Copley's *Essentials of Accounting for Governmental and Not-for-Profit Organizations*, 12e is best suited for those professors whose objective is to provide more concise coverage than what is available in larger texts. The main focus of this text is on the preparation of external financial statements which is a challenge for governmental reporting. The approach in this edition is similar to that used in practice. Specifically, day to day events are recorded at the fund level using the basis of accounting for fund financial statements. Governmental activities are recorded using the modified accrual basis. The fund-basis statements are then used as input in the preparation of government-wide statements. The preparation of government-wide statements is presented in an Excel worksheet.

Governmental Accounting McGraw-Hill/Irwin

"Thank you for considering the thirteenth edition of *Essentials of Accounting for Governmental and Not-for-Profit Organizations*. I have used the text with traditional three-semester-hour classes, with half-semester GNP courses, and as a module in advanced accounting classes. It is appropriate for accounting majors or as part of a public administration program. The Excel-based problems were developed to facilitate delivery through distance learning formats. The focus of the text is on the preparation of external financial statements. The coverage is effective in preparing candidates for the CPA examination"--

Running public sector organizations requires specialist accounting and finance skills to overcome the unique challenges of the sector. Citizens rely on their governments to provide a wide range of public services from an inevitably limited budget and therefore the better that the public money is managed the more services that can be delivered. Just as there is no single best way to manage a business there is no single best way to manage public finances. Co-published by the Chartered Institute of Public Finance and Accountancy (CIPFA), the world's leading professional public finance accountancy body, *International Public Financial Management: Essentials of Public Sector Accounting* provides an expert introduction to public sector accounting and finance. This book was conceived to accompany CIPFA's International Public Financial Management (IPFM) qualifications as a resource for students that seeks to capture the essential elements of the modules they study, and reflects good practice as put forward by CIPFA in its examination syllabuses. Students of public management and public sector accounting will find this a useful text. Practitioners working in the public sector will also find this concise book vital reading in seeking value for money in providing public services.

Financial Accounting for Local and State School Systems Irwin Professional Publishing

Demystifying a growing and dynamic field, *Handbook of Governmental Accounting* reflects the increasing complexity of this area, enabling readers to grasp the intricate accounting that is involved as government expenditures multiply and governments engage in progressively complex transactions. Drawing on the expertise of a distinguished group of contributors, the book begins with a discussion of the growth of generally accepted accounting principles (GAAP), providing a historical perspective which highlights the greater levels of accountability in government finance. It covers governmental funds, proprietary funds, and fiduciary funds. It also reviews governmental financial reporting and examines the process of auditing governmental entities. While the majority of the chapters relate to state and local governments in the United States, the book also provides insight into federal accounting and international public sector accounting standards. Presenting numerous useful charts and sample budget outlines, this book provides concrete guidance in an area that has increased in complexity as governmental accountability takes on a heightened priority.
