Zombie Zero: The

Last Zombie Penguin
A cloth bag containing 20 paperback copies of the title that may also include a folder with sign out sheets.

Edens Zero 4 Hachette
UK
Top cybersecurity
journalist Kim Zetter
tells the story behind
the virus that
sabotaged Iran's
nuclear efforts and
shows how its
existence has ushered
in a new age of
warfare—one in which
a digital attack can
have the same
destructive capability
as a megaton bomb. In
January 2010,
inspectors with the
International Atomic
Energy Agency noticed
that centrifuges at an
Iranian uranium
enrichment plant were
failing at an
unprecedented rate.
The cause was a
complete
mystery—apparently
as much to the
technicians replacing
the centrifuges as to
the inspectors

observing them. Then,
five months later, a
seemingly unrelated
event occurred: A
computer security firm
in Belarus was called in
to troubleshoot some
computers in Iran that
were crashing and
rebooting repeatedly.
At first, the firm's
programmers believed
the malicious code on
the machines was a
simple, routine piece of
malware. But as they
and other experts
around the world
investigated, they
discovered a
mysterious virus of
unparalleled
complexity. They had,
they soon learned,
stumbled upon the
world's first digital
weapon. For Stuxnet,
as it came to be
known, was unlike any
other virus or worm
built before: Rather
than simply hijacking

targeted computers or stealing information from them, it escaped the digital realm to wreak actual, physical destruction on a nuclear facility. In these pages, Wired journalist Kim Zetter draws on her extensive sources and expertise to tell the story behind Stuxnet's planning, execution, and discovery, covering its genesis in the corridors of Bush's White House and its unleashing on systems in Iran—and telling the spectacular, unlikely tale of the security geeks who managed to unravel a sabotage campaign years in the making. But *Countdown to Zero Day* ranges far beyond Stuxnet itself. Here, Zetter shows us how digital warfare developed in the US. She takes us inside

today's flourishing zero-day "grey markets," in which intelligence agencies and militaries pay huge sums for the malicious code they need to carry out infiltrations and attacks. She reveals just how vulnerable many of our own critical systems are to Stuxnet-like strikes, from nation-state adversaries and anonymous hackers alike—and shows us just what might happen should our infrastructure be targeted by such an attack. Propelled by Zetter's unique knowledge and access, and filled with eye-opening explanations of the technologies involved, *Countdown to Zero Day* is a comprehensive and prescient portrait of a world at the edge of a

new kind of war.

A sustainable lifestyle

starts in the kitchen

with these use-what-

you-have, spend-less-

money recipes and

tips, from the friendly

voice behind

@ZeroWasteChef. In

her decade of living

with as little plastic,

food waste, and stuff

as possible, Anne-

Marie Bonneau, who

blogs under the

moniker Zero-Waste

Chef, has learned that

"zero-waste" is above

all an intention, not a

hard-and-fast rule.

Because, while one

person eliminating all

their waste is great, if

thousands of people do

20 percent better it will

have a much bigger

impact on the planet.

The good news is you

likely already have all

the tools you need to

begin to create your

own change at home,

especially in the

kitchen. In her debut

book, Bonneau gives

readers the facts to

motivate them to do

better, the simple (and

usually free) fixes to

ease them into wasting

less--you can, for

example, banish plastic

wrap by simply

inverting a plate over

your leftovers--and,

finally, the recipes and

strategies to turn them into more sustainable, money-saving cooks. Rescue a loaf from the landfill by making Mexican Hot Chocolate Bread Pudding, or revive some sad greens to make a pesto. Save five bucks (and the plastic tub) at the supermarket with Yes Whey, You Can Make Ricotta Cheese, then use the cheese in a galette and the leftover whey to make sourdough tortillas. With 75 vegan and vegetarian recipes for cooking with scraps, creating fermented staples, and using up all your groceries before they become waste--including end-of-recipe tips on what to do with your ingredients next--Bonneau lays out an attainable vision of a zero-waste kitchen.

