This anthology brings the key writings on translation in Arabic in the pre-modern era, extending from the earliest times (sixth century CE) until the end of World War I, to a global English-speaking audience. The texts are arranged chronologically and organized by two historical periods: the Classical Period, and the Nahda Period. Each text is preceded by an introduction about the selected text and author, placing the work in context, and discussing its significance. The texts are complemented with a theoretical commentary, discussing the significance for the contemporary period and modern theory. A general introduction covers the historical context, main trends, research interests, and main findings and conclusions. The two appendices provide statistical data of the corpus on which the anthology is based, more than 500 texts of varying lengths extending throughout the entire period of study. This collection contributes to the development of a more inclusive and global history of translation and interpreting. Translated, edited, and analyzed by leading scholars, this anthology is an invaluable resource for researchers, students, and translators interested in translation studies, Arab/Islamic history, and Arabic language and literature, as well as Islamic theology, linguistics, and the history of science. Lonely Planet Oman, UAE & Arabian Peninsula John Wiley & Sons Wahhabism is an Islamic reform movement found mainly in Saudi Arabia. Closely linked to the Saudi monarchy, it enforces a strict code of morality and conduct monitored by mutawa (religious police), and governs every facet of Saudi life according to its own strict interpretation of Shariah, including gender segregation. Wahhabism also prohibits the practice of any other faith (even other forms of Islam) in Saudi Arabia, which is also the only country that forbids women from driving. But what exactly is Wahhabism? This question had long occupied Valentine, so he lived in the Kingdom for three years, familiarizing himself with its distinct interpretation of Islam. His book defines Wahhabism and Wahhabi beliefs and considers the life and teaching of Muhammad ibn Abd'al Wahhab and the later expansion of his sect. Also discussed are the rejection of later developments in Islam such as bid'ah; harmful innovations, among them celebrating the prophet's birthday and visiting the tombs of saints; the destruction of holy sites due to the fear of idolatry; Wahhabi law, which imposes the death sentence for crimes as archaic as witchcraft and sorcery, and the connection of Wahhabism with militant Islam globally. Drawing on interviews with Saudis from all walks of life, including members of the feared mutawa, this book appraises

of one of the most significant movements in contemporary Islam. **Play with Us** Simon and Schuster
 La 4e de couv. indique : "Located in north-western Saudi Arabia, AlUla is a spectacular natural and archaeological region. This book traces its age-old history, from the earliest human occupation seven thousand years ago to the present day. It also examines the extensive archaeological research that has been conducted for nearly thirty years, notably by Franco-Saudi teams. The geological formation of the valley and its oases, the cult practices of the ancient pre-Islamic kingdoms, the majesty of the Nabatean rock-cut tombs, the birth of the Arabic script, the life of pilgrims who stopped in AlUla on their way from Damascus to Medina and the construction of the Hijaz railway all prove the importance of this long-overlooked site, at the crossroads of civilisations. AlUla - known as Hegra to the Nabateans and Romans, and the first Saudi archaeological site to be added to the UNESCO World Heritage List, in 2008 - is opening up to the world. Comparable in scale and importance to Petra in Jordan, Hegra is revealing its treasures for the duration of an exhibition."
