"He murdered his wife," they whispered. Nicholas Bragg, Earl of Dragmore, was notorious--even after a British court found him innocent. Now they called

him Lord of Darkness, as much for his rakish good looks as for his black reputation. She was an innocent at passion's gate. Arriving uninvited at the massive stone manor, she shivered with terror--and excitement. Jane Barclay was his ward. Her sunny, innocent nature was in violent contrast to his hot temper. He was wild, explosive, an uncouth Texas rakehell--exactly the wrong kind of man for an English beauty to tame. Together they would be swept into the dark storm of their

passionate destiny...and wild, all-consuming love. *The Darkest Heart* Harper Collins

This ground-breaking text explores the intersection

between dominant modes of critical educational theory and the socio-political landscape of American Indian education. Grande asserts that, with few exceptions, the matters of Indigenous people and Indian education have been either largely ignored or indiscriminately absorbed within critical theories of education. Furthermore, American Indian scholars and educators have largely resisted engagement with critical educational theory, tending to concentrate

instead on the production of historical monographs, ethnographic studies, tribally-centered curricula, and site-based research. Such a focus stems from the fact that most American Indian scholars feel compelled to address the socio-economic urgencies of their own communities, against which engagement in abstract theory appears to be a luxury of the academic elite. While the author acknowledges the dire need for practical-community based research, she maintains

that the global encroachment on Indigenous lands, resources, cultures and communities points to the equally urgent need to develop transcendent theories of decolonization and to build broad-based coalitions.
