizenship while emphasizing the development of skills for critical thinking and understanding differing viewpoints. Explaining the historical roots of current challenges and discussing engaging real-

life cases, they encourage students to understand their local context from a global perspective and to develop their abilities to negotiate a rapidly changing world. A chapter on what students can do with a degree in international and global studies includes a planning guide for postgraduate career and academic choices. The textbook includes maps

and illustrations, and, at the end of each chapter, a glossary, questions for reflection, and student activities. An online teacher's manual is available for those adopting the textbook. It includes sample examination questions, additional resources for each chapter, and recommendations for adaptations for students with particular learning needs including

those students whose first language is not English. **The Globalization of World Politics** John Wiley & Sons Taking an interdisciplinary approach, *An Introduction to Global Studies* presents readers with a solid introduction to the complex, interconnected forces and issues confronting today's globalized world. Introduces readers to major theories, key terms,

concepts, and notable theorists Equips readers with the basic knowledge and conceptual tools necessary for thinking critically about the complex issues facing the global community Includes a variety of supplemental features to facilitate learning and enhance readers' understanding of the material [Introduction to International Disaster Management](#) Routledge

Gender Matters in Global Politics is a comprehensive textbook for advanced undergraduates studying feminism & international relations, gender and global politics and similar courses. It provides students with an accessible but in-depth account of the most significant theories, methodologies, debates and issues. This textbook is written by an international line-up of established and emerging scholars from a range of theoretical perspectives, providing students with provocative and cutting-edge insights into the study and practices of (how) gender matters in global politics. Key features and benefits of the book: Introduces students to the wide variety of feminist and gender theory and explains the relevance to contemporary global politics. Explains the insights of feminist theory for a range of other disciplines including international relations, international political economy and security studies. Addresses a large number of key contemporary issues such as human rights, trafficking, rape as a tool of war, peacekeeping and state-building, terrorism and environmental politics. Features extensive pedagogy to facilitate learning –

<p>seminar exercises, text boxes, photographs, suggestions for further reading, web resources and a glossary of key terms. In this innovative and groundbreakin g textbook gender is represented as a noun, a verb and a logic, allowing both students and lecturers to develop a sophisticated understanding of the crucial role that gender plays in the theories, policies and practices of global politics.</p>	<p><i>Introduction to Global Politics</i> Routledge This book is designed to familiarise students with leading International Relations (IR) theories and their explanation of political events, phenomena, and processes which cross the territorial boundaries of the state. Thus, students will be exposed to the interplay between power, interest, ideas, identity, and resistance, in explaining</p>	<p>continuity and change in international relations. Developed to provide students with the analytical tools and intellectual frameworks needed to understand the behaviour of different international actors in contemporary global affairs. This textbook responds to the challenges of a dynamic job market by assisting students to gain both thorough theoretical knowledge and training them to apply</p>
---	---	---

this knowledge to real world problems. In short, this textbook delivers: A comprehensive and interdisciplinary approach to the examination of national, regional and global trends in politics, economics and socio-cultural developments allowing students to understand: the practice and theory of contemporary international relations the politics, culture, history, and

economies of different regions around the world the role played by international interactions, culture, and government in local, national, and global settings. Equipping students with the proficiency: to understand and interpret the dynamics, patterns, and issues of global affairs to know how to get more information about particular questions to evaluate that information independently

and effectively. To these ends, the textbook provides a number of features that will appeal to students and avoids overwhelming students with chapters on topics which (in practice) are rarely on courses, while nonetheless providing a comprehensive overview of the field. Introduces students to the main debates, topics, and terms in the field and allows them to decide which they would

like to focus on in their further studies. An *Introduction to Global Studies* □□□□□□□□□□ Vast areas of valuable resources unfettered by legal rights have, for centuries, been the central target of human exploitation and appropriation. The global commons -- Antarctica, the high seas and deep seabed minerals, the atmosphere, and space -- have remained exceptions

only because access has been difficult or impossible, and the technology for successful extraction has been lacking. Now, technology has caught up with desire, and management regimes are needed to guide human use of these important resource domains. In *The Global Commons*, Susan Buck considers the history of human interactions with each of the global commons

areas and provides a concise yet thorough account of the evolution of management regimes for each area. She explains historical underpinnings of international law, examines the stakeholders involved, and discusses current policy and problems associated with it. Buck applies key analytical concepts drawn from institutional analysis and regime theory to examine how legal and

political concerns have affected the evolution of management regimes for the global commons. She presents in-depth case studies of each of the four regimes, outlining the historical evolution of the commons -- development of interest in exploiting the resource domain; conflicts among nations over the use of the commons; and efforts to design institutions to control access

to the domains and to regulate their use -- and concluding with a description of the management regime that eventually emerged from the informal and formal negotiations. The Global Commons provides a clear, useful introduction to the subject that will be of interest to general readers as well as to students in international relations and international environmental

law, and in environmental law and policy generally. The Global Politics of Power, Justice and Death Rowman & Littlefield Disaster management is a vibrant and growing field, driven by government spending in the wake of terrorist attacks and environmental debacles, as well as private-sector hiring of risk managers and emergency planners. An ever-increasing number of

practicing professionals needs a reference that can provide a solid foundation in ALL major phases of supervision - mitigation, preparedness, response, communications, and recovery. As climate change leads to further costly catastrophes and as countries around the world continue to struggle with terrorism, the demand for solutions will only grow. This revised edition of

Coppola's revered resource meets said demand head-on with more focused, current, thoughtfully analyzed, and effective approaches to disaster relief. Expanded coverage of global approaches to disaster management with enhanced data and research on disasters around the world, including Cyclone Nargis, the H1N1 pandemic, and the tsunami in

American Samoa More material on risk management, mitigation, myths that affect behavior during crises, and post-disaster evaluation of the response Up-to-date information on the role of aid organizations and international financial institutions like the World Bank in disaster response, as well as commentary on the latest research in disaster management

and policy studies
