The oldest and strongest emotion of mankind is fear, and the oldest and strongest kind of fear is fear of the unknown. These facts few psychologists will dispute, and their admitted truth must establish for all time the genuineness and dignity of the weirdly horrible tale as a literary form... As may naturally be expected of a form so closely connected with primal emotion, the horror-tale is as old as human thought and speech themselves. H. P. Lovecraft Algernon Blackwood. This volume is unique in its focus on cross-fertilisation in the arts, on very specific exploration of liminal spaces, and on the

representation of marginal figures in writing. The essays here grew out of the Borders and Margins colloquium, held at Leeds Trinity University, UK, in April 2010, which was the fourth in a series of colloquia. This collection, moreover, contributes to a growing area of scholarship which explores Anglo-French interactions and exchanges. In choosing the term “liminality”, the editors are aware of its nuanced implications, allowing suggestions both of the initial and the transitional. The contributors here are academics from the fields of literature, history and art history, and their essays cover art history, literature, cultural history, the arts, and faith. Altogether, this collection evokes a sense of temporal shift, in that changes in values and focus are uncovered as the nineteenth century progresses. Some have an ekphrastic quality, showing how pictures can have a narrative, and how pictures, as well as texts, can be encoded with moral and social interpretations. Close scrutiny is applied to different kinds of texts, fiction and non-fiction, and the purposes for which they were produced. This book will appeal to scholars and academics interested in a wide range of cross-categorisational transactions in nineteenth-century Britain. It will be of interest to scholars of Victorian culture, and English nineteenth-century literature and art, particularly in terms of genre, as well as to academics interested in the development of social, personal, and national identities.

The stories that comprise this collection will surprise the reader even after numerous readings. They reflect innermost fears and head for spaces where reality is blurred by imagination, where insanity and madness are shrouded in mystery and where humanity is haunted by repressed passion and obsession.

Arthur Machen has finally been recognized as a key contributor to the glittering age of British Decadence. Best known for the novella *The Great God Pan* and for his formative influence on weird fiction, in fact much of Machen’s writing profoundly challenges literary and cultural convention. From the demonic horror of “*The Recluse of Bayswater*” to the plush occultism of *The Hill of Dreams* and the prose poems of *Ornaments in Jade*, this selection of works from throughout Machen’s career brings to life his unique symbolist aesthetics and spiritual philosophy. This is the first edition of Machen’s work to foreground his Decadent and occult writing. It includes a scholarly introduction, extensive annotations, and revealing contextual materials. Engaging with the gems of Machen’s oeuvre, the collection invites readers to open their minds to a reality beyond the veil, the reality – in Machen’s view – that matters most.

From ancient myth to contemporary art and literature, a beguiling look at the many incarnations of the mischievous—and culturally immortal—god Pan. Pan—he of the cloven hoof and lustful grin, beckoning through the trees. From classical myth to modern literature, film, and music, the god Pan has long fascinated and terrified the western imagination. “Panic” is the name given to the peculiar feeling we experience in his presence. Still, the ways in which Pan has been imagined have varied wildly—fitting for a god whose very name the ancients confused with the Greek word meaning “all.” Part-goat, part-man, Pan bridges the divide between the human and animal worlds. In

exquisite prose, Paul Robichaud explores how Pan has been imagined in mythology, art, literature, music, spirituality, and popular culture through the centuries. At times, Pan is a dangerous, destabilizing force; sometimes, a source of fertility and renewal. His portrayals reveal shifting anxieties about our own animal impulses and our relationship to nature. Always the outsider, he has been the god of choice for gay writers, occult practitioners, and New Age mystics. And although ancient sources announced his death, he has lived on through the work of Arthur Machen, Gustav Mahler, Kenneth Grahame, D. H. Lawrence, and countless others. *Pan: The Great God’s Modern Return* traces his intoxicating dance.

'Loathsomeness waits and dreams in the deep, and decay spreads over the tottering cities of men. A time will come - but I must not and cannot think!' H. P. Lovecraft (1890-1937) was a reclusive scribbler of horror stories for the American pulp magazines that specialized in Gothic and science fiction in the interwar years. He often published in *Weird Tales* and has since become the key figure in the slippery genre of 'weird fiction'. Lovecraft developed an extraordinary vision of feeble men driven to the edge of sanity by glimpses of malign beings that have survived from human prehistory or by malevolent extra-terrestrial visitations. The ornate language of his stories builds towards grotesque moments of revelation, quite unlike any other writer. This new selection brings together nine of his classic tales, focusing on the 'Cthulhu Mythos', a cycle of stories that develops the mythology of the Old Ones, the monstrous creatures who predate human life on earth. It includes the Introduction from Lovecraft's critical essay, 'Supernatural Horror in Literature', in which he gave his own important definition of 'weird fiction'. In a fascinating contextual introduction, Roger Luckhurst gives Lovecraft the attention he deserves as a writer who used pulp fiction to explore a remarkable philosophy that shockingly dethrones the mastery of man.

*The White People* (1904) is a short story by Arthur Machen. Originally published in *Horlick's Magazine*, the story was later printed in *The House of Souls* (1906), a short story collection. Condemned as decadent and obscene upon publication, Machen’s writing earned praise from Oscar Wilde and H. P.

Lovecraft. Throughout the years, Machen's work has been referenced and adapted by such figures as Stephen King, Guillermo del Toro, and Josh Malerman for its masterfully unsettling blend of science, myth, and magic. As the sun sets over the lush countryside, Cotgrave and his friend Ambrose discuss the thin boundary that separates sorcery and the sacred. Unable to agree about the nature of good and evil, on what defines a sinner as opposed to a saint, Ambrose offers his comrade a book to borrow. Surprisingly well-kept for its age, the green book accompanies Cotgrave on his journey home, where he opens it to discover a strange, mysterious tale. Its pages contain the diary of a young girl who, encouraged by her nurse, immerses herself in the world of magic. As she grows adept in the ways of witchcraft, the girl begins referring to strange beings and unknown places, all while doing her best to conceal her secret life

from friends and family. When he reaches the diary's end, Cotgrave will wish he had never looked past its binding. With a beautifully designed cover and professionally typeset manuscript, this edition of Arthur Machen's *The White People* is a classic of British horror fiction reimagined for modern readers.