Elsevier Health Sciences

Late one evening in the summer of 2003, Erec Toso arrived home to his wife and children after an ordinary day at his university office. In the darkness of his yard, a rattlesnake lay along the path, basking in the post-monsoon coolness. Toso, lost in thought, never saw the snake, which struck him on the foot and injected a huge dose of venom. Zero at the Bone is a deeply personal narrative about Toso's physical recovery and emotional transformation following this near-death experience. In elegant prose that inspires as much as it unsettles, Toso takes the reader along with him on his expedition

into the uncharted territory of cellular damage, hallucination, and ultimately profound spiritual awakening. On all levels, it is a book about pain. Toso spares no detail in his accounts of agonizing hospital procedures, in his revelations about rattlesnake lore, or in his descriptions of the wide-ranging effects of snake venom. But quickly the reader realizes that the physical pain of the snakebite is only the more tangible marker of the psychological pain and turmoil that Toso endures in the emotional journey that ensues. In the months that follow his terrifying attack, priorities, daily habits, family relations, and definitions of self all come into question.

What is predictable becomes problematic; what is comfortable becomes disconcerting. In a story that hinges on a common fear about an unlikely event—that of a snakebite—Toso uncovers a more widespread reality that many of us do not fear enough—complacency. *Zero at the Bone*
 Quintessence Publishing (IL)
 After witnessing a mob hit, surgeon Jack Francisco is put into protective custody to keep him safe until he can testify. A hitman known only as D is blackmailed into killing Jack, but when he tracks him down, his weary conscience won't allow him to murder an innocent man. Finding in each other an unlikely ally, Jack and D are soon on

the run from shadowy enemies. Forced to work together to survive, the two men forge a bond that ripens into unexpected passion. Jack sees the wounded soul beneath D's cold, detached exterior, and D finds in Jack the person who can help him reclaim the man he once was. As the day of Jack's testimony approaches, he and D find themselves not only fighting for their lives... but also fighting for their future. A future together.

 The instant #1 New York Times bestseller. In time for the twentieth anniversary of 9/11, master storyteller Alan Gratz (Refugee) delivers a pulse-pounding and unforgettable take on history and hope, revenge and fear -- and the stunning links between the past and present. September 11, 2001, New York City: Brandon is visiting his dad at work, on the 107th floor of the World Trade Center. Out of nowhere, an airplane slams into the tower, creating a fiery nightmare of terror and confusion. And Brandon is in the

middle of it all. Can he survive -- and escape? September 11, 2019, Afghanistan: Reshmina has grown up in the shadow of war, but she dreams of peace and progress. When a battle erupts in her village, Reshmina stumbles upon a wounded American soldier named Taz. Should she help Taz -- and put herself and her family in mortal danger? Two kids. One devastating day. Nothing will ever be the same.

Carr Luka is a rising star in the weightless combat sport called zeroboxing. But Carr gets involved with a far-reaching criminal scheme, threatening his budding relationship with his marketing strategist. Macmillan His sister's disappearance threatens to tear a boy's family apart Cray is the first to smell smoke. It's his 1st week on the job, working alongside his father at the family plant, and he's afraid of making a fool of

himself. So he waits on the factory floor, the machines screaming and wood chips flying. But he's finally certain: The roof is on fire, and if the blaze isn't put out, the factory could explode. Cray calls the fire department and races through the building telling the workers to flee. He's amazed by how calm they are. The fire is extinguished, and life slowly returns to normal. But the true crisis is just around the corner. When Cray's sister disappears and the police search reveals no trace of her, he discovers fear affects everyone differently—and it's not always smart to stay calm.

EDENS ZERO 12 Crown A NEW YORK TIMES NOTABLE BOOK The Babylonians invented

it, the Greeks banned it, the Hindus worshipped it, and the Christian Church used it to fend off heretics. Today it's a timebomb ticking in the heart of astrophysics. For zero, infinity's twin, is not like other numbers. It is both nothing and everything. Zero has pitted East against West and faith against reason, and its intransigence persists in the dark core of a black hole and the brilliant flash of the Big Bang. Today, zero lies at the heart of one of the biggest scientific controversies of all time: the quest for a theory of everything. Within the concept of zero lies a philosophical and scientific history of humanity. Charles Seife's elegant and witty account takes us

from Aristotle to superstring theory by way of Egyptian geometry, Kabbalism, Einstein, the Chandrasekhar limit and Stephen Hawking. Covering centuries of thought, it is a concise tour of a world of ideas, bound up in the simple notion of nothing.

