Born in 1938 in rural Kenya, Ngũgĩ wa Thiong'o came of age in the shadow of World War II, amidst the terrible bloodshed in the war between the Mau Mau and the British. The son of a man whose four wives bore him more than a score of children, young Ngũgĩ displayed what was then considered a bizarre thirst for learning, yet it was unimaginable that he would grow up to become a world-renowned novelist, playwright, and critic. In *Dreams in a Time of War*, Ngũgĩ deftly etches a bygone era, bearing witness to the social and political vicissitudes of life under colonialism and war. Speaking to the human right to dream even in the worst of times, this rich memoir of an African childhood abounds in delicate and powerful subtleties and complexities that are movingly told.

In this book, we have hand-picked the most sophisticated, unanticipated, absorbing (if not at times crackpot!), original and musing book reviews of "For All the Tea in China: How England Stole the World's Favorite Drink and Changed History." Don't say we didn't warn you: these reviews are known to shock with their unconventionality or intimacy. Some may be startled by their biting sincerity; others may be spellbound by their unbridled flights of fantasy. Don't buy this book if: 1. You don't have nerves of steel. 2. You expect to get pregnant in the next five minutes. 3. You've heard it all. *Luli and the Language of Tea* Des Voeux Press (US)

A pioneer shares the secrets to creating jobs and reaping profits doing business with China Is China a threat to America's economic future? Just the opposite, says international businessman Jeremy Haft. China is a boon for business: the opportunity of a lifetime to create jobs, build value, and make money. Gino and I never thought that we would ever live in the land of Nine Dragons. It was not on our bucket list, and not on any horizon that we had discussed. It seemed as if by some magic though, that we laboured initially against a tide of administration, before we found ourselves in this land of ancient wonder. Our life here is the theme of this story, it was not always beautiful. It was at times frustrating, and often totally confusing and overwhelming. One thing is for certain - It was never boring. China, the people, the expats and friends that we made have left an indelible (red) smudge on the fabric of my memory. A memory that I would not trade...Not for all the tea in China...."

**The Book of Tea** Academic Press

A dramatic historical narrative of the man who stole the secret of tea from China In 1848, the British East India Company, having lost its monopoly on the tea trade, engaged Robert Fortune, a Scottish gardener, botanist, and plant hunter, to make a clandestine trip into the interior of China—territory forbidden to foreigners—to steal the closely guarded secrets of tea horticulture and manufacturing. For All the Tea in China is the remarkable account of Fortune's journeys into China—a thrilling narrative that combines history, geography, botany, natural science, and old-fashioned adventure. Disguised in Mandarin robes, Fortune ventured deep into the country, confronting pirates, hostile climate, and his own untrustworthy men as he made his way to the epicenter of tea production, the remote Wu Yi Shan hills. One of the most daring acts of corporate espionage in history, Fortune's

pursuit of China's ancient secret makes for a classic nineteenth-century adventure tale, one in which the fate of empires hinges on the feats of one extraordinary man.

*Tea in China* Simon and Schuster

A history of capitalism in nineteenth- and twentieth-century China and India exploring the competition between their tea industries Tea remains the world's most popular commercial drink today, and at the turn of the twentieth century, it represented the largest export industry of both China and colonial India. In analyzing the global competition between Chinese and Indian tea, Andrew B. Liu challenges past economic histories premised on the technical "divergence" between the West and the Rest, arguing instead that seemingly traditional technologies and practices were central to modern capital accumulation across Asia. He shows how competitive pressures compelled Chinese merchants to adopt abstract, industrial conceptions of time, while colonial planters in India pushed for labor indenture laws to support factory-style tea plantations. Further, characterizations of China and India as premodern backwaters, he explains, were themselves the historical result of new notions of political economy adopted by Chinese and Indian nationalists, who discovered that these abstract ideas corresponded to concrete social changes in their local surroundings. Together, these stories point toward a more flexible and globally oriented conceptualization of the history of capitalism in China and India.
