The Gateway to Languages : the Introduction of Language Awareness Into the Curriculum : Awakening to Languages Berrett-Koehler Publishers

Group Work Stories Celebrating Diversity is a most timely book about group work practice and education that highlights the theme of diversity, which encompasses acceptance and respect for various dimensions of difference. Dimensions of diversity include race, ethnicity, gender, sexual orientation, socio-economic status, age, physical or intellectual abilities, linguistic difference, religious beliefs, international or regional origin, lifestyle, political beliefs, or other ideologies, as well as the varying and complex intersection of these various dimensions. The thirty-one meaningful stories in this book explore these differences, leading to understanding and to moving beyond simple tolerance to mutual empathy, genuine and open encounter, and the celebration of the rich dimensions of diversity. Readers will enjoy this wonderfully intimate and intriguing collection, and will be moved to share them with others to help to spread the word about the importance of embracing, understanding and celebrating diversity. This book, with an international cast of authors - practitioners, educators and students - is a welcome antidote to the divisiveness and suspicion that swirl around difference and have become a sad hallmark of current times. This book was originally published as a special issue of the Social Work with Groups journal.

The rapid growth of the homeless population and its diversity suggest the importance of identifying the characteristics of the various subpopulations of homeless—women with children, adolescents, young adults—in order to develop programs that address their special needs. Diversity Within the Homeless Population examines the characteristics and needs of homeless children, adolescents, and women; describes programs developed to meet the needs of crack-addicted homeless mothers and of homeless families; and describes an innovative program designed to make housing options available to the homeless through employment.

Diversity these days is a hallowed American value, widely shared and honored. That's a remarkable change from the Civil Rights era—but does this public commitment to diversity constitute a civil rights victory? What does diversity mean in contemporary America, and what are the effects of efforts to support it? Ellen Berrey digs deep into those questions in *The Enigma of Diversity*. Drawing on six years of fieldwork and historical sources dating back to the 1950s and making extensive use of three case studies from widely varying arenas—housing redevelopment in Chicago's Rogers Park

neighborhood, affirmative action in the University of Michigan's admissions program, and the workings of the human resources department at a Fortune 500 company—Berrey explores the complicated, contradictory, and even troubling meanings and uses of diversity as it is invoked by different groups for different, often symbolic ends. In each case, diversity affirms inclusiveness, especially in the most coveted jobs and colleges, yet it resists fundamental change in the practices and cultures that are the foundation of social inequality. Berrey shows how this has led racial progress itself to be reimagined, transformed from a legal fight for fundamental rights to a celebration of the competitive advantages afforded by cultural differences. Powerfully argued and surprising in its conclusions, *The Enigma of Diversity* reveals the true cost of the public embrace of diversity: the taming of demands for racial justice.

How can we support children to reach their full potential and not be constrained by gender expectations? Are gender roles fixed at birth or do they develop through experiences? *Gender Diversity and Inclusion in Early Years Education* introduces practitioners to key aspects of gender in the early years and explores how to ensure that children and staff teams are supported in settings that have outstanding practice. Considering the implications of gender in the context of supporting children, families and practitioners, this book examines the theoretical contexts that surround gender identity and explores current legislation and practice in order to provide practitioners with all the information they need to develop their own work and settings in an open and equal way. Offering a wealth of practical guidance, case studies and reflective questions which link to the EYFS, chapters cover: a theoretical approach to gender development; current legislation and the impact on early years practice; understanding gender fluidity and the way in which children express gender; creating gender equality when working with children and the role of manager in creating a supportive ethos. Including tasks, reflective points and links to useful websites and organisations, this book will be valuable reading for all early years practitioners and students that want to promote an inclusive environment for the children in their care, their families and colleagues.

There are approximately 8000 camps in the U.S., & this is the only complete listing of the 2,000 camps which have earned American Camping Association accreditation by meeting over 300 standards that apply to health, safety, program quality & operating practices. The Guide, published annually, features special indexes that allow a parent to find a camp by activity, special need, special group or location. The American Camping Association has been setting standards for camps since 1935 & has been accrediting camps since 1965. It is the recognized voice of camps in the United States. This directory will play a prominent part in an intensive public relations campaign to promote the camping experience beginning in February 1997. The campaign includes a satellite media tour featuring members of RADD (Recording Artists Against Drunk Driving) Kids - a group of

child celebrities who speak out for safe causes. Buyers can order the book directly from American Camping Association, Inc., 5000 State Road 67 North, Martinsville, IN 46151-7902, 800-428-2267, or from Independent Publishers Group, (800) 888-4741. Nonprofit organizations are arguably in a perpetual state of change. Nonprofits must constantly scan, analyze, and adapt to the implications of the changing needs of clients, the community, funders, and government policy. Hence, the core competencies and capabilities of nonprofits must include how to effectively manage change. The knowledge, skills, and abilities of employees, volunteers, and managers must include the competencies required to formulate and implement strategies to manage planned and unplanned change. This book brings to the forefront the challenges and opportunities of change by combining insights from practice, research, and theories of change management to examine nonprofits. It incorporates interdisciplinary perspectives to examine the dimensions, determinants, and outcomes of change in nonprofits. It offers managers, researchers, and students case examples on how to develop, implement, and manage change in the context of nonprofits. Readers will better understand the dimensions of change that are unique to nonprofits and how these should be integrated into strategy and day-to-day operations, including reflection for both the change agent and the change recipient.

The 2012 London Olympic and Paralympic Games is likely to be a 'once in a generation' opportunity for the UK to attract the attention and interest of the entire global community. The report reviews other countries' experience of using major sporting events for public diplomacy purposes. The Games offer an unparalleled opportunity to promote UK business, trade and inward investment. The Committee recommends holding a major trade event close to or during the Games to secure the maximum commercial benefit to the national economy. The FCO should also make more of the claim that the 2012 Games will be "the world's first sustainable Games", publicising around the world the many examples of environmental good practice in the planning and building of the event. And it should continue to use the Games to promote British culture and values at home and abroad, emphasising that London is an open and welcoming city, and that the UK is a diverse, inclusive and friendly country. The Committee is worried that budget cuts may result in the FCO's work related to the Olympics becoming a matter solely of individual initiatives by embassies and High Commissions, without adequate central co-ordination. The Committee recommends that the FCO should form a 'rapid response unit', set up well before the Games, which can rebut or challenge negative stories appearing in the world media.
