Antoine of Oregon : A Story of the Oregon Trail Shawnee Press

Antoine of Oregon : A Story of the Oregon Trail The author of this series of stories for children has endeavored simply to show why and how the descendants of the early colonists fought their way through the wilderness in search of new homes. The several narratives deal with the struggles of those adventurous people who forced their way westward, ever westward, whether in hope of gain or in answer to "the call of the wild," and who, in so doing, wrote their names with their blood across this country of ours from the Ohio to the Columbia. To excite in the hearts of the young people of this land a desire to know more regarding the building up of this great nation, and at the same time to entertain in such a manner as may stimulate to noble deeds, is the real aim of these stories. In them there is nothing of romance, but only a careful, truthful record of the part played by children in the great battles with those forces, human as well as natural, which, for so long a time, held a vast 4 portion of this broad land against the advance of home seekers. With the knowledge of what has been done by our own people in our own land, surely there is no reason why one should resort to fiction in order to depict scenes of heroism, daring, and sublime disregard of suffering in nearly every form.

Italian-born Ludovico Einaudi's Piano music has struck a chord with audiences across the world, and his distinctive meditative style has confirmed his place in the music industry. His albums have soared high in the classical charts and his recitals have been sell-outs. This is Ludovico Einaudi's new project, *Nightbook* - a musical meditation on the transition between light and darkness, the known and the unknown. Expressive and with a more open compositional structure, sonic colours are created through the close blending of the Piano with the Strings and percussion and from the use of electronics which amplifies the sound of the Piano, projecting it like a shadow in all directions. The project grew out of the ideas and "musical sketches" that Einaudi jotted down in a notebook whilst on tour around the world. Einaudi describes the project as A night-time landscape. A garden faintly visible under the dull glow of the night sky. A few stars dotting the darkness above, shadows of the trees all around. Light shining from a window behind me. What I can see is familiar, but it seems alien at the same time. It's like a dream - anything may happen. Selections of expressive and contemplative songs from the album have all been specially transcribed for solo Piano.