Near the Bone

Kodansha America LLC
 NEW YORK TIMES
 BESTSELLER • "This is one of those books that will go down as the seminal work—the determinative work—in this field. . . . Terrifying."—Rachel Maddow
 The first definitive account of the rise and fall of the Secret Service, from the Kennedy assassination to the alarming mismanagement of the Obama and Trump

years, right up to the insurrection at the Capitol on January 6—by the Pulitzer Prize winner and #1 New York Times bestselling co-author of *A Very Stable Genius* and *I Alone Can Fix It* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE WASHINGTON POST Carol Leonnig has been reporting on the Secret Service for *The Washington Post* for most of the last decade, bringing to light the secrets, scandals, and shortcomings that plague the agency today—from a toxic work culture to dangerously outdated equipment to the deep resentment within the ranks at key agency leaders, who put protecting the agency's once-hallowed image before

fixing its flaws. But the Secret Service wasn't always so troubled. The Secret Service was born in 1865, in the wake of the assassination of Abraham Lincoln, but its story begins in earnest in 1963, with the death of John F. Kennedy. Shocked into reform by its failure to protect the president on that fateful day in Dallas, this once-sleepy agency was radically transformed into an elite, highly trained unit that would redeem itself several times, most famously in 1981 by thwarting an assassination attempt against Ronald Reagan. But this reputation for courage and excellence would not last forever. By Barack Obama's presidency, the once-proud Secret Service

was running on fumes and beset by mistakes and alarming lapses in judgment: break-ins at the White House, an armed gunman firing into the windows of the residence while confused agents stood by, and a massive prostitution scandal among agents in Cartagena, to name just a few. With Donald Trump's arrival, a series of promised reforms were cast aside, as a president disdainful of public service instead abused the Secret Service to rack up political and personal gains. To explore these problems in the ranks, Leonnig interviewed dozens of current and former agents, government officials, and whistleblowers who put their jobs on the line to speak out about a

hobbled agency that's in desperate need of reform. "I will be forever grateful to them for risking their careers," she writes, "not because they wanted to share tantalizing gossip about presidents and their families, but because they know that the Service is broken and needs fixing. By telling their story, they hope to revive the Service they love."

Zero at the Bone

Dreamspinner Press
An "extremely funny...brilliantly alive" (The New York Times Book Review) social satire of the highest order from bestselling author Sam Lipsyte, centered around an unwitting mindfulness guru and the phenomenon he initiates. In an America

convulsed by political upheaval, cultural discord, environmental catastrophe, and spiritual confusion, so many of us find ourselves anxious and distracted, searching desperately for peace, salvation, and—perhaps most immediately—just a little damn focus. Enter Hark Morner, a failed stand-up comic turned mindfulness guru whose revolutionary program is set to captivate the masses. But for Fraz and Tovah, a middle-aged couple slogging through a very rough patch, it may take more than the tenets of Hark’s “Mental Archery” to solve the riddles of love, lust, work, and parenthood on the eve of civilizational collapse. And given the sudden power of

certain fringe players, including a renegade Ivy League ethicist, a gentle Swedish kidnapper, a social media tycoon with an empire on the skids, and a mysteriously influential (but undeniably slimy) catfish, it just might be too late. But what’s the point of a world, even a blasted-out post-apocalyptic world, if they don’t try with all their might to keep their marriage alive? In this “awfully funny...tartly effective sendup of 21st-century America” (Star Tribune, Minneapolis) Sam Lipsyte reaches new peaks of daring in a novel that revels in contemporary absurdity and the wild poetry of everyday language while exploring the emotional truths of his

characters.
 "Recommended reading" (Vanity Fair), in which "every line feels as thrillingly charged as a live wire" (O, The Oprah Magazine), Hark is a smart, incisive look at men, women, and children seeking meaning and dignity in a chaotic, ridiculous, and often dangerous world.

Rewriting Life After a Snakebite Minotaur Books

For sixteen-year-old Geth Montego, zero o'clock begins on March 11, 2020. By June, she wonders if it will ever end. "An insightful, eye-opening, and inventive story. C.J. Farley has penned a novel that sheds an important light on real issues facing young people today." --Angie Thomas, author of The

