This investigation of the fundamental character of organizational identity and identification with an organization is arranged in the form of a provocative discussion between key scholars. The book focuses on three different paradigmatic views of identity: functionalist, interpretive and postmodern. Similarities and distinctions among these ways of understanding are explored, and numerous theoretical and practical insights are gained. The book

concludes with a discussion of the relevance of identity as a construct in organizational study, and observations on conversation and theory building. *Food and Nutrition Information and Educational Materials Center Catalog* Institute of Banking Personnel Selection (IBPS) CWE Exam 2019 (CLERK), Preliminary examination, in English with previous year solved paper
