Triumph Triples & Fours

Haynes Manuals

Originally published in 1976, this manual was prepared in order to provide complete, authentic maintenance and repair information. The Driver's Instruction Book at the beginning of this manual is similar to the handbook that was provided with every new Triumph TR2 and TR3. The Service Instruction Manual, making up the larger part of this book, is the official factory manual and was originally intended for use by dealer

service departments.

Including accurate and comprehensive service information for 1953-1961 TR2 and TR3 vehicles, this manual is an indispensable resource for both the professional mechanic and the TR2 and TR3 enthusiast. This manual contains complete coverage of all Triumph TR2 and TR3 models sold in the UK and North America during the model years 1953-1961.

Triumph TR5 and 6 Owner's Workshop Manual
Veloce Enterprises

Incorporated
1945 to 1955 (and later?)
Models: An illustrated workshop manual covering Triumph twin-cylinder motorcycles from 1945 to 1955: This is a faithful reproduction of the Factory Workshop Manual No. 11, originally published in the US by Floyd Clymer. The major revision in the later pre-unit factory manuals was the addition of technical specifications for the T120 Bonneville (1959). Unfortunately, those revisions also included the deletion of repair data for

rigid frame, sprung hub and 3T models. This makes the Factory Workshop Manual No. 11 the most comprehensive workshop manual available for pre-unit, twin-cylinder Triumph motorcycles up to and including 1962 models as it includes repair and maintenance data for the full line of rigid frame, sprung hub, swing-arm and 350cc models. Much more detailed than the owner's handbook, this manual provides the information necessary for the overhaul of engines,

gear boxes, frames, swing-arm, forks, wheels, hubs, carburetors, electrics, etc., essential information for the enthusiast, owner or restorer of these classic motorcycles. Size: 5.5" x 8.5" with 224 pages and 84 illustrations, includes 8 pages of detailed technical specification charts and both an illustration index and a comprehensive index of contents. Applicable to the following models: 5T Speed Twin, T100 Tiger 100, TR5 Trophy, 6T Thunderbird, T110 Tiger

110 and 3T De-Luxe.
Includes maintenance and repair data for the following engines: Twin Cylinder 350cc OHV, 500cc OHV and 650cc OHV.