Hate U Give "Zero O'Clock is a beautiful and timely YA novel that is both heartbreaking and whip smart, a glimpse into the world of virtual friendship, classrooms, and pop stardom." -- Jeanne McWilliams Blasberg, author of The Nine "Thoughtful, provocative, and pounding with the fast-paced beat of a sharp-witted adolescent mind, Zero O'Clock is the story of a Jamaican-American teen girl at the early epicenter of the COVID-19 pandemic in New Rochelle, New York. C.J. Farley has created an irresistible heroine in Geth Montego. Simmering with justifiable anger at everything from the cancellation of her senior prom to racial injustices and police

brutality, Geth manages to overcome grief, anxiety, and confusion to discover a new sense of herself and her ability to create change." -- Karen Dukess, author of *The Last Book Party* "Zero O'Clock seems to have a direct line into the mindset of a modern teenager. I enjoyed it immensely!" --Alex Wheatle, author of *Cane Warriors* In early March 2020 in New Rochelle, New York, teenager Geth Montego is fumbling with the present and uncertain about her future. She only has three friends: her best friend Tovah, who's been acting weird ever since they started applying to college; Diego, who she wants to ask to prom; and the K-pop band BTS, because the group

always seems to be there for her when she needs them (at least in her head). She could use some help now. Geth's small city becomes one of the first COVID-19 containment zones in the US. As her community is upended by the virus and stirred up by the growing Black Lives Matter protests, Geth faces a choice and a question: Is she willing to risk everything to fight for her beliefs? And if so, what exactly does she believe in? C.J. Farley captures a moment in spring 2020 no teenager will ever forget. It sucks watching the world fall apart. But sometimes you have to start from zero.

ICD-O Penguin
Robert Eversz's edgy and endearing heroine

Nina Zero is back...and this time she's embroiled in her most dangerous case ever -- investigating L.A.'s underground S&M scene while getting caught up in sex, lies, and babysitting. It's opening night of Nina Zero's first gallery show, and her staged photographs of Hollywood pulp scenes are attracting the interest of actual art connoisseurs, not just the usual gossip rag readership. But the excitement of the evening shifts to alarm when Nina receives an anonymous package containing an amateur bondage video that may have ended in death. As she and her editor at Scandal Times watch the rape and strangling of a young woman, Nina Zero recognizes a distinctive

tattoo on the woman's right shoulder, and suddenly realizes why one of her models has missed the opening. Who sent the tape? And more important, what happened to the woman? Nina starts investigating her model and discovers a parallel life of S&M phone sex, blogs written in code, an illicit relationship with a celebrity hypnotherapist, and ties to the son of a billionaire film director. Her Scandal Times coverage of the case enrages the LAPD and attracts death threats from anonymous sources. Luckily, Nina has her trusted (but toothless) Rottweiler by her side, as well as a sexy but mysterious detective who keeps landing in her bed. Just when events begin to

spin from her control, Nina's deeply dysfunctional family enters the fray, making life even more complicated for this ex-con with a soft heart and a chip on her shoulder. Set in a vividly sunny and sinister Los Angeles, *Zero to the Bone* is the best (and sexiest) Nina Zero novel yet.

Zero at the Bone

Elsevier Health Sciences

For ex-detective Frank Swann, being on the outside of Western Australia's police force is the only way to get justice done. Perth in 1979 is a city of celebration and corruption. There are street parties, official glad-handing – even a royal visit – to commemorate a century and a half since colonisation. But

behind the festivities a new kind of land grab is going on, this time for mining leases. The price of gold is up, and few are incorruptible before its lure. When Swann is hired to probe the suicide of a well-regarded geologist, he's drawn into a mire of vice and fraud that has at its heart a lust for wealth that verges on a disease . . . By the author of the acclaimed *Line of Sight*, *Zero at the Bone* lifts the lid on Perth at the start of the mining boom to show a town where Chinatown meets Underbelly, and where the establishment and the lawless blend into one. 'Full of crooked cops, corrupt politicians and rapacious mining companies . . . I really enjoyed *Zero at the*

Bone.' Michael Robotham 'Has all the economy, pace, unexpected humour and local colour we've come to expect from David Whish-Wilson. Highly recommended.' Adrian McKinty 'The plot is unexpected and intriguing, the action intense, but best of all is Whish-Wilson's ability to draw characters so familiar they could be next-door neighbours. Beautifully written ... An absorbing read and thoroughly

recommended if you love a great story. You won't want to put this one down until the very last page.' West Australian 'Satisfying turns [hold] narrative interest in a complex plot... This heavily researched and painstaking attention to detail skilfully captures the essence of Perth in the late 1970s and bodes well for Whish Wilson.' ABR 'Zero at the Bone is a gritty and utterly absorbing read... I'll be going back for more.' Good Reading
